Sexuality in Europe Dagmar Herzog, 2011-08-18 This original book brings a fascinating and accessible account of the tumultuous history of sexuality in Europe from the waning of Victorianism to the collapse of Communism and the rise of European Islam Although the twentieth century is often called the century of sex and seen as an era of increasing liberalization Dagmar Herzog instead emphasizes the complexities and contradictions in sexual desires and behaviours the ambivalences surrounding sexual freedom and the difficulties encountered in securing sexual rights Incorporating the most recent scholarship on a broad

range of conceptual problems and national contexts the book investigates the shifting fortunes of marriage and prostitution contraception and abortion queer and straight existence It analyzes sexual violence in war and peace the promotion of sexual satisfaction in fascist and democratic societies the role of eugenics and disability the politicization and commercialization of sex and processes of secularization and religious renewal **Postcommunism from Within** Jan Kubik, Amy

Linch, 2013-08-26 While the decline of communism in the late twentieth century brought democracy political freedom and better economic prospects for many people it also produced massive social dislocation and engendered social problems that were far less pronounced under the old regimes The fall of state socialism led to enormously complex political economic social and cultural transformations and while political liberalization was a lofty goal it was neither uniform in its effects nor unqualified in its benefits Postcommunism from Within foregrounds the diversity of the historical experiences and current realities of people in the postcommunist region in examining how they are responding to these monumental changes at home The original essays in this volume lay out a bold new approach to research on the postcommunist region and to democratization studies more broadly that focuses on the social and cultural microprocesses behind political and economic transformation Thematic essays by eminent scholars of postcommunism from across the social sciences are supported by case studies to demonstrate the limitations of current democratization paradigms and suggest ways of building categories of research that more closely capture the role of vernacular knowledge in demanding creating and adapting to institutional change A novel approach to understanding one of the greatest political and social transformations in recent history Postcommunism from Within explores not just how citizens respond to political and economic restructuring engineered at the top but also how people enact their own visions of life politics and justice by responding to daily challenges **The**

Russia Suvi Salmenniemi, 2008-05-20 This book examines civic activism democratization and gender in contemporary Russian society It explores the role of state institutions in the development of democratic civic life showing how under the increasingly authoritarian Putin regime and its policy of managed democracy independent civic activism is both thriving yet simultaneously constrained **Social Inequalities and Discontent in Yugoslav Socialism** Rory Archer, Igor Duda, Paul Stubbs, 2016-03-31 Socialist countries like Yugoslavia garnered legitimacy through appealing to social equality Yet social stratification was characteristic of Yugoslav society and increased over the course of the state's existence By the 1980s the country was divided on socio economic as well as national lines Through case studies from a range of social milieux contributors to this volume seek to bring class back in to Yugoslav historiography exploring how theorisations of social class informed the politics and policies of social mobility and conversely how societal or grassroots understandings of class have influenced politics and policy Rather than focusing on regional differentiation between Yugoslav republics and provinces the emphasis is placed on social differentiation and discontent within particular communities The contributing authors of these historical studies come from diverse disciplinary backgrounds linking scholarship from the socialist era to contemporary research based on accessing newly available primary sources Voices of a wide spectrum of informants are included in the volume from factory workers and subsistence farmers to fictional television characters and pop folk music superstars

The Ethnographic Self as Resource Peter Jeffrey Collins, Anselma Gallinat, 2010 An excellent collection of anthropological autobiographical essays focusing on the positionality and resource of the self in ethnography The essays are engaging and well written and remind me of some of those classic anthropological ethnographic collections interesting in their own right to read but also serving as a good teaching resource Amanda Coffey Cardiff University Masquerade and Postsocialism Gerald W. Creed, 2011-01-24 Jacket **Gendered Scenarios of Revolution** Rosario Montoya, 2012-12-01 In 1979 toward the end of the Cold War era Nicaragua's Sandinista movement emerged on the world stage claiming to represent a new form of socialism Gendered Scenarios of Revolution is a historical ethnography of Sandinista state formation from the perspective of El Tule a peasant village that was itself thrust onto a national and international stage as a model Sandinista community This book follows the villagers' story as they joined the Sandinista movement performed revolution before a world audience and grappled with the lessons of this experience in the neoliberal aftermath Employing an approach that combines political economy and cultural analysis Montoya argues that the Sandinistas collapsed gender contradictions into class ones and that as the Contra War exacerbated political and economic crises in the country the Sandinistas

