Allied Coastal Forces Of World War II:

Allied Coastal Forces of World War II John Lambert, Al Ross, 2019-03 Allied Coastal Forces now a recognized classic work first published in 1990 remains the only publication to deal comprehensively in words photographs and drawings with the technical detail of motor torpedo boats PT boats motor gunboats launches and submarine chasers This second volume covers sixteen Vosper MTB designs and the US 70ft 77ft and 80ft ELCO designs *Allied Coastal Forces of World War II: Fairmile designs and US submarine chasers* John Lambert, Al Ross, 1990 This ambitious study provides the technical details of these boats in words photographs and hundreds of finely detailed keyed line drawings **Allied Coastal Forces of World War II: Volume I** John Lambert, Al Ross, 2018-10-30 The major contribution made by Coastal Forces to the Allied war effort has had surprisingly little coverage in the literature of the Second World War Motor torpedo boats PT boats motor gunboats launches and submarine chasers served with distinction throughout the War and in every theatre They performed invaluable service as patrol boats convoy escorts minelayers and minesweepers harbour defence vessels light landing craft RAF rescue boats and transports for agents and clandestine missions Allied Coastal Forces now a recognised classic work and first published in 1990 remains the only publication to deal comprehensively in words photographs and drawings with the technical detail of all these boats Design construction and subsequent development are all covered and the builders construction lists fates and the technical data are given for each type Separate sections cover armament and equipment sea going qualities and habitability This first volume covers all the designs of the Fairmile Marine Company including those craft built and equipped for Canada together with the 72ft Harbour Defence Motor Launch and the US Navy 110ft subchaser The authors firmly established as the recognised authorities on small warships unearthed a remarkable body of information now included in this major work and their finely detailed drawings redrawn from original builders plans offer an unparalleled view of all these remarkable designs The new editions of their work will be welcomed by naval enthusiasts and modellers alike

Allied Coastal Forces of World War II: Fairmile designs and US submarine chasers John Lambert, 1994 Allied Coastal Forces of World War II. John Lambert, Al Ross, 2019 The major contribution made by Coastal Forces to the Allied war effort has had surprisingly little coverage in the literature of the Second World War Motor torpedo boats PT boats motor gunboats launches and submarine chasers served with distinction throughout the war and in every theatre They performed invaluable service as patrol boats convoy escorts minelayers and minesweepers harbour defence vessels light landing craft RAF rescue boats and transports for agents and clandestine missions Allied Coastal Forces now a recognised classic work and first published in 1990 remains the only publication to deal comprehensively in words photographs and drawings with the technical detail of all these boats Design construction and subsequent development are all covered and the builders construction lists fates and the technical data are given for each type Separate sections cover armament and equipment sea going qualities and habitability This second volume covers sixteen Vosper MTB designs and the US 70ft 77ft and 80ft ELCO

designs US built Vosper designs supplied under lease lend are also covered while weapons systems and machinery are dealt with in detail Some 700 finely detailed drawings were drawn by the authors for this second volume in their highly acclaimed two volume work **AUTHORS** John Lambert spent nine years in the Royal Navy where he acquired his detailed technical knowledge of warships His subsequent research on small warships and naval weaponry combined with his remarkable technical drawing skills led to the creation of a body of work some of which is displayed in this volume He died in 2015 Al Ross II is the author of several books on small warships and since the 1980s has been producing a series of plans for modellers of small combatants of the Second World War and Vietnam eras He lives in Bangor Maine USA 150 b w photographs 700 line drawings 12 colour camouflage schemes *British Coastal Forces* Norman Friedman, 2023-04-30 The Royal Navy invented the fast motor torpedo boat during the First World War and used it and other small coastal craft to great effect during the Second This book tells the dramatic story of British coastal forces both offensive and defensive in both World Wars and beyond In the Second World War British coastal forces fought a desperate battle to control the narrow seas particularly the Channel and the North Sea and took the war to the coasts of German occupied Europe fighting where larger warships could not be risked They also made a significant contribution to victory in the Mediterranean but it was primarily warfare in home waters that shaped wartime British Coastal Forces and left lessons for postwar development In this book Norman Friedman uniquely connects the technical story of the coastal craft and their weapons and other innovations with the way they fought In both world wars much of the technology was at the edge of what was feasible at the time Boats incorporated considerable British innovation and also benefited from important US contributions particularly in supplying high powered engines during World War II In contrast with larger warships British coastal forces craft were essentially shaped by a few builders and their part in the story is given full credit They also built a large number of broadly similar craft for air sea rescue and for completeness these are described in an appendix This fascinating dramatic story is also relevant to modern naval thinkers concerned with gaining or denying access to hostile shores The technology has changed but the underlying realities have not This book includes an extensive account of how coastal forces supported the biggest European example of seizing a defended shore the Normandy invasion That was by far the largest single British coastal forces operation demanding a wide range of innovations to make it possible Like other books in this series this one is based very heavily on contemporary official material much of which has not been used previously like the extensive reports of US naval observers who were allowed wide access to the Royal Navy as early as 1940 Combined with published memoirs these sources offer a much more complete picture than has previously appeared of how Coastal Forces fought and of the way in which various pressures both operational and industrial shaped them **Allied Coastal Forces Wwii** Lambert and Ross Staff, 2004-10-01 **Torpedoes, Tea, and Medals** Chris O'Flaherty, 2022-03-24 A biography chronicling one man's service during World War II as a Royal Navy commander and his career before for his bravery he was awarded the Distinguished

