Alter Your Reality Sharmila Rao, 2013-08-20 We the human beings are divine energy beings residing in a physical body We have an in built system in our energy body which connects us to the One divine source Due to the deviation from the universal laws principles that govern life the consciousness of mankind fell gradually from the golden age of light to the iron age of darkness This resulted in the spiritual DNA being deactivated and mankind lost his direct connection with the Divine In the dark ages the psyche of mankind suffered great damage due to experiencing immense pain and suffering Now the cycle of human consciousness is on an upward swing ultimately leading to the golden age of light It is now possible for every man to re establish his divine connection with the help of various energy healing techniques which are now widely practiced and can be easily incorporated in our day to day life These divine healing energies have the ability to repair the damaged energy field aura of man and help him to re create a life for himself which is a reflection of his dreams For reality that is experienced by each man is nothing but a reflection of his thoughts emotions

Many people think of inertia as an object at rest will stay at rest unless a force is exerted on it like a boulder in a field. And people can think of their lives in the same way: static and unmoving. But we aren't stuck in one place as so many express when they are dissatisfied with their lives. Rather, our lives are moving swiftly and inexorably along a path driven by powerful forces, both past and present, that is highly resistant to a change in direction. As a result, small forces such as a modest insight or a brief aha moment aren't enough to catalyze significant change in how we think, what we feel, or how we act on or react to our world. In fact, meaningful change can only occur when forces are applied that are greater than the forces that are already propelling our lives. Seeing our lives from this dynamic perspective is the foundation for understanding what it takes to bring meaningful and long lasting positive change to our lives. Jim Taylor explores the four forces: values, self esteem, ownership, and emotions that propel our life inertia, which shows itself through the lens with which we view the world, the emotional reactions we have, the actions that we take, and the relationships that we create. He then explains how to harness those to our own benefit so that we may steer our lives in the direction of our own choosing rather than allowing our past inertia or outside forces to dictate the direction our lives take. By letting our values guide us, building our self esteem, taking ownership of our decisions and actions, and using our emotions as positive fuel, we can break free from our past inertia, take control of our lives, and chart a future of meaning, happiness, success, and connection with confidence, commitment, and courage.
