Thomas* Fort Wayne Museum of Art, 1998 Alma W. Thomas, 1998 Here I Throw Down My Heart Colleen J. McElroy, 2012-10-28 The poems in *Here I Throw Down My Heart* prompt readers to see beyond the surface of images whether that surface is a uniform a prescribed setting a familiar geography or the surface that evokes the most social commentary skin the body itself The modern world moves at a greater speed than the world of a few generations ago so we look for ways to sort our likes and dislikes to set our comfort zones These poems say don't believe everything you see look again The poems look at how borders between countries or between genders and class have deepened the lines between the haves and have nots While everyone is on a collision course for lack of food and water those dividing lines seem more impenetrable than ever underscoring the disparity between gender race and class The Grove Encyclopedia of American Art Joan M. **Object Performance in the Black Atlantic** Paulette Richards, 2023-07-28 Given that slaveholders prohibited the creation of African style performing objects is there a traceable connection between traditional African puppets masks and performing objects and contemporary African American puppetry This study approaches the question by looking at the whole performance complex surrounding African performing objects and examines the material culture of object performance Object Performance in the Black Atlantic argues that since human beings can attribute private personal meanings to objects obtained for personal use such as dolls vessels and quilts the lines of material culture continuity between African and African American object performance run through objects that performed in ritual rather than theatrical capacity Split into three parts this book starts by outlining the spaces where the African American object performance complex persisted through the period of slavery Part Two traces how African Americans began to reclaim object performance in the era of Jim Crow segregation and Part Three details how increased educational and economic opportunities along with new media technologies enabled African Americans to use performing objects as a powerful mode of resistance to the objectification of Black bodies This is an essential study for any students of puppetry and material performance and particularly those concerned with African American performance and performance in North America more broadly **1971** Darby English, 2016-12-20 In this book art historian Darby English explores the year 1971 when two exhibitions opened that brought modernist painting and sculpture into the burning heart of United States cultural politics Contemporary Black Artists in America at the Whitney Museum of American Art and The DeLuxe Show a racially integrated abstract art exhibition presented in a renovated movie theater in a Houston ghetto 1971 A Year in the Life of Color looks at many black artists desire to gain freedom from overt racial representation as well as their efforts and those of their advocates to further that aim through public exhibition Amid calls to define a black aesthetic these experiments with modernist art prioritized cultural interaction and instability Contemporary Black Artists in America highlighted abstraction as a stance against normative

approaches while The DeLuxe Show positioned abstraction in a center of urban blight The importance of these experiments English argues came partly from color s special status as a cultural symbol and partly from investigations of color already under way in late modern art and criticism With their supporters black modernists among them Peter Bradley Frederick Eversley Alvin Loving Raymond Saunders and Alma Thomas rose above the demand to represent or be represented compromising nothing in their appeals for interracial collaboration and above all responding with optimism rather than cynicism to the surrounding culture s preoccupation with color
