*The Legacy of Serbia's Great War* Alex Tomić,2024-01-05 In the winter of 1915 following the

invasion of Serbia by the Central Powers the Serbian Army retreated across the mountains of Albania and Montenegro together with thousands of civilians Around 240 000 lost their lives Today the story of the retreat is little known except in Serbia where it represents the heroic Serbian sacrifice in the Great War In this book Alex Tomic examines the centenary events memorializing the First World War with the retreat at its core and provides a persuasive account of the ways in which the remembrance of Serbian history has been manipulated for political purposes Whether through commemorations ceremonies or grass root initiatives she demonstrates how these have been used as distractions from the more recent unexamined past and in doing so provides an important new perspective on the cultural history of commemoration

**Charles de Gaulle's Legacy of Ideas** Benjamin M. Rowland, 2011-08-16 The essays in this volume examine selected national regional European and international policies of Charles de Gaulle giving consideration to their significance in his own time and today Not everything de Gaulle did

withstands the test of time Nor obviously was everything beyond criticism in his own time Nonetheless a main finding in the words of one essayist is that de Gaulle had an uncanny sense of where history was going and the skill to position his country accordingly De Gaulle also stands as a testament to the power of individuals in history a somewhat unfashionable viewpoint in modern university curriculums Today when France s destiny appears increasingly to depend on structures and institutions beyond its national control including a Europe weakened by the sovereign debt crisis and a global economic system accountable to no one it seems timely to reconsider the record of the twentieth century s greatest Frenchman whose skill at dealing with the problems of his time can inspire today s generation of politicians and statesmen

Bin Laden's Legacy  
Daveed Gartenstein-Ross, 2011-07-28 Why al Qaeda is winning its war against the West and America has been playing right into its hands In the decade since 9 11 the United States has grown weaker It has been bogged down by costly wars in Iraq and Afghanistan It has spent billions of dollars on security to protect air travel and other transport as well as the homeland more generally Much of this money has been channeled into efforts that are inefficient by design and highly bureaucratic a lack of coordination between and among the government and an array of contractors making it difficult to evaluate the return on the enormous investment that we have made in national security Meanwhile public morale has been sapped by measures ranging from color coded terror alerts to full body hand searches Now counterterrorism expert Daveed Gartenstein Ross details the strategic missteps the U S has made in the fight against al Qaeda a group that U S planners never really took the time to understand For this reason America s responses to the terrorist threat have often unwittingly helped al Qaeda achieve its goals Gartenstein Ross s book explains what the country must do now to stem the bleeding Explains in detail al Qaeda s strategy to sap and undermine the American economy and shows how the United States played into the terrorist group s hands by expanding the battlefield and setting up an expensive homeland security bureaucracy that has difficulty dealing with a nimble adaptive foe Outlines how al Qaeda s economic plans have evolved toward an ultimate strategy of a thousand cuts which involves smaller yet more frequent attacks against Western societies Shows how the domestic politicization of terrorism has weakened the United States skewing its priorities and causing it to misallocate counterterrorism resources Offers a practical plan for building domestic resiliency against terrorist attacks and escaping the mistakes that have undermined America s war against its jihadist foes Clearly written and powerfully argued by a prominent counterterrorism expert
