Czarniawska-Joerges, P. de Monthoux, 2005-08-05 This collection of essays demonstrates how novels are not only comparable but often superior to the case histories used in business education As many novelists have had personal experience of working in organizations their work combines introspective insight with analytical skill *Post-totalitarian Spanish Fiction* Robert C. Spires, 1996 This study records an epistemic shift away from logocentric and totalizing approaches to reality by analyzing the links between the novelistic strategies used by Spanish writers from 1975 to 1989 and recent international events and theoretical trends in science mathematics communication studies and art Who's Who in Contemporary Women's Writing Jane Eldridge Miller, 2019-07-23 Unique in its breadth of coverage Who s Who in Contemporary Women s Writing is a comprehensive authoritative and enjoyable guide to women s fiction prose poetry and drama from around the world in the second half of the twentieth century Over the course of 1000 entries by over 150 international contributors a picture emerges of the incredible range of women s writing in our time from Toni Morrison to Fleur Adcock all are here This book includes the established and well loved but also opens up new worlds of modern literature which may be unfamiliar but are never less than fascinating *Women and Work* Liz Sperling, Mairead Owen, 2020-08-26 This title was first published in 2000 The 1990s have been heralded as the age of women based on the facts that globally more women are benefiting from formal education and are in paid employment in greater numbers than ever As such the possibility that an age of post feminism has been reached in which battles for women s basic rights have largely been won is implied This book based on research across academic disciplines challenges such claims Using women and work as the basis analysis the authors consider whether such things as flexible working equal opportunities initiatives and even contemporary conceptions of citizenship are universally beneficial to women The book presents research ranging from issues of immigrant sex workers in Japan to the implementation of EU equality policies and raises the ironic question that as the global economy increasingly depends on women could a growing but uneasy alliance be developing between capitalism and feminism Encyclopedia of Contemporary Spanish Culture Professor Eamonn Rodgers, Eamonn Rodgers, 2002-03-11 Some 750 alphabetically arranged entries provide insights into recent cultural and political developments within Spain including the cultures of Catalonia Galicia and the Basque country

Coverage spans from the end of the Civil War in 1939 to the present day with emphasis on the changes following the demise of the Franco dictatorship in 1975. Entries range from shorter factual articles to longer overview essays offering in depth treatment of major issues. Culture is defined in its broadest sense. Entries include Antonio Gaudí, science, Antonio Banderas, golf, dance, education, politics, racism, urbanization. This Encyclopedia is essential reading for anyone interested in Spanish culture. *The Search for Identity in the Narrative of Rosa Montero* Vanessa Knights, 1999. Rosa Montero is one of a group of women writers who came to prominence during the late 1970s and early 1980s, a period often referred to as the boom of women's writing in Spain. This study traces the socio-historical conditions which led to the boom, addresses the Spanish ambivalence towards the mother figure within the Spanish feminist movement, and discusses the use of metafiction on the creation of life narrative for women. Deals with the alternative figure of the spinster, examines the fantastic as a mode of discourse, and discusses the increasing focus on discourse with Montero's narrative. The author teaches contemporary Hispanic literary and cultural studies at the University of Newcastle upon Tyne. Annotation copyrighted by Book News, Inc., Portland, OR.

**The Delta Function** Rosa Montero, 1991-01-01. In *La función delta* 1981, the second novel of the best-selling Spanish author Rosa Montero, the real world is as unmapped and treacherous as ever for her countrywomen, but more universal concerns impinge. Translated into English by Kari Easton and Yolanda Molina Gavilán. *The Delta Function* explores a woman's fears of being abandoned, of being alone, and of dying. A unique double narrative structure throws into relief time's effect on her self-identity, sexuality, and relations with others. Readers will be inspired to confront and rethink their own version of the world around them.

**History, Violence, and the Hyperreal** Kathryn Everly, 2010. What does literature reveal about a country's changing cultural identity? In *History, Violence, and the Hyperreal* by Kathryn Everly, this question is applied to the contemporary novel in Spain. In the process, similarities emerge among novels that embrace apparent differences in style, structure, and language. Contemporary Spanish authors are rethinking the way the novel with its narrative powers can define a specific cultural identity. Recent Spanish novels by Carme Riera, Dulce Chacón, Javier Cercas, Ray Loriga, Lucía Etxebarria, and José Ángel Manas, published from 1995 to 2008, particularly highlight the tension that exists between historical memory and urban youth culture. The novels discussed in this study reconfigure the individual's relationship to narrative, history, and reality through their varied interpretations of Spanish history with its common threads of national and personal violence. In these books, culture acts as mediator between the individual and the rapidly changing dynamic of contemporary society. The authors experiment with the novel form to challenge fundamental concepts of identity when the narrative acknowledges more than one way of reading and understanding history, violence, and reality. In Spain today, questions of historical accuracy in all foundational fictions, such as the Inquisition, the Spanish Civil War, or globalization, collide with the urgency to modernize. The result is a clash between regional and global identities. Seemingly disparate works

of historical fiction and Generation X narrative prove similar in the way they deal with history reality and the delicate relationship between writer and reader

Postmodern Paletos Nathan E. Richardson, 2002 When Spanish dictator Francisco Franco legalized internal immigration in 1947 he unwittingly inaugurated the greatest period of urban expansion and rural de population that Spain had known During the next two decades nearly four million citizens would move from Spain s traditional pueblos perdidos to overburdened urban metropolises Along with wooden trunks and baskets of chickens the immigrants or paletos as they were often called bore on their journey the weight of centuries of ideological meaning tied to the geographic regions they were traversing To abandon rural Spain had come to signify a rejection of manhood wealth Christian values and even Spanishness itself Paletos however innocent they may have appeared were not ideologically neutral In the coming decades the weight and complexity of the meanings behind immigration the country and the city would only grow as Spain advanced from economic under development social ignorance and political reaction to full fledged participation in global economics and politics activities that would reshape what it meant to be an immigrant and paleta both within and across the geographic border that had traditionally defined the Spanish nation
