Alternative Agriculture A History From The Black Death To The Present Day:

Alternative Agriculture Joan Thirsk, 2000 People like to believe in a past golden age of traditional English countryside before large farms machinery and the destruction of hedgerows changed the landscape forever Yet crops from the past like flax hemp rapeseed and woad are gradually reappearing in the modern countryside Thirsk reveals how the forces which drive the current interest in alternative forms of agriculture a glut of mainstream meat and cereal crops changing patterns of diet the needs of medicine have striking parallels with earlier periods of English history emphasizing that solutions to current problems can still be found in the hard won experience of people in the past **Alternative Agriculture** ,1997 Thirsk reveals how the forces which drive our current interest in alternative forms of agriculture have striking parallels with earlier periods in our history and warns us that today s decisions about farming should not be made in a vacuum Countryside Between the Wars Paul Brassley, Jeremy Burchardt, Lynne Thompson, 2006 Organised into sections on society culture politics and the economy and embracing subjects as diverse as women novelists and village crafts this book argues that almost everywhere we look in the countryside between the wars there were signs of new growth and dynamic Ecclesiastical Lordship, Seigneurial Power and the Commercialization of Milling in Medieval England Adam development Lucas, 2016-04-29 This is the first detailed study of the role of the Church in the commercialization of milling in medieval England Focusing on the period from the late eleventh to the mid sixteenth centuries it examines the estate management practices of more than thirty English religious houses founded by the Benedictines Cistercians Augustinians and other minor orders with an emphasis on the role played by mills and milling in the establishment and development of a range of different sized episcopal and conventual foundations Contrary to the views espoused by a number of prominent historians of technology since the 1930s the book demonstrates that patterns of mill acquisition innovation and exploitation were shaped not only by the size wealth and distribution of a house s estates but also by environmental and demographic factors changing cultural attitudes and legal conventions prevailing and emergent technical traditions the personal relations of a house with its patrons tenants servants and neighbours and the entrepreneurial and administrative flair of bishops abbots priors and other ecclesiastical officials Slavery and the Enlightenment in the British Atlantic, 1750-1807 Justin Roberts, 2013-07-08 This book examines the daily details of slave work routines and plantation agriculture in the eighteenth century British Atlantic focusing on case studies of large plantations in Barbados Jamaica and Virginia Work was the most important factor in the slaves experience of the institution Slaves day to day work routines were shaped by plantation management strategies that drew on broader pan Atlantic intellectual and cultural principles Although scholars often associate the late eighteenth century Enlightenment with the rise of notions of liberty and human rights and the dismantling of slavery this book explores the dark side of the Enlightenment for plantation slaves Many planters increased their slaves workloads and employed supervisory technologies to increase labor discipline in ways that were consistent with the process

of industrialization in Europe British planters offered alternative visions of progress by embracing restrictions on freedom and seeing increasing labor discipline as central to the project of moral and economic improvement Mercantilism Reimagined Philip J. Stern, Carl Wennerlind, 2014 This volume of collected essays takes a new approach to this problematic subject by rethinking its broad foundations From a variety of perspectives its authors situate mercantilism against the backdrop of wider transformations in seventeenth century Britain Europe and the Atlantic from the scientific revolution to **Out of the Hay and Into the Hops** Celia Cordle, 2011 Out of the Hay and into the Hops explores the history and development of hop cultivation in the Weald of Kent together with the marketing of this important crop in the Borough at Southwark where a significant proportion of Wealden hops were sold A picture emerges of the relationship between the two activities as well as of the impact this rural industry had upon the lives of the people engaged in it Dr Cordle draws extensively on personal accounts of hop work to evoke a way of life now lost for good Oral history together with evidence from farm books and other sources records how the steady routine of hop ploughing and dung spreading weeding and spraying contrasted with the bustle and excitement of hop picking bringing in as it did many itinerant workers from outside the community to help with the harvest and the anxious period of drying the crop For hops prey to the vagaries of weather and disease needed much care and attention to bring them to fruition In early times their cultivation provided work for more people than any other crop The diverse processes of hop cultivation are examined within the wider context of events such as the advent of rail and the effects of war as are changes to the working practices and technologies used and their reception and implementation in the Weald Meanwhile in the Borough an enclave of hop factors and merchants whose interests sometimes conflicted with those of the hop growers arose and then suffered decline A full account of this trade is presented including day to day working practices links with the Weald and the changes in hop marketing following Britain's entry into the European Economic Community This book provides readers with a fascinating analysis of some three hundred years of hop history in the Weald and the Borough Hops still grow in the Weald in the Borough the Le May facade and the The Imposteress Rabbit Breeder Karen gates of the Hop Exchange are reminders of former trade Book description Harvey, 2020 In September 1726 Mary Toft was found to have given birth to seventeen rabbits in Godalming Surrey The case caused a sensation and was reported widely in newspapers popular pamphlets poems and caricatures Global Trade and the Transformation of Consumer Cultures Beverly Lemire, 2018-01-11 Charts the rise of consumerism and the new cosmopolitan material cultures that took shape across the globe from 1500 to 1820 Town and Countryside in Western Berkshire, C.1327-c.1600 Margaret Yates, 2007 A fresh examination of how society and economy changed at the end of the middle ages comparing urban and rural experience The traditional boundary between the medieval and early modern periods is challenged in this new study of social and economic change that bridges the fifteenth and sixteenth centuries It addresses the large historical questions what changed when and why through a detailed case study of western Berkshire and Newbury

