Alvaro Obregon Power And Revolution In Mexico 19111920

Anthony S. Fauci

Alvaro Obregon Power And Revolution In Mexico 19111920:

Álvaro Obregón Linda Biesele Hall,1981 The Mexican Revolution produced some romantic and heroic figures In Mexico at the time however one man loomed large as the embodiment of revolutionary goals and the one leader able to take the country from strife into peace That man was Alvaro Obregón Less well known to North Americans than his contemporaries and sometime allies Emiliano Zapata and Pancho Villa Obregón eventually formed the first stable government of post revolutionary Mexico Stories of his daring and near invincibility abounded as he led revolutionary forces against the usurper Huerta then against the bandit elements within the Revolution itself Throughout the period of fighting however Obregón was shrewdly building coalitions of support and espousing concrete programs that would allow him to institutionalize power when the fighting ended This political and social study of Obregón's rise to power based on extensive archival research and interviews with revolutionary participants provides an important perspective not only on the Revolution itself but also on its consolidation in the hands of an extraordinary leader Students of Mexican history will find the book indispensable others will find it a fascinating story of a man a people and how they lay the bases of peace in the midst of war *Oil and Revolution in Mexico* Jonathan C. Brown,2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 *The Mexican Revolution: Counter-revolution and reconstruction* Alan Knight,1990-01-01 Volume 2 of The Mexican Revolution begins with the army counter revolution of 1913 which ended Francisco Madero's liberal experiment and installed Victoriano Huerta's military rule After the overthrow of the brutal Huerta Venustiano Carranza came to the forefront but his provisional government was opposed by Pancho Villa and Emiliano Zapata who come powerfully to life in Alan Knight's book Knight offers a fresh interpretation of the great schism of 1914-15 which divided the revolution in its moment of victory and which led to the final bout of civil war between the forces of Villa and Carranza By the end of this brilliant study of a popular uprising that deteriorated into political self seeking and vengeance nearly all the leading players have been assassinated In the closing pages Alan Knight ponders the essential question what had the revolution changed His two volume history at once dramatic and scrupulously documented goes against the grain of traditional assessments of the last great revolution *The War of 1898 and U.S. Interventions, 1898-1934* Benjamin R. Beede,1994-05 A fascinating encyclopedic survey of the Spanish Cuban American War the Philippine War and the small wars between 1899 and the end of the occupation of Haiti in 1934 The name changes themselves are instructive The usage of Spanish American War ignores the fact that the war in Cuba had been la **Wars of Latin America, 1899-1941** René De La Pedraja,2015-11-16 The years 1899 through 1941 are remarkable even by Latin America's uniquely turbulent standards During this time border disputes and domestic insurrections forcefully shaped the history of

this area as many countries made the rocky transition from agrarian to industrial societies This volume provides a concise survey of Latin American wars between 1899 and 1941 It compares and contrasts the wars and considers them in light of military theory It also demonstrates how instrumental wars have been in directing the history of Latin America and how the United States has often influenced these wars in a decisive manner Wars examined include border disputes in Peru Bolivia Ecuador Panama and Costa Rica and domestic insurrections in Colombia Cuba Mexico and Nicaragua Numerous photographs and maps illustrate the text and make it easy to follow every military campaign The vivid narrative captures the human drama of the wars and brings to life the violent clashes of powerful personalities in unusually hostile terrain Jungles mountains and deserts ravaged armies no less dramatically than combat and the emotions the wars released make many episodes unforgettable Instructors considering this book for use in a course may request an examination copy here *The Mexican Revolution's Wake* Sarah Osten, 2018-02-22 A social and political history of Mexico's first political system after the Revolution that demonstrates the critical influence of regional socialist parties **The Mexican Revolution** Robert Weis, 2024-10-01 This volume untangles the multiple threads of the Mexican Revolution to present an accessible introduction to its causes development and consequences Grounded in a detailed narrative that readers can actively explore through accompanying primary sources the book also provides a broad view of Mexico's cultural political and social evolution from the 1870s to the 1940s It traces the promises and perils of export led modernization during the late nineteenth century the subsequent explosion of popular discontent the difficult process of reconstruction and the lasting legacies The book emphasizes the promises and shortcomings of liberalism the demands from workers and peasants the gender underpinnings of revolutionary principles new forms of authoritarianism and how conservative resistance curbed the revolution's reform agenda Featuring a number of learning tools such as a chronology glossary and introduction to key historical figures *The Mexican Revolution* is a helpful resource for undergraduate students and non specialist readers interested in Mexico and its major revolution *Oil, Banks, and Politics* Linda B. Hall, 2010-07-22 A study in conflict between a powerful industry and a struggling nation This fine monograph addresses an important issue in Mexican history The Americas Mexico was second only to the United States as the world's largest oil producer in the years following the Mexican Revolution As the revolutionary government became institutionalized it sought to assure its control of Mexico's oil resources through the Constitution of 1917 which returned subsoil rights to the nation This comprehensive study explores the resulting struggle between oil producers many of which were U S companies and the Mexican government Linda Hall goes beyond the diplomacy to look at the direct impact of a powerful highly profitable foreign controlled industry on a government and a nation trying to recover from a major civil war She draws on extensive research in Mexican archives including both government sources and the private papers of Presidents Alvaro Obregón and Plutarco Elías Calles as well as U S government and private sources In the wake of the North American Free Trade Agreement's expansion of United States business ties to

