Alternative Conceptions of Civil Society Simone Chambers, Will Kymlicka, 2020-10-06 The idea of civil society has long been central to the Western liberal democratic tradition where it has been seen as a crucial site for the development and pursuit of basic liberal values such as individual freedom social pluralism and democratic citizenship This book considers how a host of other ethical traditions define civil society Unlike most studies of the subject which focus on a particular region or tradition it considers a range of ethical traditions rarely addressed in one volume libertarianism critical theory feminism liberal egalitarianism natural law Christianity Islam Judaism and Confucianism It considers the extent to which these traditions agree or disagree on how to define civil society s limits and how to evaluate its benefits and harms A variety of distinguished advocates and interpreters of these traditions present in depth explorations of how these various traditions think of ethical pluralism within societies asking how a society should respond to diversity among its members Together they produce a work rich with original insights on a wide range of subjects about which little has been written to date An excellent starting point for a comparative ethics of civil society this book concludes that while the concept of civil society originated in the liberal tradition it is quickly becoming an important focus for a truly cross cultural dialogue In addition to the editors the contributors are Michael Banner Hasan Hanafi Loren E Lomasky Richard Madsen Michael A Mosher Michael Pakaluk Anne Philips Adam B Seligman Suzanne Last Stone and Michael Walzer

The Asian Mediterranean François Gipouloux, 2011-01-01 This intensive monograph The Asian Mediterranean is a great synthesis of east west maritime worlds under an emerging global world Professor Gipouloux has combined historical studies on global maritime seas with regional economic studies on Asia He also

integrates historical interaction between maritime seas and coastal port cities by creating the imaginative geo economical concept of the East Asian economic corridor running between Vladivostok and Singapore and locating China Japan and Southeast Asia into this maritime area To attain this goal Professor Gipouloux globalises China through north south east west and past present combinations using cross disciplinary approaches political economy geography and international relations under wide historical perspectives The Asian Mediterranean opens a new horizon to look into Asia from a global perspective and at the same time reminds us of the connection beyond contrast between East and West Takeshi Hamashita Tokyo University Japan and Sun Yat sen University Guangzhou China A fascinating analysis of the proposition that the start of the 21st century is witnessing the rapid rise in South East Asia of a new and powerful transnational economic zone the Asian Mediterranean It uses a wide range of historical and contemporary multidisciplinary sources to systematically explore how why and in what ways we can better interpret and understand this contemporary version of economic globalisation by looking back to the equivalent processes centred on the ports around the Mediterranean and the Baltic seas during the late 16th century Peter Daniels University of Birmingham UK Fran ois Gipouloux has written a vast and comprehensive history of the Asian economic system In the tradition of Braudel he paints a picture that is detailed full of insight and essentially very long term On the basis of an analysis of the old Mediterranean and Hanseatic economic networks he surveys the pre modern Asian system bringing it up to date with studies of Yokohama Hong Kong Singapore and other Asian hubs The culmination of many years work Gipouloux throws light on a new China a China no longer land based and inward looking but dependent on and a power in a maritime world Christopher Howe University of London UK Gipouloux s ground breaking study based on a long career as a scholar of Asia s past is a most original contribution to the study of globalization Connecting past and present the author has further developed the somewhat vague metaphor of an Asian Mediterranean into a well defined concept that can also be applied to analyzing contemporary affairs While in the past the traditional Chinese and Japanese state systems were failing to formulate adequate answers on a more informal level the port cities were able to meet with the maritime challenges of the emerging modern world system The author convincingly shows how also in the age of globalization a string of coastal metropolises continues to be instrumental in opening up the Far Eastern economy to the global economy Leonard Blussé Leiden University The Netherlands This insightful book draws upon a wide range of disciplines political economy geography and international relations to examine how Asia has returned to its central position in the world economy As in the case of the hosting of the Olympic games it is cities rather than states which compete whether as financial centres logistical hubs or platforms for coordinating international subcontracting Analysing the historical precedents of the Mediterranean maritime republics the Baltic Sea Hanseatic League and the South China Sea mercantile kingdoms the book delineates the way stable economic and legal institutions were developed largely beyond the purview of and at times in conflict with the State Discussing the strong link between history and contemporary economic

