Murphey, 2021-11-26 As a white man in Amerika I can tell you that most white people in Amerika and consequently the world are racist However most of us that are racist have no idea that we're racist The rest of us are in denial which itself is racist Nevertheless we have no idea that we're racist because we don't understand racism The majority of us learn about racism through the history of slavery and the subsequent civil rights movement Due to the limited nature of our exposure and insight to it we tend to have a very parochial and misguided understanding of racism and how it works Subsequently our racist attitudes and beliefs aren't necessarily conscious or intentional decisions that we made They're usually developed as a result of our misunderstanding of racism This book outlines and explains some of the most common aspects of the racism that we as white people develop which often go overlooked unnoticed and misunderstood It attempts to clarify the nuances and subtleties of our racism in easy to understand terms This book attempts to bring to the forefront how attitudes and beliefs that we have as well as our position in society are racist developments that we didn't necessarily choose but now cannot deny
