The Complete Works of W.H. Auden W. H. Auden, Christopher Isherwood, 2019-02-19 This volume contains Auden and Christopher Isherwood's dramatic extravaganzas *The Dog Beneath the Skin*, *The Ascent of F 6* and *On the Frontier*. It also includes the two versions of *Paid on Both Sides* which are so different as to constitute two works, and Auden's satiric revue *The Dance of Death*. Two plays appear in print for the first time: Auden and Isherwood's *The Enemies of a Bishop* and Auden's *The Chase*. Also included are Auden's prose and verse written for documentary films, a cabaret sketch and an unpublished radio script. Many of the texts include poems by the young Auden that have never been published before. The extensive historical and textual notes trace the complex history of the production and revision of these plays, including full texts and rewritten scenes. During the years when these works were created, Auden moved from a poetry of isolation to more expansive and public writing. After he left Oxford at age twenty-one during the summer of 1928, he wrote the tragicomic charade *Paid on Both Sides*. During the next ten years until he left England for America, he created the increasingly ambitious works for stage, film and broadcast that appear in this volume. The most

important of these plays were written in collaboration with Isherwood As the world political situation worsened Isherwood and Auden s style combined the energy of popular entertainment with the urgency of sacramental ritual Edard Mendelson is Professor of English and Comparative Literature at Columbia University and the author of *Early Auden* Viking He is the editor of two volumes of Aduen s poetry *Collected Poems* Random House and *The English Auden* Random House Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Michael D. O'Brien, 2013-11-04 Set eighty years in the future this novel by the best selling author Michael O'Brien is about an expedition sent from the planet Earth to Alpha Centauri the star closest to our solar system The Kosmos a great ship that the central character Neil de Hoyos describes as a flying city is immense in size and capable of more than half light speed Hoyos is a Nobel Prize winning physicist who has played a major role in designing the ship Hoyos has signed on as a passenger because he desires to escape the seemingly benign totalitarian government that controls everything on his home planet He is a skeptical and quirky misanthropic humanist with old tragedies loves and hatreds that are secreted in his memory The surprises that await him on the voyage and its destination will shatter all of his assumptions and point him to a true new horizon Science fiction and fantasy literature are genres that have become dominant forces in contemporary worldwide culture Our fascination with the near angelic powers of new technology its benefits and dangers its potential for obsession and catastrophe raises vital questions that this work explores about human nature and the cosmos about man's image of himself and where he is going and why he seeks to go there *Patents for Inventions.
