The World Almanac and Book of Facts**, 1894 Lists news events population figures and miscellaneous data of an historic economic scientific and social nature *The Lost Majority* Sean Trende, 2025-06-25 In today's fraught political climate one thing is indisputable the dream of the emerging Democratic majority is dead How did the Democrats who seemed unstoppable only two short years ago lose their momentum so quickly and what does it mean for the future of our two party system Here RealClearPolitics senior analyst Sean Trende explores the underlying weaknesses of the Democratic promise of recent years and shows how unlikely a new era of liberal values always was as demonstrated by the current backlash against unions and other Democratic pillars Persuasively arguing that both Republicans and Democrats are failing to connect with the real values of the American people and that long held theories of cyclical political realignments are baseless Trende shows how elusive a true and lasting majority is in today's climate how Democrats can make up for the ground they've lost and how Republicans can regain power and credibility Trende's surprising insights include The South didn't shift toward the Republicans because of racism but because of economics Barack Obama's 2008 win wasn't grounded in a new transformative coalition but in a narrower version of Bill Clinton's coalition The Latino vote is not a given for the Democrats as they move up the economic ladder they will start voting Republican Even before the recent fights about the public sector Democratic strongholds like unions were no longer relevant political entities With important critiques of the possible Republican presidential nominations in 2012 this is a timely inspiring look at the next era of American politics *Paperbound Books in Print*, 1992 **Daily News Almanac and Political Register** George
