Restorative Justice Gerry Johnstone, 2013-03 The second edition of this renowned text explores the implications of developments in the restorative justice campaign to provide a feasible and desirable alternative to mainstream thinking on matters of crime and justice It includes a new chapter identifying and analyzing fundamental shifts and developments in restorative justice thinking over the last decade Toolbox for Implementing Restorative Justice and Advancing Community Policing Caroline G. Souffrant, 2008 *Parceling the Globe* is a study in the processes of global democracy It offers an early answer to the question regarding our responsibility to others Through its organization it presents a partial understanding of the globalization process It determines the range of global behaviors and articulates the prospects for peace in a globalizing environment Restorative Justice at a Crossroads Giuseppe Maglione, Ian D. Marder, Brunilda Pali, 2024-02-13 This book reflects on the institutionalisation of restorative justice over the last 20 years and offers a critical analysis of the qualitative consequences generated by such a process on the normative structure of restorative justice and on its understanding and uses in practice Bringing together an international collection of leading scholars this book provides a range of context sensitive case studies that enhance our understanding of the development of international national and institutional policy frameworks for restorative justice the mainstreaming of practices within the criminal justice system the proliferation of cultural social and political co optations of restorative justice and the ways in which the formalisation of the restorative justice movement have affected its values aims and goals *The Peacebuilding Elements of the Belfast Agreement and the Transformation of the Northern Ireland Conflict* Cornelia Albert, 2009 The aim of this book is to analyse whether the implementation of the peacebuilding elements of the Belfast Agreement contributed to the transformation of the protracted Northern Ireland Conflict Therefore this book deals with the following sections of the Agreement Rights Safeguards and Equality of Opportunity Decommissioning Security Policing and Justice and Prisoners The author comes to the conclusion that the majority of the peacebuilding elements contributed to the transformation of the Northern Ireland Conflict The results of the study were obtained in conducting interviews in consulting surveys and in studying reports and other relevant literature on the recent developments in Northern Ireland **Handbook of Restorative Justice** Gerry Johnstone, Daniel Van Ness, 2013-01-11 Discusses the key concepts and principles of restorative justice explains how the campaign for restorative justice arose and developed into an influential social movement describes the variety of restorative justice practices and identifies and examines key issues within the restorative justice movement *The Juridification of Business Ethics* Bart Jansen, 2023-08-25 This book provides a theory of the juridification of business ethics Ethical codes pop

up everywhere in the business world and increasingly resemble the code of law. A focus on compliance rather than reflection becomes the norm. Legal perspectives replace ethical perspectives turning ethicists into lawyers without a law degree. This juridification of business ethics conceals a diminishing trust in ethics as legal reasoning substitutes philosophical thinking. By appealing to the critical study of law, Bart Jansen advocates for a renewed focus on the ethical side of business. This book shows the importance of a good balance between law and ethics in business and is of great interest to both academics and professionals.

Being Relational Jocelyn Downie, Jennifer J. Llewellyn, 2011-11-10. At the heart of relational theory lies the idea that the human self is fundamentally constituted in terms of its relations to others. For relational theorists, the self not only lives in relationship with and to others but also owes its very existence to such relationships. In this groundbreaking collection, leading relational theorists explore core moral and metaphysical concepts while health law and policy scholars respond by analyzing how such considerations might apply to more practical areas of concern. Innovative and self-reflexive, *Being Relational* brings a powerful theoretical framework to health law and policy studies. In so doing, it makes a bold contribution to scholarship and will appeal to a broad range of thinkers, especially those with an interest in social justice and who seek to understand the complex ways in which power is created and sustained relationally.

