Alturas De Machhu Picchulampara En La Tierra:

Machu Picchu en la poesía de Pablo Neruda Hugo Montes, 11-11-15 En este libro se nos devela verso a verso el sentido subyacente de la solidaridad de los americanos y de la raza humana en el poema de Pablo Neruda *Alturas de Machu Picchu* Con fotografías e ilustraciones de Vittorio Di Girolamo *Psicología e identidad latinoamericana* Jorge Gissi B., 2002 En este libro Jorge Gissi analiza cómo se expresa la identidad latinoamericana a través de la obra de cinco premios Nobel de literatura Gabriela Mistral Miguel Ángel Asturias Pablo Neruda Gabriel García Márquez y Octavio Paz autores que han plasmado ideas consistentes con muchos de los aspectos de la identidad latinoamericana El análisis se realiza desde la psicoantropología de la identidad disciplina que revela semejanzas y diferencias entre los escritores y muestra también que ellas expresan una reivindicación de identidad autoestima e integración cultural en nuestro continente *National Union Catalog*, 1973 Includes entries for maps and atlases **New World Poetics** George B. Handley, 2010 A simultaneously ecocritical and comparative study *New World Poetics* plumbs the earthly depth and social breadth of the poetry of Walt Whitman Pablo Neruda and Derek Walcott three of the Americas most ambitious and epic minded poets In Whitman's call for a poetry of New World possibility Neruda's invocation of an American love and Walcott's investment in the poetic ironies of an American epic the adamic imagination of their poetry does not reinvent the mythical Garden that stands before history's beginnings but instead taps the foundational powers of language before a natural world deeply imbued with the traces of human time There is a postlapsarian Adam seeking a renewed sense of place in a biocentric and cross cultural New World through language and nature's capacity for regeneration in the wake of human violence and suffering The book introduces the environmental history of the Americas and its relationship to the foundation of American and Latin American studies explores its relevance to each poet's ambition to recuperate the New World's lost histories and provides a transnational poetics of understanding literary influence and textual simultaneity in the Americas The study provides much needed in depth ecocritical readings of the major poems of the three poets insisting on the need for thoughtful regard for the challenge to human imagination and culture posed by nature's regenerative powers nuanced appreciation for the difficulty of balancing the demands of social justice within the context of deep time and the symptomatic dangers as well as healing potential of human self consciousness in light of global environmental degradation *Spanish American Poetry at the End of the Twentieth Century* Jill Kuhnheim, 2010-07-05 Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological

innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s Library of Congress Catalog Library of Congress,1973
