Bradbury,2012-06-13

Everyone who has a breath has a longing for something to fill the emptiness that dwells in each of us We try to fill this emptiness with anything that will give us temporary relief What causes this emptiness The answer is that we lack a purpose for our life Once we find that purpose we are made whole We are children of light living in a world that provides us with temptations that keep us blind and bound in the dark I lived in the darkness until my world was shattered by one phone call and one summer that changed my life forever The quest to fill the void led me from darkness into the marvelous light Everyone is given the opportunity to experience a greater purpose than just existence When you come to the end of your life it is not what you leave behind but what you take with you that is important What if you could know for sure what is waiting for you when you step out of this world You can But it involves a quest for the truth The truth will set you free from bondage and the deception that every human falls victim to The void in our lives can be filled with the love that we all spend our lives trying to find

Modern Essays and Stories Various Authors,1912-01-01 In all schools pupils are expected to write essays but curiously enough essay reading and essay writing are taught but little In spite of that neglect the essay is so altogether natural and spontaneous in spirit so intensely personal in expression and so demanding of excellence of prose style that it is the form par excellence for consideration in school if teachers are to show pupils much concerning the art of writing well The essay is to prose what the lyric is to poetry complete genuine and beautiful self expression or better still self revelation Most of the writing done in schools is straightforward narration of events without much if any attempt to show personal reactions on those events mere diary like accounts at best mechanical descriptions that aim to present exterior appearance without attempting to reveal inner meanings or to show awakened emotions and stereotyped explanations and arguments drawn for the most part from books of reference or from slight observation Beyond all this mechanical work lies a field of throbbing personal life of joyous reactions on all the myriads of interests that lie close at hand of meditations on the wonders of plant and animal life of humorous or philosophic comments on human nature and of all manner of vague dreams and aspirations aroused by Such sights as youthful poets dream On summer eves by haunted stream Without the slightest question it is the duty of the school and of the teacher in particular to lead pupils to appreciate honesty and originality in unapplied unpragmatic self expression and to show pupils how they themselves may gain the very real pleasure of putting down on paper permanent records of their own intimate thinking Joseph Addison s The Sir Roger de Coverley Papers and Washington Irving s Sketch Book have for many years made valiant but unsuccessful efforts to fill the places that should be filled by more modern representatives of the essay Macaulay s Essay on Johnson is a biographical article for an encyclopedia his essays on Clive and on Hastings are polemics and Carlyle s Essay on Burns is a critical disquisition With the exception of The Sir Roger de Coverley Papers all these so called essays are of considerable length and

are unfitted to serve as the best examples of the essay form for the essay like the lyric demands brevity it is after all only a quick flash of self revelation not a sustained effort Then again who would wish to learn to write like Addison like Washington Irving like Macaulay or like Carlyle Those great writers couched their thoughts in the language fashions of their days just as they clothed their bodies in the garments of their times To imitate either their style of expression or their costumes would be to make one s self ridiculous or to take part in a species of masquerade The extremely Latinized vocabulary of 1711 or the resonant periods and marked antitheses of 1850 are as old fashioned to day as are the once highly respected periwigs great coats and silver shoe buckles of the past The thoughts of yesterday are not the thoughts of to day There is in serious reality such a thing as an old fashioned point of view With all due reverence for the past the best teachers of to day believe that it is just as necessary for students to use present day methods of expression and to cultivate present day interests as it is to take advantage of the railroad the telegraph the telephone the automobile and the thousand other mechanical contrivances that aid life to day but which were unknown in 1711 or in 1850