Service Cross Further acts of gallantry in action combined with tactical innovation saw him earn two bars to his DSC as well as a Mention in Despatches he became one of only forty four officers in the Second World War to receive a DSC with two Bars After demobilization he returned to the tea trade rising to become one of Brooke Bond s senior directors supplying Britain s beloved beverage He even helped refine how to make the perfect cup of tea This is the life story of a determined brave innovative and decorated officer who has earned a place in the hearts of our nation It is the story of Derek Jake Wright DSC Praise for Torpedoes Tea and Medals A must read an enthralling look at motor torpedo boat operations off the coast of France and Belgium during World War II Naval Historical Foundation Wright clearly had a really action packed war and this book skillfully combines his coastal forces experiences with his influential role in the tea business Captain Andrew Welch FNI Royal Navy Retired Kriegsmarine Coastal Forces Gordon Williamson,2012-06-20 Although often overlooked in favour of the U boats or battleships the vast majority of the Kriegsmarine was formed of the smaller vessels of the coastal forces These ships and boats which included minesweepers torpedo boats patrol boats and blockade breakers gave crucial service to Germany during the war and many continued serving for decades after the surrender in such tasks as clearing minefields Also included in these forces was Hitler s yacht the Ostwind This book reveals the history of the vessels that formed the backbone of the Kriegsmarine and combines fascinating anecdotes detailed technical information and full colour artwork

British Naval Trawlers and Drifters in Two World Wars Steve Dunn,2021-12-30 John Lambert was a renowned naval draughtsman whose plans were highly valued for their accuracy and detail by modelmakers and enthusiasts By the time of his death in 2016 he had produced over 850 sheets of drawings many of which have never been published These were acquired by Seaforth and this title is the fourth of a planned series of albums on selected themes reproducing complete sheets at a large page size with expert commentary and captioning Trawlers and drifters served in both world wars in their thousands and in their tens of thousands so did their fishermen crews Indeed these humble craft were the most numerous vessel type used by the Royal Navy in both wars and were the answer to the strategic or tactical conundrums posed by new technology of mines and submarines In his accompanying text Steve Dunn examines the ships themselves their design construction arming operations and development and he also relates how the trawlermen and skippers from the age old fishing ports of Grimsby Hull Lowestoft ad Great Yarmouth Aberdeen and Fleetwood came to be part of the Royal Navy and describes the roles they played the conditions they served under and the bravery they showed The book takes some 30 large sheets of drawings which John Lambert completed of these vessels and divides into two sections The first part tells how the fishing fleet came to be an integral part of the Royal Navy s pre 1914 plans and details some of the activities and actions of trawlers and drifters at war in 1914 18 And the second investigates the armed fishing fleet in the struggle of 1939 45 These wonderfully detailed drawings which are backed by a selection of photographs and a detailed complementary text offer a superb technical archive for enthusiasts and ship modellers but the book also tells a fascinating story of the extraordinary

