**The Portrait of a Lady, Complete** Henry James, 2016-01-13 PREFACE The Portrait of a Lady was like Roderick Hudson begun in Florence during three months spent there in the spring of 1879 Like Roderick and like The American it had been designed for publication in The Atlantic Monthly where it began to appear in 1880 It differed from its two predecessors however in finding a course also open to it from month to month in Macmillan s Magazine which was to be for me one of the last occasions of simultaneous serialisation in the two countries that the changing conditions of literary intercourse between England and the United States had up to then left unaltered It is a long novel and I was long in writing it I remember being again much occupied with it the following year during a stay of several weeks made in Venice I had rooms on Riva Schiavoni at the top of a house near the passage leading off to San Zaccaria the waterside life the wondrous lagoon spread before me and the ceaseless human chatter of Venice came in at my windows to which I seem to myself to have been constantly driven in the fruitless fidget of composition as if to see whether out in the blue channel the ship of some right suggestion of some better phrase of the next happy twist of my subject the next true touch for my canvas mightn t come into sight But I recall vividly enough that the response most elicited in general to these restless appeals was the rather grim admonition that romantic and historic sites such as the land of Italy abounds in offer the artist a questionable aid to concentration when they themselves are not to be the subject of it They are too rich in their own life and too charged with their own meanings merely to help him out with a lame phrase they draw him away from his small question to their own greater ones so that after a little he feels while thus yearning toward them in his difficulty as if he were asking an army of glorious veterans to help him to arrest a peddler who has given him the wrong change