increasingly ruled by mandate as vanguard party instead of creating the participatory democracy that they professed to work toward In El Tule this meant that even though the Sandinistas created new roles and possibilities for women and men over time they upheld pre revolutionary patriarchal social structures Yet in showing how the revolution created opportunities for Tule os to assert their agency and advance their interests even against the Sandinistas own interests this book offers a reinterpretation of the revolution s supposed failure Examining this community s experience in the Sandinista and post Sandinista periods offers perspective on both processes of revolutionary transformation and their legacies in the neoliberal era Gendered Scenarios of Revolution will engage graduate and undergraduate students and scholars in anthropology sociology history and women s and gender studies and appeal to anyone interested in modern revolution and its aftermath

Capitalism and Democracy in Central and Eastern Europe Grzegorz Ekiert, Stephen E. Hanson, 2003-09-15 This volume presents a shared effort to apply a general historical institutionalist approach to the problem of assessing institutional change in the wake of communism s collapse in Europe It brings together a number of leading senior and junior scholars with outstanding reputations as specialists in postcommunism and comparative politics to address central theoretical and empirical issues involved in the study of postcommunism The authors address such questions as how historical legacies of the communist regime be defined how their impact can be measured in methodologically rigorous ways and how the effects of temporal and spatial context can be taken into account in empirical research on the region Taken as a whole the volume makes an important contribution to the growing literature by utilizing the comparative historical method to study key problems of world politics *The Global Encyclopaedia of Informality, Volume 2* Alena Ledeneva, 2018-01-17

Alena Ledeneva invites you on a voyage of discovery to explore society s open secrets unwritten rules and know how practices Broadly defined as ways of getting things done these invisible yet powerful informal practices tend to escape articulation in official discourse They include emotion driven exchanges of gifts or favours and tributes for services interest driven know how from informal welfare to informal employment and entrepreneurship identity driven practices of solidarity and power driven forms of co optation and control The paradox or not of the invisibility of these informal practices is their ubiquity Expertly practised by insiders but often hidden from outsiders informal practices are as this book shows deeply rooted all over the world yet underestimated in policy Entries from the five continents presented in this volume are samples of the truly global and ever growing collection made possible by a remarkable collaboration of over 200 scholars across disciplines and area studies By mapping the grey zones blurred boundaries types of ambivalence and contexts of complexity this book creates the first Global Map of Informality The accompanying database www.informality.com is searchable by region keyword or type of practice so do explore what works how where and why Praise for Global Encyclopaedia of Informality The Global Informality Project unveils new ways of understanding how the state functions and ways in which civil servants and citizens adapt themselves to different local contexts by highlighting the diversity of the relationships between

