Along The Gold Rush Trail:

Along the Gold Rush Trail Gail Wilson Kenna, 1993-03-01 *Hard Road West* Keith Heyer Meldahl, 2020-03-04 The dramatic journeys of the 19th century Gold Rush come to life in this geologist's tour of the American West and the events that shaped the land. In 1848 news of the discovery of gold in California triggered an enormous wave of emigration toward the Pacific. The dramatic terrain these settlers crossed is so familiar to us now that it is hard to imagine how frightening even godforsaken its sheer rock faces and barren deserts once seemed to them. *Hard Road West* brings their perspective vividly to life, weaving together the epic overland journey of the covered wagon, trains, and the compelling story of the landscape they encountered. Taking readers along the 2,000-mile California Trail, Keith Meldahl uses settlers' diaries and letters as well as his own experiences on the trail to reveal how the geology and geography of the West shaped our nation's westward expansion. He guides us through a landscape of sawtooth mountains, following the meager streams that served as lifelines through an arid land all the way to California itself, where colliding tectonic plates created breathtaking scenery and planted the gold that lured travelers west in the first place. Alternates seamlessly between vivid accounts of the 19th-century journey and lucid explanations of the geological events that shaped the landscape. *Library Journal* **Nationwide System**

of Trails United States. Congress. Senate. Committee on Interior and Insular Affairs, 1967 Considers S 827 to establish a nationwide system of scenic trails **Every Trail Has a Story** Bob Henderson, 2005-03-07 Canada is packed with intriguing destinations where heritage and landscape interact. Bob Henderson captures our living history and its relationship to the land.

The Gold Rush Trail and the Road to Oregon Todd Webb, 1963 The historic trails as seen by the pioneers and retraced today. Over 100 photos , Golden Nuggets Branwen Christine Patenaude, 1998 When gold was discovered on the Fraser River, the rush was on. By early spring of 1858 the need for shelter, food, rest stops, and stores became very apparent as miners and would-be miners made their way up into the hinterland. From Yale to Barkerville, roadhouses sprung up along the Cariboo's gold rush trail. From their crude beginning, the roadhouses soon grew to be more than just stopovers. The roadhouses are gone, but the communities, villages, towns, and cities remain. *Golden Nuggets* with pictures and written text brings the roadhouses back to life and gives us a glimpse of yesterday **Handbook of Research on Entrepreneurship in**

Professional Services Markus Reihlen, Andreas Werr, 2012-01-01 Professional service firms are critical agents of contemporary economies, and understanding them has become a central focus of recent scholarship. This very timely and well-organized Handbook brings together several leading scholars who explore how we might think and theorize about professional service firms and their entrepreneurial behaviours. The Handbook will become a key source for the growing community of researchers in this area. Royston Greenwood, University of Alberta, Canada. For too long, both researchers and practitioners have presumed that professional service firms follow the status quo when they should better understand how these professionals set the rules for globalization. This Handbook reminds us that professionals are as much the shock troops

of capitalism as the multinational corporations that they serve As this Handbook shows the leading firms successfully compete with each other by fostering entrepreneurship and innovation in order to service an institutional system that undergirds the international economy Christopher McKenna University of Oxford UK Professional services are increasingly seen as an important foundation for future economic growth and prosperity Yet research on innovative and entrepreneurial processes in professional services has been surprisingly scarce This Handbook provides a collection of original contributions from leading scholars outlining the current stock of knowledge in the area as well as providing directions for further research The expert contributors discuss entrepreneurship and innovation from a number of different perspectives including the entrepreneurial professional team the entrepreneurial firm and the institutional environment The first part of the book looks at the challenges of entrepreneurship specific to the professional service firm while the second explores the creation and exploitation of entrepreneurial opportunities in the professional service team Part III turns to the organization and Part IV to the management and growth of the entrepreneurial professional service firm The final part discusses the interplay between professions firms and the institutional environment Researchers scholars and PhD students in the areas of entrepreneurship and professional service firms along with advanced students of management will find this volume of great value