Handbook of Restorative Justice, *Sexual Violence and Restorative Justice* Marie Keenan, Estelle Zinsstag, 2022-11-03. Concerned by the high attrition rates for sexual crime and the secondary victimization experienced by victims during their participation in the criminal justice system, this book analyses the extent to which restorative justice can address the justice gap that exists in current justice provision. Building on clinical experience and earlier research on sexual crime, the authors engage with the complex dynamics and traumatic impact of sexual crime as a critical starting point for their research and examine whether restorative justice can contribute to a more enhanced justice response. The book presents extensive new data on restorative justice as applied in sexual violence cases across the globe. It engages with feminist concerns regarding the traumatic impact of sexual violence and the potential for re-traumatisation, the power imbalances that characterise these offences and the potential for re-victimisation, the potential for coercion of the victim to participate in the process, the potential for manipulation of restorative justice by the offender and the potential that restorative justice could lead to the reprivatisation of sexual crime and ultimately to its decriminalisation. Having examined these topics in detail, the book concludes there is an important role for restorative justice in addressing the justice gap that exists after sexual crime and offers guidance on how this can be achieved.

New Directions in Restorative Justice Elizabeth Elliott, Robert Gordon, 2013-06-17. This book is based on papers originally presented at the 6th International Conference on Restorative Justice in Vancouver. It is concerned with several new areas of practice within restorative justice, with sections on restorative justice and youth/aboriginal justice and restorative justice victimization and restorative justice and evaluating restorative justice.

The Routledge Handbook of Irish Criminology Deirdre Healy, Claire Hamilton, Yvonne Daly, Michelle Butler, 2015-12-14. This book charts the contours of

the criminological enterprise in Ireland and brings together internationally recognized experts to discuss theory research policy and practice on a range of topics and in an international context *Applying Restorative Justice to Campus Sexual Misconduct* Kaaren M. Williamsen, Erik S. Wessel, 2023-07-03 While sexual misconduct on our college and university campuses both public and private is dismayingly widespread it continues to be significantly underreported because most victims perceive that judicial recourse with its legalistic adversarial approach fails to address in a healing way the harms done to them Fewer still file formal complaints many for fear that they may lose agency and that the process may rekindle the trauma of their experience Recognizing the reality that supermajority of sexual harms in higher education are rarely addressed through established legalistic practices this book offers a range of alternative approaches based on restorative justice Starting from the premise What if we started with the goal of healing in mind this book opens with an overview of common restorative practices and accounts of application and lessons learned by practitioners who have implemented a range of restorative justice and alternative based approaches Subsequent chapters cover procedural elements recommendations around documentation and interventions for individuals who have caused harm through sexual and gender based misconduct The book addresses facilitation the need to pay attention to self people and systems identities and power dynamics the considerations for working restoratively with both complainants and respondents offers cases and adaptable examples of resolution and concludes with reflections on institutional implementation from the perspectives of administrators facilitators and a student survivor Recognizing there will always be a need for a formal investigatory approach to cases of sexual misconduct the book offers a wide range of alternative options that empower those who are most directly affected to make the call for themselves In doing so it may increase reporting and furthermore in offering a healing justice that addresses individual and community needs may work to reduce sexual misconduct on campus *Criminal Punishment and Restorative Justice* David J. Cornwell, F. W. M. McElrea, John R. Blad, Robert B. Cormier, 2006 *Criminal Punishment and Restorative Justice* is an appraisal of the divide that exists between punitive and restorative methods The book looks at events that serve to restrict a greater and more emphatic adoption of restorative justice and its huge potential in contemporary criminal justice developments In an era of increasing and worldwide reliance on imprisonment and other punitive methods the author argues that justice and communities would be far better served by a more enthusiastic and early shift to restorative methods *Criminal Punishment and Restorative Justice* provides an international perspective on how restorative justice can bring about an altogether more enlightened approach to dealing with offenders and victims alike against a backdrop of often spurious traditional justifications for punishment While acknowledging the need for a constructive use of custody and other corrections in response to serious crime the author points out that the present over reliance on custody can be reduced by challenging offenders to take responsibility for their offenses and to make practical reparation for their wrong doing and repairing the harm that they have caused The book also assesses the potential of

restorative justice to make corrections more effective civilized humane and pragmatic in terms of finding solutions to crime on the basis of sound principles and information not political expediency
