## **Alta California Land Of Fire:**

Land of Chamise and Pines Richard A. Minnich, Ernesto Franco Vizcaino, 1998-11-04 In marked contrast to California's landscape of urban sprawl expansive agriculture and wildlands altered by protectionist management systems many landscapes in neighboring Baja California would still be recognizable to the first European explorers This book shows that the vegetation of present day Baja California is remarkably similar to that observed in the 18th and 19th centuries and that historical fire and grazing management has done little to alter the region's resilient mediterranean type shrublands and forests

**Santa Monica Mountains National Recreation Area (N.R.A.), Fire Management Plan**, 2005 **California Disasters, 1812-1899** William B. Seacrest, William B. Seacrest, 2006 First person accounts of the major catastrophies of 19th century California

In the Land of Frozen Fires Neil C. Mangum, 1990 **Biodiversity, Ecosystems, and Conservation in Northern Mexico** Jean-Luc E. **Women and the Conquest of California, 1542-1840** Virginia M. Bouvier, 2004-08 Studies of the Spanish conquest in the Americas traditionally have explained European Indian encounters in terms of such factors as geography timing and the charisma of individual conquistadores Yet by reconsidering this history from the perspective of gender roles and relations we see that gender ideology was a key ingredient in the glue that held the conquest together and in turn shaped indigenous behavior toward the conquerors This book tells the hidden story of women during the missionization of California It shows what it was like for women to live and work on that frontier and how race religion age and ethnicity shaped female experiences It explores the suppression of women's experiences and cultural resistance to domination and reveals the many codes of silence regarding the use of force at the missions the treatment of women indigenous ceremonies sexuality and dreams Virginia Bouvier has combed a vast array of sources including mission records journals of explorers and missionaries novels of chivalry and oral histories and has discovered that female participation in the colonization of California was greater and earlier than most historians have recognized Viewing the conquest through the prism of gender Bouvier gives new meaning to the settling of new lands and attempts to convert indigenous peoples By analyzing the participation of women both Hispanic and Indian in the maintenance of or resistance to the mission system Bouvier restores them to the narrative of the conquest colonization and evangelization of California And by bringing these voices into the chorus of history she creates new harmonies and dissonances that alter and enhance our understanding of both the experience and meaning of conquest

**El Cinco de Mayo** David Hayes-Bautista, 2012-05-05 Why is Cinco de Mayo a holiday commemorating a Mexican victory over the French at Puebla in 1862 so widely celebrated in California and across the United States when it is scarcely observed in Mexico As David E Hayes Bautista explains the holiday is not Mexican at all but rather an American one created by Latinos in California during the mid nineteenth century Hayes Bautista shows how the meaning of Cinco de Mayo has shifted over time it embodied immigrant nostalgia in the 1930s U S patriotism during World War II Chicano Power in the 1960s and 1970s and commercial intentions in the 1980s and 1990s Today it continues to reflect the aspirations of a community that is engaged empowered and expanding

the events that shaped them Divided into two major parts it covers first the glaciers and forests of the Ice Age and the influences of native peoples and then provides an in depth look at these majestic forests through the eyes of the first European explorers Changes in climate and elevation the movement of trees northward the assembly of modern forests and qualities that all ancient forests shared are also thoroughly examined A special feature of this book is its self contained introduction to the early history of Native American peoples and their environment The author draws on his roots in the Osage nation as well as painstaking research through the historical record offering a complete discussion of how the cultural practices of hunting agriculture and fire helped form the ancient forests
