Along This Way The Autobiography Of James Weldon Johnson:

Along this Way James Weldon Johnson, 1945 **Along this Way** James Weldon Johnson, 1969 **Passing and the Fictions of Identity** Elaine K. Ginsberg, 1996-04-29

Passing refers to the process whereby a person of one race gender nationality or sexual orientation adopts the guise of another Historically this has often involved black slaves passing as white in order to gain their freedom More generally it has served as a way for women and people of color to access male or white privilege In their examination of this practice of crossing boundaries the contributors to this volume offer a unique perspective for studying the construction and meaning of personal and cultural identities These essays consider a wide range of texts and moments from colonial times to the present that raise significant questions about the political motivations inherent in the origins and maintenance of identity categories and boundaries Through discussions of such literary works as *Running a Thousand Miles for Freedom* *The Autobiography of an Ex Coloured Man* *Uncle Tom s Cabin* *The Hidden Hand* *Black Like Me* and *Giovanni s Room* the authors examine issues of power and privilege and ways in which passing might challenge the often rigid structures of identity politics Their interrogation of the semiotics of behavior dress language and the body itself contributes significantly to an understanding of national racial gender and sexual identity in American literature and culture Contextualizing and building on the theoretical work of such scholars as Judith Butler Diana Fuss Marjorie Garber and Henry Louis Gates Jr *Passing and the Fictions of Identity* will be of value to students and scholars working in the areas of race gender and identity theory as well as U S history and literature Contributors Martha Cutter Katharine Nicholson Ings Samira Kawash Adrian Piper Valerie Rohy Marion Rust Julia Stern Gayle Wald Ellen M Weinauer Elizabeth Young

James Weldon Johnson's Modern Soundscapes Noelle Morrisette, 2013-05-01

James Weldon Johnson s *Modern Soundscapes* provides an evocative and meticulously researched study of one of the best known and yet least understood authors of the New Negro Renaissance era Johnson familiar to many as an early civil rights leader active in the National Association for the Advancement of Colored People and an intentionally controversial writer on the subject of the significance of race in America was one of the most prolific wide ranging and yet elusive authors of twentieth century African American literature Johnson realized early in his writing career that he could draw attention to the struggles of African Americans by using unconventional literary methods such as the incorporation of sound into his texts In this groundbreaking work literary critic Noelle Morrisette examines how his literary representation of the extremes of sonic experience functioning as either cultural violence or creative force draws attention to the mutual contingencies and the interdependence of American and African American cultures Moreover Morrisette argues Johnson represented these American sounds as a source of multiplicity and diversity often developing a framework for the interracial transfer of sound The lyricist and civil rights leader used sound as a formal aesthetic practice in and between his works presenting it as an unbounded cultural practice that is as much an interracial as it is a racially distinct cultural history Drawing on archival

materials such as early manuscript notes and drafts of Johnson's unpublished and published work Morrisette explores the author's complex aesthetic of sound based on black expressive culture and cosmopolitan interracial experiences This aesthetic evolved over the course of his writing life beginning with his early Broadway musical comedy smash hits and the composition of *Autobiography of an Ex-Colored Man* 1912 and developing through his real autobiography *Along This Way* 1933 The result is an innovative new interpretation of the works of one of the early twentieth century's most important and controversial writers and civil rights leaders

The House I Live In Robert J. Norrell, 2005-02-01 In *The House I Live In* award winning historian Robert J Norrell offers a truly masterful chronicle of American race relations over the last one hundred and fifty years This scrupulously fair and insightful narrative the most ambitious and wide ranging history of its kind sheds new light on the ideologies from white supremacy to black nationalism that have shaped race relations since the Civil War Norrell argues that it is these ideologies more than politics or economics that have sculpted the landscape of race in America Beginning with Reconstruction he shows how the democratic values of liberty and equality were infused with new meaning by Abraham Lincoln only to become meaningless for generations of African Americans as the white supremacy movement took shape The heart of the book paints a vivid portrait of the long often dangerous struggle of the Civil Rights movement to overcome decades of accepted inequality Norrell offers fresh appraisals of key Civil Rights figures and dissects the ideas of racists He offers striking new insights into black white history observing for instance that the Civil Rights movement really began as early as the 1930s and that contrary to much recent

writing the Cold War was a setback rather than a boost to the quest for racial justice He also breaks new ground on the role of popular culture and mass media in first promoting but later helping defeat notions of white supremacy Though the struggle for equality is far from over Norrell writes that today we are closer than ever to fulfilling the promise of our democratic values *The House I Live In* gives readers the first full understanding of how far we have come **New**