contribution the vessels and their crews made to the defeat of Germany in two world wars **High Performance Marine Vessels** Liang Yun, Alan Bliault, 2014-07-08 High Performance Marine Vessels HPMVs range from the Fast Ferries to the latest high speed Navy Craft including competition power boats and hydroplanes hydrofoils hovercraft catamarans and other multi hull craft High Performance Marine Vessels covers the main concepts of HPMVs and discusses historical background design features services that have been successful and not so successful and some sample data of the range of HPMVs to date Included is a comparison of all HPMVs craft and the differences between them and descriptions of performance hydrodynamics and aerodynamics Readers will find a comprehensive overview of the design development and building of HPMVs **Air University Library Index to Military Periodicals** ,1994 **World War II in Europe** David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps **Fighting Boats for a Fighting Navy: The World War II PT Boats in contemporary advertisements: Black & White Collection** Patrick Matthews, 2012-01-16 PT boats captured the imagination of the American public during WW2 From the darkest days of 1941 and 1942 the PTs were bravely slugging it out with the overwhelming Japanese invasion forces PTs extracted MacArthur from Manila and when he returned it was on a PT The PTs were nimble and quick and packed a wallop They were Davids to the Axis Goliaths And the crews what young man wouldn't want to be a dashing PT sailor This collection of WW2 ads follows the PTs and their crews from those dark early days to the final victory and the promise of carefree yachting in the ensuing peace Over 200 wartime PT ads are crammed into this affordable Black White Collection Also look for the companion volume Fighting Boats for a Fighting Navy Supplemental Color Edition which contains a selection of the most colorful ads from this larger B W edition **Troubled Waters** Nigel Sharp, 2015-10-15 Nigel Sharp tells the story of leisure boating during the

Second World War **Home Waters MTBs & MGBs at War, 1939-1945** Leonard C. Reynolds, 2000 This third and final volume in the Royal Navy Coastal Forces trilogy offers eyewitness accounts of operations in the English Channel and North Sea by the Royal Navy's short MTBs and MGBs during World War II. The chronological account also traces the evolution of tactics and strategies, boat construction, training and administration. It demonstrates dramatically the difference between the boats which began the war and those which finished it. *A Bridge of Ships* James S. Pritchard, 2011 The second World War dramatically affected Canada's shipbuilding industry. James Pritchard describes the rapidly changing circumstances and personalities that shaped government shipbuilding policy, the struggle for steel, the expansion of ancillary industries and the cost of Canadian wartime ship production. *Naval Warfare 1919-45* Malcolm H. Murfett, 2008-11-04 *Naval Warfare 1919-45* is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two. Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world, this book ranges far and wide, sweeping across all naval theatres and those powers performing major as well as minor roles within them. Armed with the latest material from an extensive set of sources, Malcolm H. Murfett has written an absorbing as well as a comprehensive reference work. He demonstrates that superior equipment and the best intelligence, ominous power and systematic planning, vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea. Sometimes the narrow difference between victory and defeat hinges on those infinite variables: the individual's performance under acute pressure and sheer luck. *Naval Warfare 1919-45* is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public.

Splinter Fleet Theodore R. Treadwell, 2013-11-12 Hastily built at the onset of World War II to stop German U-boats from taking their toll on Allied shipping, the 110-foot wooden subchasers were the smallest commissioned warships in the U.S. Navy, yet they saw as much action as ships ten times their size. In every theater of war, these expendable workhorses of the fleet escorted countless convoys of slow-moving ships through submarine-infested waters, conducted endless mind-numbing antisubmarine patrols and were used in hundreds of amphibious operations. Some subchasers worked as gunboats to search for and destroy enemy barges. Others rescued downed airmen and retrieved drowning soldiers under heavy enemy fire. During the German occupation of Norway, three American-built subchasers and their Norwegian crews came to be known as The Shetlands Bus for their clandestine work as ferries, the only link between Norway and the free world. This book, written by the commander of one of the subchasers, defines their place in naval history and gives readers a taste of life on board the wooden warships. Ringing with authenticity, it describes the cramped quarters and unforgiving seas as well as the tenacious courage and close bonds formed by the men as they sought out the enemy and confronted nature. Long overshadowed by the larger, faster warships and more glamorous PT boats of World War II, subchasers have been mostly forgotten. This work restores the plucky little ships to their hard-earned status as significant members of the fleet. **Railway Hotels** Michael

Patterson,2016-09-15 A wonderfully evocative guide to the history and the architecture of Britain s railway station hotels
