HC 1189 - Budget 2014 Great Britain: Parliament: House of Commons: Treasury Committee, Andrew Tyrie, 2014-05-09 In this report the Treasury Committee makes recommendations on pensions savings HMRC debt recovery powers and housing The greater flexibility and choice provided by the proposed pension reforms is welcomed The guidance guarantee is an important part of making sure that consumers benefit from increased choice It should be measured against a set of recommended principles to ensure its effectiveness The pensions reforms are also likely to lead to financial innovation Following the financial crisis and the mis selling scandals the reputation of the industry is under scrutiny With regard to savings double taxation has long been a deterrent to some forms of saving With the enhanced flexibility for those saving there may now be scope in the long term for bringing the tax treatment of savings and pensions together to create a single savings vehicle The proposal to grant the power to HMRC to take money directly from people's bank accounts is extremely concerning Exceptional powers such as this require prior independent oversight With regard to housing the Help to Buy scheme at least in the short to medium term could raise house prices There is also the risk that withdrawal of Help to Buy may have a distorting effect on the housing market The need to address these difficulties places a particular responsibility on the FPC as well as the Government for detecting and addressing the financial stability risks arising from the housing market There are also reservations about any extension of retrospection in the tax system Retrospection should be considered only in wholly exceptional circumstances **Current Law Index** , 1995 West's Federal Taxation , 1997 Standard Federal