integrating the experiences of both town and countryside Newbury is of particular interest being a rising cloth manufacturing centre that had contacts with London and overseas due to its specialist production of kerseys The evidence comes from original documentary research and the data are clearly presented in tables and graphs It is a book alive with theactions of people famous men such as the clothier John Winchcombe known as Jack of Newbury but more notably by the hundreds of individuals such as William Eyston or Isabella Bullford who acquired property cultivated their lands or in the case of Isabella managed the mill complex after her husband s death MARGARET YATES is Lecturer in History at the University of Reading Wild Food Richard Hosking, 2006 The 2004 Symposium on Wild Food Hunters and Gatherers received a large number of excellent papers **Iberian World Empires and the Globalization of Europe 1415-1668** Bartolomé Yun-Casalilla, 2019-03-13 This open access book analyses Iberian expansion by using knowledge accumulated in recent years to test some of the most important theories regarding Europe's economic development Adopting a comparative perspective it considers the impact of early globalization on Iberian and Western European institutions social development and political economies In spite of globalization s minor importance from the commercial perspective before 1750 this book finds its impact decisive for institutional development political economies and processes of state building in Iberia and Europe The book engages current historiographies and revindicates the need to take the concept of composite monarchies as a point of departure in order to understand the period s economic and social developments analysing the institutions and societies resulting from contact with Iberian peoples in America and Asia The outcome is a study that nuances and contests an excessively negative yet prevalent image of the Iberian societies explores the difficult relationship between empires and globalization and opens paths for comparisons to other imperial formations Surviving the Future David Fleming, Shaun Chamberlin, 2016-08-04 Surviving the Future is a story drawn from the fertile ground of the late David Fleming s extraordinary Lean Logic A Dictionary for the Future and How to Survive It That hardback consists of four hundred and four interlinked dictionary entries inviting readers to choose their own path through its radical vision Recognizing that Lean Logic s sheer size and unusual structure can be daunting Fleming s long time collaborator Shaun Chamberlin has selected and edited one of these potential narratives to create Surviving the Future The content rare insights and uniquely enjoyable writing style remain Fleming s but are presented here at a more accessible paperback length and in conventional read it front to back format The subtitle Culture Carnival and Capital in the Aftermath of the Market Economy hints at Fleming s vision He believed that the market economy will not survive its inherent flaws beyond the early decades of this century and that its failure will bring great challenges but he did not dwell on this We know what we need to do We need to build the sequel to draw on inspiration which has lain dormant like the seed beneath the snow Surviving the Future lays out a compelling and powerfully different new economics for a post growth world One that relies not on taut competitiveness and eternally increasing productivity putting the grim into reality but on the play humor conversation and reciprocal obligations