situation The Asian Mediterranean will appeal to academics including

The Many and the One Richard Madsen, Tracy B. Strong, 2009-01-10 The war on terrorism say America's leaders is a war of Good versus Evil But in the minds of the perpetrators the September 11 attacks on New York and Washington were presumably justified as ethically good acts against American evil Is such polarization leading to a violent clash of civilizations or can differences between ethical systems be reconciled through rational dialogue This book provides an extraordinary resource for thinking clearly about the diverse ways in which humans see good and evil In nine essays and responses leading thinkers ask how ethical pluralism can be understood by classical liberalism liberal egalitarianism critical theory feminism natural law Confucianism Islam Judaism and Christianity Each essay addresses five questions Is the ideal society ethically uniform or diverse Should the state protect ban or otherwise intervene in ethically based differences How should disagreements on the rights and duties of citizens be dealt with Should the state regulate life and death decisions such as euthanasia To what extent should conflicting views on sexual relationships be accommodated This book shows that contentious questions can be discussed with both incisiveness and civility The editors provide the introduction and Donald Moon the conclusion The contributors are Brian Barry Joseph Boyle Simone Chambers Joseph Chan Christine Di Stefano Dale F Eickelman Menachem Fisch William Galston John Haldane Chandran Kukathas David Little Muhammad Khalid Masud Carole Pateman William F Scheuerman Adam B Seligman James W Skillen James Tully and Lee H Yearley

Islamic Political Ethics Sohail H. Hashmi, 2009-01-10 One of the most dynamic aspects of the Islamic revival during the past two centuries has been the rethinking of Islamic political thought A broad range of actors ideas and ideologies characterize the debate on how Islamic ethics and law should be manifested in modern institutions Yet this aspect of the return to Islam has been neglected by policymakers the media and even many scholars who equate political Islam with merely one strand labeled Islamic fundamentalism Bringing together ten essays from six volumes of the Ethikon Series in Comparative Ethics this book gives a rounded treatment to the subject of Islamic political ethics The authors explore the Islamic ethics of civil society boundaries pluralism and war and peace They consider questions of diversity discussing among other subjects Islamic regimes policies regarding women and religious minorities The chapters on war and peace take up such crucial and timely issues as the Islamic ethics of jihad examining both the legitimate conditions for the declaration of war and the proper conduct of war In their discussions the contributors analyze the works of classical writers as well as the full range of modern reinterpretations But beyond these analyses of previous and contemporary thinkers the essays also reach back to the two fundamental sources of Islamic ethics the Qur'an and traditions of the Prophet to develop fresh insights into how Islam and Muslims can contribute to human society in the twenty first century The authors are Dale F Eickelman Hasan Hanafi Sohail H Hashmi Farhad Kazemi John Kelsay Muhammad Khalid Masud Sulayman Nyang Bassam Tibi and M Raquibuz Zaman From the foreword by Jack Miles Western foreign ministers and secretaries of state may have to learn a little theology if the looming

clash between embattled elements both in the West and in the Muslim umma is to yield to disengagement and peaceful coexistence to say nothing of fruitful collaboration. It is then no idle academic exercise that the thinkers whose work is collected here have in hand. The long term practical importance of their work can scarcely be overstated. **Christian Political Ethics** John A. Coleman, 2009-01-10. Christian Political Ethics brings together leading Christian scholars of diverse theological and ethical perspectives: Catholic, Lutheran, Calvinist, and Anabaptist, to address fundamental questions of state and civil society, international law and relations, the role of the nation, and issues of violence and its containment. Representing a unique fusion of faith-centered ethics and social science, the contributors bring into dialogue their own varying Christian understandings with a range of both secular ethical thought and other religious viewpoints from Judaism, Islam, and Confucianism. They explore divergent Christian views of state and society and the limits of each. They grapple with the tensions that can arise within Christianity over questions of patriotism, civic duty, and loyalty to one's nation, and they examine Christian responses to pluralism and relativism, globalization, and war and peace. Revealing the striking pluralism inherent to Christianity itself, this pioneering volume recasts the meanings of Christian citizenship and civic responsibility and raises compelling new questions about civil disobedience, global justice, and Christian justifications for waging war, as well as spreading world peace. It brings Christian political ethics out of the churches and seminaries to engage with today's most vexing and complex social issues. The contributors are Michael Banner, Nigel Biggar, Joseph Boyle, Michael G. Cartwright, John A. Coleman, S. J., John Finnis, Theodore J. Koontz, David Little, Richard B. Miller, James W. Skillen, and Max L. Stackhouse.

