Blinken, 1987 **European Integration and the Atlantic Community in the 1980s** Kiran Klaus Patel, Kenneth Weisbrode, 2013-09-02 This unique collection of essays lays the groundwork for the study of the intersection of European integration and transatlantic relations in the 1980s With archives for this period only recently being opened scholars are beginning to analyse and understand what some have called a peak moment in the European project and others have called the Second Cold War How do these moments intersect and relate to one another These essays by prominent scholars from Europe and the United States examine these and related questions while challenging the 1980s itself as a useful demarcation for historical analysis **The United States and the European Pillar** William C. Cronwell, 2016-07-27 The first major study of Atlantic political relations since World War 2 that uses a comparative perspective to analyze U S foreign policy and U S European relations in the context of a Western Europe attempting to speak with one voice The book examines U S policy toward European unity and the evolution of a West European pillar in foreign policy and defence contrasts U S and European approaches toward specific global issues and considers Atlantic relations in light of the dramatic European upheavals in 1989 90 Ibss: Political Science: 1987 British Library of Political and Economic Science, 1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences *The Politics of International Economic Relations* Jeffrey A. Dobson, Steve Marsh, 2007-01-24 This essential introduction to postwar US foreign policy combines chronologic and thematic chapters to provide an historical account of US policy and to explore key questions about its design control and effects **Transatlantic Energy Relations** John R. Deni, Karen Smith Stegen, 2016-04-08 Recent upheaval in the global energy system dramatic increases in demand led largely by developing countries significant decreases in supply as a result of local or regional conflicts and the growing nexus between the burning of hydrocarbons and climate change has unsettled long held notions of energy security For many years transatlantic cooperation helped undergird the system s stability but Europe and North America have drifted apart in several

key ways potentially undermining the search for energy sufficiency surety and sustainability Will the transatlantic partners continue on separate paths in the face of dramatic change in the global energy system or does the breadth and depth of the challenges they confront compel them to work more closely together In this edited volume experts from across Europe and North America including advisors to the executive and legislative branches of both the EU and the United States to senior military commanders and to major international organizations and companies examine the most salient facets of the transatlantic energy relationship and discern whether that relationship is characterized by growing convergence or divergence This book was based on a special issue of the Journal of Transatlantic Studies

The International Relations of the EU Steve Marsh, Hans Mackenstein, 2014-09-11 In an incisive and lively discussion International Relations of the EU examines both the economic and security dimensions of European Union external relations The book adopts an innovative approach that combines International Relations with International Political Economy Set against a backdrop of EU enlargement and disarray over military intervention in Iraq International Relations of the EU is a timely contribution to our understanding of the EU's role as an international actor The text is suitable for advanced undergraduate courses in Politics and International Relations

Power, Energy, and the New Russian Imperialism Anita Orban, 2008-09-30 Russia is the world's foremost energy superpower rivaling Saudi Arabia as the world's largest oil producer and accounting for a quarter of the world's exports of natural gas Russia's energy reserves account for half of the world's probable oil reserves and a third of the world's proven natural gas reserves Whereas military might and nuclear weapons formed the core of Soviet cold war power since 1991 the Russian state has viewed its monopolistic control of Russia's energy resources as the core of its power now and for the future Since 2005 the international news has been filled with Russia's repeated demonstrations of its readiness to use price transit fees and supply of gas and oil exports as punitive policy instruments against recalcitrant states that were formerly part of the Soviet Union striking in turn the Ukraine Georgia Azerbaijan Armenia Belarus and Lithuania Orban reveals for the first time in *Power Energy and the New Russian Imperialism* Russia's

readiness to wield the same energy weapon against her neighbors on the west all of them former Soviet satellite states but now EU and NATO member nations the three Baltic nations and the five East European nations of Poland Slovakia Hungary the Czech Republic and Slovenia Orbán shows how the Kremlin since 1991 has systematically used Russian energy companies as players in a concerted neo mercantilist energy based foreign policy designed to further Russia's neo imperial ambitions among America's key allies in Central East Europe Her unprecedented analysis is key to predicting Russia's strategic response to American negotiations with Poland and the Czech Republic to host the US missile shield She also reveals the economic and diplomatic modus operandi by which Russia will increasingly apply its energy clout to shape and coerce the foreign policies of the West European members of the EU as Russia's contribution to EU gas consumption increases from a quarter today to three quarters by 2020 Orbán proves that Russia's neo mercantilist energy strategy in East Europe is not at all dependent on the person of Putin but began under Yeltsin and continues under Medvedev the former chairman of Gazprom