of a rich culture Building on a remarkable breadth of intellectual and cultural heritage from Keynes to Kumar Homer to Huxley Mumford to MacIntyre Scruton to Shiva Shakespeare to Schumacher Fleming describes a world in which as he says there will be time for music This is the world that many of us want to live in yet we are told it is idealistic and unrealistic With an evident mastery of both economic theory and historical precedent Fleming shows that it is not only desirable but actually the only system with a realistic claim to longevity With friendliness humor and charm Surviving the Future plucks this vision out of our daydreams and shows us how to make it real Step into the world of David Fleming you ll be so glad you The Social Topography of a Rural Community Steve did Rob Hopkins cofounder of the Transition Network Hindle, 2023-05-11 The Social Topography of a Rural Community is a micro history of an exceptionally well documented seventeenth century English village Chilvers Coton in north eastern Warwickshire Drawing on a rich archive of sources including an occupational census detailed estate maps account books private journals and hundreds of deeds and wills and employing a novel micro spatial methodology it reconstructs the life experience of some 780 inhabitants spread across 176 households This offers a unique opportunity to visualize members of an English rural community as they responded to and in turn initiated changes in social and economic activity making their own history on their own terms In so doing the book brings to the fore the social economic and spatial lives of people who have been marginalized from conventional historical discourse and offers an unusual level of detail relating to the spatial and demographic details of local life Each of the substantive chapters focuses on the contributions and experiences of a particular household in the parish the mill the vicarage the alehouse the blacksmith s forge the hovels of the labourers and coalminers the cottages of the nail smiths and ribbon weavers the farms of the yeomen and craftsmen and the manor house of Arbury Hall itself locating them precisely on specific sites in the landscape and the built environment and sketching the evolving taskscapes in which the inhabitants dwelled A novel contribution to spatial history as well as early modern material social and economic history more generally this study represents a highly original analysis of the significance of place space and flow in the history of English rural The Book of Pears Joan Morgan, 2015 First published in the United Kingdom by Ebury Press in 2015 Title communities Varieties of History and Their Porous Frontiers Roger C. Richardson, 2021-06-28 Properly understood page verso social history local history and historiography are closely interconnected and benefit from the dialectical relationships which help bind them together The actual topics and individual chapters gathered together in this book are chronologically wide ranging but are demonstrably linked by methodological common denominators and common threads in their northern and southern settings All the essays are squarely based on new research and all reach outwards as well as inwards All are problem solving and all display a vigorous methodology at work Some re visit well known historians and subjects such as W G Hoskins and Joan Thirsk and the Oxford English Dictionary Others like the essays on John Milner and G H Tupling make a convincing case for resurrecting the neglected or forgotten Early Modern Kent, 1540-1640 Michael Zell, 2000 Early

Modern Kent offers an accessible but scholarly introduction to the country's history during a century of extraordinary change **BOOK JACKET** Making the Grand Figure Toby Christopher Barnard, Fellow and Tutor in Modern History T C Barnard, 2004-01-01 Through such everyday articles as linen shirts wigs silver teaspoons pottery plates and engravings Barnard evokes a striking variety of lives and attitudes Possessions he shows even horses and dogs highlighted and widened divisions not only between rich and poor women and men but also between Irish Catholics and the Protestant settlers Displaying fresh evidence and unexpected perspectives the book throws new light on Ireland during a formative period Its discoveries set within the context of the consumer revolution gripping Europe and North America allow Ireland for the first time to be integrated into discussions of the pleasures and pains of consumerism BOOK JACKET A History of Livestock and Wildlife Eric Jones, 2023-08-01 The use of wildlife products together with advances in livestock feeding were essential in propelling Western economic growth Extraordinarily these early modern and early industrial features are side lined relative to the role of manufacturing This book restores the balance detailing how many species were relocated around the world and how late natural products persisted into the age of synthetics This text describes how animals were driven immense distances to market and harnessed for transportation and to power machines even after industrialisation animals were employed for innumerable purposes besides being co opted as pets The recent rebound from a wholesale persecution of wild nature and how the plundering of the animal kingdom and the development of livestock farming jointly created the Smithian Growth that ushered in the Industrial Revolution are also described Southern History, 2008
