Alternative Sentencing Electronically Monitored Correctional Supervision:

Electronically Monitored Punishment Mike Nellis, Kristel Beyens, Dan Kaminski, 2013-05-07 Electronic monitoring EM is a way of supervising offenders in the community whilst they are on bail serving a community sentence or after release from prison Various technologies can be used including voice verification GPS satellite tracking and most commonly the use of radio frequency to monitor house arrest It originated in the USA in the 1980s and has spread to over 30 countries since then This book explores the development of EM in a number of countries to give some indication of the diverse ways it has been utilized and of the complex politics which surrounds its use A techno utopian impulse underpins the origins of EM and has remained latent in its subsequent development elsewhere in the world despite recognition that it is less capable of effecting penal transformations than its champions have hoped This book devotes substantive chapters to the issues of privatisation evaluation offender perspectives and ethics Whilst normatively more committed to the Swedish model the book acknowledges that this may not represent the future of EM whose untrammelled commercially driven development could have very alarming consequences for criminal justice Both utopian and dystopian hopes have been invested in EM but research on its impact is ambivalent and fragmented and EM remains undertheorised empirically and ethically This book seeks to redress this by providing academics policy audiences and practitioners with the intellectual resources to understand and address the challenges which EM poses **Alternative Sentencing** Richard Enos, John E. Holman, Marnie E.

Carroll, 1999 This book analyzes electronic monitoring within the context of the probation and parole technology It presents house arrest as the punishment and electronic monitoring as the tool of supervision The importance of correctional case management in making community rehabilitation possible is emphasised **Corrections in the Community** Edward J. Latessa, Paula Smith, 2011-01-17 Corrections in the Community is an introductory text that provides a solid foundation of the most recent and salient information available on the broad and dynamic subject of community corrections It explores the issues and practices facing community corrections using the latest research in the field in a way that makes it easy to use and understand This book provides students with a thorough understanding of the theoretical and practical aspects of community corrections Includes two new chapters highlighting what works in community corrections and how programs can be evaluated for effectiveness Contains contemporary real world examples illustrating successful methods that continue to improve community supervision and its effects on different types of clients Organizes and explains the latest data on the assessment of offender risk need responsivity and the training of corrections practitioners in bringing about positive change in offenders **Federal Probation**, 2000 Alternative Sentencing Richard Enos, 1992 Community Corrections in America Arthur J. Bureau of Justice Assistance,1996 **Symposium** ,2008 **Prison and Jail Inmates** ,1997 **World Criminal Justice Systems** Richard J. Terrill,2015-10-30 World Criminal Justice Systems Ninth Edition provides an understanding of major world criminal justice systems by discussing and

comparing the systems of six of the world's countries each representative of a different type of legal system. An additional chapter on Islamic law uses three examples to illustrate the range of practice within Sharia. Political, historical, organizational, procedural, and critical issues confronting the justice systems are explained and analyzed. Each chapter contains material on government, police, judiciary, law, corrections, juvenile justice, and other critical issues. The ninth edition features an introduction directing students to the resources they need to understand comparative criminal justice theory and methodology. The chapter on Russia includes consideration of the turmoil in post-Soviet successor states, and the final chapter on Islamic law examines the current status of criminal justice systems in the Middle East.

National Criminal Justice Thesaurus, 1998. Routledge Handbook of Evidence-Based Criminal Justice Practices. Edelyn Verona, Bryanna Fox, 2023-10-31. Now more than ever, the criminal justice system and the programs, policies, and practices within it are subject to increased public scrutiny due to well-founded concerns over effectiveness, fairness, and potential unintended consequences. One of the best means to address these concerns is to draw upon evidence-based approaches demonstrated to be effective through empirical research rather than through anecdote, standard practice, or professional experience alone. National Institute of Justice, 2011. The goal of this book is to describe the most useful, actionable, and evidence-based solutions to many of the most pressing questions in the criminal justice system today. Specifically, this edited volume contains brief and accessible summaries of the best available research alongside detailed descriptions of evidence-based practices across different areas of the criminal justice system. It is written so that practitioners and researchers alike can use the text as a reference tool in their work and in training the new generation of individuals working to improve the system. Researchers and practitioners in many areas of criminal justice—crime prevention, policing, courts, prosecution, defendants, judges, corrections, sanctions, and sentencing—can reference specific chapters in this book to guide their policy and practice decisions. Although theory is a guide for the practices described, the chapters will address practical issues in implementation and action. This book overcomes the limitations of previous criminal justice practice books in that it is written as a practice resource and reference guide and spans practices and policies across different sectors of the criminal justice system, from prevention to policing to sanctions and corrections. Each chapter contains a list of action items based upon the best available scientific research that can be implemented in practice to address key issues and long-standing challenges in the criminal justice system.
