Congress. House. Committee on Banking, Finance, and Urban Affairs. Politics as Rational Action L. Lewin, E. Vedung, 2012-12-06 One of the most promising trends in modern political science is the development of a theory of politics as rational action Focussing on choice as the central topic of study rational choice theorists set out to specify what alternative an actor should prefer if he has some given knowledge of the consequences of each alternative and wants to see his preference system as fully realized as possible But rational choice theory is not confined to the normative sphere of science It can also be used for explanatory purposes Then the alternatives actually chosen are specified and the task is to explain the decisions by finding out what considerations lay behind them The starting point for an emerging research program at the Department of Government Uppsala University on Politics as Rational Action is to describe the major choices in fifteen different policy areas of Swedish domestic politics and explain why they were made