Mexico this study of a crucial moment in U S Mexican business relations will be of interest to a wide audience in business diplomatic and political history *Tina Modotti* Letizia Argenterì,2003-01-01 Biografie van de Italiaanse fotografe en communistische activiste 1896 1942 **So Far from Allah, So Close to Mexico** Theresa Alfaro-Velcamp,2009-06-03 Middle Eastern immigration to Mexico is one of the intriguing untold stories in the history of both regions In *So Far from Allah So Close to Mexico* Theresa Alfaro Velcamp presents the fascinating findings of her extensive fieldwork in Mexico as well as in Lebanon and Syria which included comprehensive data collection from more than 8 000 original immigration cards as well as studies of decades of legal publications and the collection of historiographies from descendants of Middle Eastern immigrants living in Mexico today Adding an important chapter to studies of the Arab diaspora Alfaro Velcamp s study shows that political instability in both Mexico and the Middle East kept many from fulfilling their dreams of returning to their countries of origin after realizing wealth in Mexico in a few cases drawing on an imagined Phoenician past to create a class of economically powerful Lebanese Mexicans She also explores the repercussions of xenophobia in Mexico the effect of religious differences and the impact of key events such as the Mexican Revolution Challenging the post revolutionary definitions of mexicanidad and exposing new aspects of the often contradictory attitudes of Mexicans toward foreigners *So Far from Allah So Close to Mexico* should spark timely dialogues regarding race and ethnicity and the essence of Mexican citizenship Plutarco Elías Calles and the Mexican Revolution Jürgen Buchenau,2023-06-14 This biography of the Mexican revolutionary examines his rise from soldier to president to his continued influence as Jefe Máximo Hailing from the border state of Sonora Plutarco Elías Calles found his calling in the early years of the revolution quickly rising to national prominence As president from 1924 to 1928 Calles undertook an ambitious reform program modernized the financial system and defended national sovereignty against an interventionist U S government Yet these reforms failed to eradicate underdevelopment corruption and social injustice Moreover his unyielding campaigns against political enemies and the Catholic Church earned him a reputation as a repressive strongman After his term as president Calles continued to exert broad influence as his country s foremost political figure while three weaker presidents succeeded each other in an atmosphere of constant political crisis He played a significant role in founding a ruling party that reined in power hungry military leaders and helped workers attain better living conditions This dynastic party and its successors including the present day Partido Revolucionario Institucional Party of the Institutional Revolution remained in power until 2000 Through this comprehensive assessment of a quintessential Mexican politician Buchenau opens an illuminating window into both the Mexican Revolution and contemporary Mexico William F. Buckley Sr. John A. Adams,2023-03-23 In 1909 young William F Buckley Sr 1881 1958 who grew up in the dusty South Texas town of San Diego graduated from the University of Texas law school and headed for Mexico City Fluent in Spanish familiar with Mexican traditions and soon fit to practice law south of the border Buckley was headed up the aisle to vast wealth and cultural power On the way he took a front row seat at the Mexican

Revolution and played a key role in steering the nascent oil industry through tumultuous and dangerous times This book for the first time tells the story of the man behind the family that would become nothing short of a conservative institution reaching its apogee in the career of William F Buckley Jr arguably the most prominent conservative commentator of the twentieth century Buckley witnessed the overthrow and exit of President Porfirio Diaz the rise of Madero and the coup of General Victoriano Huerta all while building the Pantepec Oil Company the most profitable small petroleum producer in Mexico He faced down Pancho Villa survived encounters with hired assassins evaded snipers in the streets of Veracruz gambled and won in many a business venture and ultimately was expelled from the country As the narrative follows Buckley from his small town Texas beginnings to the founding of a family dynasty the streak of independence and distrust of government that would become the Buckley hallmark can be seen in the making An eventful chapter in the life and career of a singular character this dramatic account of a man and his moment is a document of political and historical significance but it is also a remarkable story told with irresistible brio

The Oxford History of Mexico William H. Beezley, Michael Meyer, 2010-08-03 The tenth anniversary edition of The Oxford History of Mexico tells the fascinating story of Mexico as it has evolved from the reign of the Aztecs through the twenty first century Available for the first time in paperback this magnificent volume covers the nation s history in a series of essays written by an international team of scholars Essays have been revised to reflect events of the past decade recent discoveries and the newest advances in scholarship while a new introduction discusses such issues as immigration from Mexico to the United States and the democratization implied by the defeat of the official party in the 2000 and 2006 presidential elections Newly released to commemorate the bicentennial of the Mexican War of Independence and the centennial of the Mexican Revolution this updated and redesigned volume offers an affordable accessible and compelling account of Mexico through the ages

