Almanac Of America Cook:

Almanac of America Cook Book Nancy Otto, 1986 **Mapping the Americas** Shari M. Huhndorf, 2011-02-23 In *Mapping the Americas* Shari M Huhndorf tracks changing conceptions of Native culture as it increasingly transcends national boundaries and takes up vital concerns such as patriarchy labor and environmental exploitation the emergence of pan Native urban communities global imperialism and the commodification of indigenous cultures While nationalism remains a dominant anticolonial strategy in indigenous contexts Huhndorf examines the ways in which transnational indigenous politics have reshaped Native culture especially novels films photography and performance in the United States and Canada since the 1980s *Mapping the Americas* thus broadens the political paradigms that have dominated recent critical work in Native studies as well as the geographies that provide its focus particularly through its engagement with the Arctic Among the manifestations of these new tendencies in Native culture that Huhndorf presents are Igloodik Isuma Productions the Inuit company that has produced nearly forty films including *Atanarjuat The Fast Runner* indigenous feminist playwrights Leslie Marmon Silko's *Almanac of the Dead* and the multimedia artist Shelley Niro Huhndorf also addresses the neglect of Native America by champions of postnationalist American studies which shifts attention away from ongoing colonial relationships between the United States and indigenous communities within its borders to U S imperial relations overseas This is a dangerous oversight Huhndorf argues because this neglect risks repeating the disavowal of imperialism that the new American studies takes to task Parallel transnational tendencies in American studies and Native American studies have thus worked at cross purposes as pan tribal alliances draw attention to U S internal colonialism and its connections to global imperialism American studies deflects attention from these ongoing processes of conquest *Mapping the Americas* addresses this neglect by considering what happens to American studies when you put Native studies at the center **The Red Land to the South** James Howard Cox, 2012 The forty years of American Indian literature taken up by James H Cox the decades between 1920 and 1960 have been called politically and intellectually moribund On the contrary Cox identifies a group of American Indian writers who share an interest in the revolutionary potential of the indigenous peoples of Mexico and whose work demonstrates a surprisingly assertive literary politics in the era By contextualizing this group of American Indian authors in the work of their contemporaries Cox reveals how the literary history of this period is far more rich and nuanced than is generally acknowledged The writers he focuses on Todd Downing Choctaw Lynn Riggs Cherokee and D Arcy McNickle Confederated Salish and Kootenai are shown to be on par with writers of the preceding Progressive and the succeeding Red Power and Native American literary renaissance eras Arguing that American Indian literary history of this period actually coheres in exciting ways with the literature of the Native American literary renaissance Cox repudiates the intellectual and political border that has emerged between the two eras *An Annotated Catalogue of the Edward C. Atwater Collection of American Popular Medicine and Health Reform* Christopher Hoolihan, 2001 This is a catalogue of the

Edward C Atwater Collection of rare books dealing with popular medicine in early America which is housed at the University of Rochester Medical School library The books described in the catalogue were written by physicians and other professionals to provide information for the non medical audience The books taught human anatomy hygiene temperance and diet how to maintain health and how to cope with illness especially when no professional help was available The books promoted a healthy lifestyle for the readers giving guidance on everything from physical fitness and recreation to the special health needs of women The collection consists of works dealing with reproduction from birth control to delivering and caring for a baby venereal disease home nursing epidemics and the need for public sex education The Lost Majority Sean

Trende,2025-06-25 In today s fraught political climate one thing is indisputable the dream of the emerging Democratic majority is dead How did the Democrats who seemed unstoppable only two short years ago lose their momentum so quickly and what does it mean for the future of our two party system Here RealClearPolitics senior analyst Sean Trende explores the underlying weaknesses of the Democratic promise of recent years and shows how unlikely a new era of liberal values always was as demonstrated by the current backlash against unions and other Democratic pillars Persuasively arguing that both Republicans and Democrats are failing to connect with the real values of the American people and that long held theories of cyclical political realignments are baseless Trende shows how elusive a true and lasting majority is in today s climate how Democrats can make up for the ground they ve lost and how Republicans can regain power and credibility Trende s surprising insights include The South didn t shift toward the Republicans because of racism but because of economics Barack Obama s 2008 win wasn t grounded in a new transformative coalition but in a narrower version of Bill Clinton s coalition The Latino vote is not a given for the Democrats as they move up the economic ladder they will start voting Republican Even before the recent fights about the public sector Democratic strongholds like unions were no longer relevant political entities With important critiques of the possible Republican presidential nominations in 2012 this is a timely inspiring look at the next era of American politics **Proceedings, Nautical Almanac Office Sesquicentennial Symposium** Alan D. Fiala,Steven