state and society The project is of great interest to policymakers who want to imagine solutions that are beneficial for all but sufficiently pragmatic to ensure a seamless implementation particularly in the field of cross border trade in developing countries Kunio Mikuriya Secretary General of the World Customs Organisation Brussels An extremely interesting and stimulating collection of papers Ledeneva's challenging ideas first applied in the context of Russia's economy of shortage came to full blossom and are here contextualized by practices from other countries and contemporary systems Many original and relevant practices were recognized empirically in socialist countries but this book shows their generality János Kornai Allie S Freed Professor of Economics Emeritus at Harvard and Professor Emeritus at Corvinus University of Budapest Alena Ledeneva's Global Encyclopedia of Informality is a unique contribution providing a global atlas of informal practices through the contributions of over 200 scholars across the world It is far more rewarding for the reader to discover how commonalities of informal behavior become apparent through this rich texture like a complex and hidden pattern behind local colors than to presume top down universal benchmarks of good versus bad behavior This book is a plea against reductionist approaches of mathematics in social science in general and corruption studies in particular and makes a great read as well as an indispensable guide to understand the cultural richness of the world Alina Mungiu Pippidi Professor of Democracy Studies Hertie School of Governance Berlin Transformative scholarship in method object and consequence Ledeneva and her networked expertise not only enable us to view the informal comparatively but challenge conventionally legible accounts of membership markets domination and resistance with these rich accounts from five continents This project offers nothing less than a social scientific revolution if the broader scholarly community has the imagination to follow through And by globalizing these informal knowledges typically hidden from view the volumes contributors will extend the imaginations of those business consultants movement mobilizers and peace makers who can appreciate the value of translation from other world regions in their own work Michael D Kennedy Professor of Sociology and International and Public Affairs Brown University and author of Globalizing Knowledge Don't mistake these weighty volumes for anything directory like or anonymous This wonderful collection of short essays penned by many of the single best experts in their fields puts the reader squarely in the kinds of conversations culled only after years of friendship trust and with the keen eye of the practiced observer Perhaps most importantly the remarkably wide range of offerings lets us deparochialise corruption and detach it from the usual hyper local and cultural explanations The reader in the end is the one invited to consider the many and striking commonalities Bruce Grant Professor at New York University and Chair of the US National Council for East European and Eurasian Research

On the Social Life of Postsocialism Daphne Berdahl, 2010 Anthropologist Daphne Berdahl was one of the leading scholars of the transition from state socialism to capitalism in central and eastern Europe From her pathbreaking ethnography of a former East German border village in the aftermath of German reunification to her insightful analyses of consumption nostalgia and citizenship in the early 21st century Berdahl's writings probe the

contradictions paradoxes and ambiguities of postsocialism as few observers have done This volume brings together her essays from an early study of memory at the Vietnam War memorial in Washington D C to research on consumption and citizenship undertaken in Leipzig in the years before her untimely death It serves as a superb introduction to the development of the field of postsocialist cultural studies

Where the World Ended Daphne Berdahl,1999-04-10 Focusing on the re unification of Germany this text asks what happens when a political and economic system collapses overnight It concentrates especially on how these changes have affected certain border zones of daily life including social organization gender and religion

Berlin, Alexanderplatz Gisa Weszkalnys,2010-05-01 A benchmark study in the changing field of urban anthropology Berlin Alexanderplatz is an ethnographic examination of the rapid transformation of the unified Berlin Through a captivating account of the controversy around this symbolic public square in East Berlin the book raises acute questions about expertise citizenship government and belonging Based on ethnographic fieldwork in the city administration bureaus developers offices citizen groups and in Alexanderplatz itself the author advances a richly innovative analysis of the multiplicity of place She reveals how Alexanderplatz is assembled through the encounters between planners citizen activists social workers artists and ordinary Berliners in processes of popular participation and personal narratives in plans timetables documents and files and in the distribution of pipes tram tracks and street lights Alexanderplatz emerges as a socialist spatial exemplar a future under construction an object of grievance and a vision of robust public space This book is both a critical contribution to the anthropology of contemporary modernity and a radical intervention in current cross disciplinary debates on the city

Semiotics of Drink and Drinking Paul Manning,2012-05-17 Drink as an embodied semiotic and material form mediates social life This book examines the fundamental nature of drink through a series of modular but connected ethnographic discussions It looks at the way the materiality of a specific drink coffee wine water beer serves as the semiotic medium for a genre of sociability in a specific time and place As an explicitly comparative semiotic study the book uses familiar and unfamiliar case studies to show how drinks with similar material properties are semiotically organized into very different drinking practices including ethnographic examples as diverse as the relation of coffee to talk in ordering at Starbucks Further chapters look at the dryness of gin in relation to the modern cocktail party and the embedding of beer brands in the ethnographic imagination of the nation Rather than treat drinks as mere props in the exclusively human drama of the social the book promotes them to actors on the stage
