Christian Worship in North America James F. White, 2007-12-01 In recent years scholars have paid increasing attention to the richness and diversity of North American contributions to Christian worship This volume of articles by James F White summarizes a major segment of liturgical history 1955 1995 Characteristic North American emphases such as liturgy and justice are highlighted along with other issues growing out of the worship context of the New World **Building a**

Protestant Left Mark Hulsether, 1999 He follows the twists and turns of this story from Niebuhr's Christian realist positions of the 1940s through Protestant participation in the complex social movements of the 1950s and 1960s to the emergence of various liberation theologies African American feminist Latin American and others that used C C as a central arena of debate in the 1970s and 1980s **Altered Landscapes** David W. Lotz, Donald Woods Shriver (Jr.), John Frederick Wilson, 1989 Part

One surveys the striking changes and continuities in the mainline Protestant Roman Catholic evangelical fundamentalist and black churches including developments in their public worship and their views of world mission Due attention is given to the challenges and creative opportunities posed by ecumenical movements by the rise in women's consciousness and in racial and ethnic awareness by new attitudes toward Jewish Christian relations and by the concerns of Third World peoples and churches Part Two examines foundational developments in theological education and in the traditional academic disciplines of Bible systematic theology Christian ethics and church history Also considered at length are the changing strategies in religious education and the complex interplay between religion and science Part Three offers a probing discussion on the relation between Christianity and contemporary American culture **New Directions in American Religious History**

Harry S. Stout, D. G. Hart, 1998-01-01 The eighteen essays collected in this book had their origin in a conference of the same title held at the Wingspread Conference Center in October of 1993 Some of the most distinguished scholars in the field were invited to reflect on their specialties in American religious history in ways that summarized where the field is and where it ought to move in the decades to come Organized according to four general ways of looking at religious history places and regions universal themes transformative events and marginal groups and ethno cultural outsiders the essays address a wide range of topics including Puritanism religion and the Civil War Protestantism and economic behavior gender and sexuality in American Protestantism and the contemporary de Christianization of American culture Featuring contributions from David D Hall Donald G Matthews Allen C Guelzo Gordon S Wood Daniel Walker Howe Robert Wuthnow Jon Butler David A Hollinger and others this thought provoking and up to date collection will interest anyone involved in the study of American religion and history **Methodist Worship** R. Matthew Sigler, 2018-07-04 What makes Methodist worship Methodist or Wesleyan

How do Methodists evaluate emerging forms of worship in light of their own liturgical heritage This book considers these questions by bringing to light the work and significance of three Methodist liturgists who have until now received precious little scholarly focus Thomas O Summers 1812 1882 Nolan B Harmon 1892 1993 and James F White 1932 2004 Exploring

each one's contribution to the Methodist movement it evaluates their continuing legacies as scholars and practitioners of Methodist worship. Importantly the work of all these men occurred during times of cultural change which gave rise to new ways of worship within the landscape of American Methodism. Addressing them in chronological order this study shows how each figure enacted liturgical reform and renewal by drawing from the liturgical textual tradition inherited directly from John Wesley's Sunday Service of the Methodist in North America as well as the hymnody of Charles Wesley. It also demonstrates how they sought to inculturate the Wesleyan liturgical tradition in the midst of these significant changes. Evaluating historic and emerging trends in Methodist liturgical praxis this is a book that will be of great interest to scholars of Methodism.

George Eldon Ladd was a pivotal figure in the resurgence of evangelical scholarship in America during the years after the Second World War. Ladd's career as a biblical scholar can be seen as a quest to rehabilitate evangelical thought both in content and image, a task he pursued at great personal cost. Best known for his work on the doctrine of the Kingdom of God, Ladd moved from critiquing his own movement to engaging many of the important theological and exegetical issues of his day. Ladd was a strong critic of dispensationalism, the dominant theological system in conservative evangelicalism and fundamentalism, challenging what he perceived to be its anti-intellectualism and uncritical approach to the Bible. In his impressive career at Fuller Theological Seminary, Ladd participated in scholarly debates on the relationship between faith and historical understanding, arguing that modern critical methodologies need not preclude orthodox Christian belief. Ladd also engaged the thought of Rudolf Bultmann, the dominant theological figure of his day. Ladd's main focus, however, was to create a work of scholarship from an evangelical perspective that the broader academic world would accept. When he was unsuccessful in this effort, he descended into depression, bitterness, and alcoholism. But Ladd played an important part in opening doors for later generations of evangelical scholars, both by validating and using critical methods in his own scholarly work and also by entering into dialogue with theologians and theologies outside the evangelical world. It is a central theme of this book that Ladd's achievement, at least in part, can be measured in the number of evangelical scholars who are today active participants in academic life across a broad range of disciplines.

The Wilderness, the Nation, and the Electronic Era
 Elmer J. O'Brien, 2009-07-29. *The Wilderness, the Nation, and the Electronic Era*. American Christianity and Religious Communication 1620-2000. An Annotated Bibliography contains over 2,400 annotations of books, book chapters, essays, periodical articles, and selected dissertations dealing with the various means and technologies of Christian communication used by clergy, churches, denominations, benevolent associations, printers, booksellers, publishing houses, and individuals and movements in their efforts to disseminate news, knowledge, and information about religious beliefs and life in the United States from colonial times to the present. Providing access to the critical and interpretive literature about religious communication is significant and plays a central role in the recent trend in American historiography toward cultural history, particularly as it relates to numerous collateral disciplines: sociology, anthropology, education, speech, music, literary studies, art history, and technology. The book documents communication shifts from oral history to print to electronic and visual media and their adaptive uses in communication networks developed over the nation's history. This reference brings bibliographic control to a large and diverse literature not previously identified or indexed.