Waking the Dictator Karl B. Koth, 2002 Waking the Dictator is a study of federalism in late nineteenth century Veracruz State It is also a politico military analysis and an evaluation of social revolutionary relations in the epoch of the Porfiriato and the Mexican Revolution This study is the first modern comprehensive and analytical history of the Porfiriato and Mexican Revolution in Veracruz

Border Conflict Joseph Allen Stout, 1999 Villistas Carrancistas and the Punitive Expedition 1915 1920

The Life and Times of Pancho Villa Friedrich Katz, 1998-10-01 Alongside Moctezuma and Benito Ju rez Pancho Villa is probably the best known figure in Mexican history Villa legends pervade not only Mexico but the United States and beyond existing not only in the popular mind and tradition but in ballads and movies There are legends of Villa the Robin Hood Villa the womanizer and Villa as the only foreigner who has attacked the mainland of the United States since the War of 1812 and gotten away with it Whether exaggerated or true to life these legends have resulted in Pancho Villa the leader obscuring his revolutionary movement and the myth in turn obscuring the leader Based on decades of research in the archives of seven countries this definitive study of Villa aims to separate myth from history So much attention has focused on Villa himself that the characteristics of his

movement which is unique in Latin American history and in some ways unique among twentieth century revolutions have been forgotten or neglected Villa s Divisi n del Norte was probably the largest revolutionary army that Latin America ever produced Moreover this was one of the few revolutionary movements with which a U S administration attempted not only to come to terms but even to forge an alliance In contrast to Lenin Mao Zedong Ho Chi Minh and Fidel Castro Villa came from the lower classes of society had little education and organized no political party The first part of the book deals with Villa s early life as an outlaw and his emergence as a secondary leader of the Mexican Revolution and also discusses the special conditions that transformed the state of Chihuahua into a leading center of revolution In the second part beginning in 1913 Villa emerges as a national leader The author analyzes the nature of his revolutionary movement and the impact of Villismo as an ideology and as a social movement The third part of the book deals with the years 1915 to 1920 Villa s guerrilla warfare his attack on Columbus New Mexico and his subsequent decline The last part describes Villa s surrender his brief life as a hacendado his assassination and its aftermath and the evolution of the Villa legend The book concludes with an assessment of Villa s personality and the character and impact of his movement *Bakers and Basques* Robert Weis,2012-09-15 Mexico City s colorful panaderi as bakeries have long been vital neighborhood institutions They were also crucial sites where labor subsistence and politics collided From the 1880s well into the twentieth century Basque immigrants dominated the bread trade to the detriment of small Mexican bakers By taking us inside the panaderi a into the heart of bread strikes and through government halls Robert Weis reveals why authorities and organized workers supported the so called Spanish monopoly in ways that countered the promises of law and ideology He tells the gritty story of how class struggle and the politics of food shaped the state and the market More than a book about bread *Bakers and Basques* places food and labor at the center of the upheavals in Mexican history from independence to the aftermath of the Mexican Revolution **Concise Encyclopedia of Mexico** Michael Werner,2015-05-11 Concise Encyclopedia of Mexico includes approximately 250 articles on the people and topics most relevant to students seeking information about Mexico Although the Concise version is a unique single volume source of information on the entire sweep of Mexican history pre colonial colonial and moderns it will emphasize events that affecting Mexico today event students most need to understand *Workers, Neighbors, and Citizens* John Lear,2001-01-01 *Workers Neighbors and Citizens* examines the mobilization of workers and the urban poor in Mexico City from the eve of the 1910 revolution through the early 1920s producing for the first time a nuanced illumination of groups that have long been discounted by historians John Lear addresses a basic paradox During one of the great social upheavals of the twentieth century urban workers and masses had a limited military role yet they emerged from the revolution with considerable combativeness and a new significance in the power structure Lear identifies a significant and largely underestimated tradition of resistance and independent organization among working people that resulted in part from the changes in the structure of class and community in Mexico City during the last decades of Porfirio Diaz s rule 1876 1910 This

tradition of resistance helped to join skilled workers and the urban poor as they embraced organizational opportunities and faced crises in wages and access to food and housing as the revolution escalated Emblematic of these ties was the role of women in political agitation street mobilizations strikes and riots Lear suggests that the prominence of labor after the revolution was neither a product of opportunism nor one of revolutionary consciousness but rather the result of the ongoing organizational efforts and cultural transformations of working people that coincided with the revolution The Spaces of the Modern City Gyan Prakash, Kevin M. Kruse, 2008-02-24 It historicizes the contemporary discussion of urbanism highlighting the local and global breadth of the city landscape This interdisciplinary collection examines how the city develops in the interactions of space and imagination The essays focus on issues such as street design in Vienna the motion picture industry in Los Angeles architecture in Marseilles and Algiers and the kaleidoscopic paradox of post apartheid Johannesburg They explore the nature of spatial politics examining the disparate worlds of eighteenth century Baghdad nineteenth century Morelia They also show the meaning of everyday spaces to urban life illuminating issues such as crime in metropolitan London youth culture in Dakar memory projects in Tokyo and Bombay cinema