Confucian Political Ethics Daniel A. Bell, 2010-04-24. For much of the twentieth century, Confucianism was condemned by Westerners and East Asians alike as antithetical to modernity. Internationally renowned philosophers, historians, and social scientists argue otherwise in *Confucian Political Ethics*. They show how classical Confucian theory, with its emphasis on family, ties, self-improvement, education, and the social good, is highly relevant to the most pressing dilemmas confronting us today. Drawing upon in-depth cross-cultural dialogues, the contributors delve into the relationship of Confucian political ethics to contemporary social issues, exploring Confucian perspectives on civil society, government, territorial boundaries, and boundaries of the human body and body politic, and ethical pluralism. They examine how Confucianism, often dismissed as backwardly patriarchal, can in fact find common ground with a range of contemporary feminist values and need not hinder gender equality. And they show how Confucian theories about war and peace were formulated in a context not so different from today's international system and how they can help us achieve a more peaceful global community. This thought-provoking volume affirms the enduring relevance of Confucian moral and political thinking and will stimulate important debate among policymakers, researchers, and students of politics, philosophy, applied ethics, and East Asian studies. The contributors are Daniel A. Bell, Joseph Chan, Sin Yee Chan, Chenyang Li, Richard Madsen, Ni Lexiong, Peter Nosco, Michael Nylan, Henry Rosemont Jr., and Lee H. Yearley. **Christianity and Civil Society** Jeanne Heffernan Schindler, 2008-01-01.

Christianity and Civil Society responds to the crisis of American democracy as perceived by such diverse thinkers as Christopher Lasch Michael Sandel Mary Ann Glendon and Robert Putnam Despite their philosophical differences these thinkers highlight a common theme a decline in the institutions of civil society once held to be the vital center of the American polity In place of these institutions such as the family neighborhood church and civic associations one finds a disturbingly reduced socio political stage dominated by an abstract triumvirate of the individual state and market as prime actors Whether taking their inspiration from the political theology of St Thomas Aquinas and papal encyclicals or from John Calvin and his heirs in the Reformed traditions the authors assembled here find the doctrinal resources of Christianity indispensable to defending the irreducible identity and value of the social institutions that serve as the connective tissue of a political community By drawing upon a treasury of social thought little known to most Americans Christianity and Civil Society offers a fresh vantage point from which to assess the crisis of our polity as well as the best prospects for its renewal

Law, Politics, and Morality in Judaism Michael Walzer, 2009-02-09 Jewish legal and political thought developed in conditions of exile where Jews had neither a state of their own nor citizenship in any other What use then can this body of thought be today to Jews living in Israel or as emancipated citizens in secular democratic states Can a culture of exile be adapted to help Jews find ways of being at home politically today These questions are central in Law Politics and Morality in Judaism a collection of essays by contemporary political theorists philosophers and lawyers How does Jewish law accommodate or fail to accommodate the practice of democratic citizenship What range of religious toleration and pluralism is compatible with traditional Judaism What forms of coexistence between Jews and non Jews are required by shared citizenship How should Jews operating within halakha Jewish law and Jewish history judge the use of force by modern states The authors assembled here by prominent political theorist Michael Walzer come from different points on the religious secular spectrum and they differ greatly in their answers to such questions But they all enact the relationship at issue since their answers while based on critical Jewish texts also reflect their commitments as democratic citizens The contributors are Michael Walzer David Biale the late Robert M Cover Menachem Fisch Geoffrey B Levey David Novak Aviezer Ravitzky Adam B Seligman Suzanne Last Stone and Noam J Zohar
