Anti-Judaism and the Fourth Gospel

Reimund Bieringer, Vandecasteele-Vanneuville, Didier Pollefeyt, 2021-11-15 Series Jewish and Christian Heritage 1 Is the Gospel of John anti-Jewish? What would this mean in the context of the original writer of his community the final text and its first readers? Who precisely are the Ioudaioi who are so scathingly criticized in the Gospel? Judeans perhaps or some other more specific group than the Jewish nation as a whole? What are the implications for New Testament study and for Christian theology in the light of the troubled history of relations between Judaism and Christianity? The papers in this volume were presented at the special international colloquium held in January 2000 in Leuven Belgium which was convened to assemble the world's leading experts on John's Gospel and issues of anti-Judaism for a thorough assessment of the state of the question. The result is a fascinating panorama of the issues and of current approaches to them and an extremely valuable resource for further work on anti-Judaism in the Christian tradition.

Criticism in its Context Martin J. Buss,1999-02-01 This magnum opus is not another catalogue of the forms of biblical literature but a deeply reflected account of the significance of form itself Buss writes out of his experience in Western philosophy and the intricate involvement of biblical criticism in philosophical history Equally biblical criticism and the development of notions of form are related to social contexts whether from the side of the aristocracy tending towards generality or of the bourgeois tending towards particularity or of an inclusive society favouring a relational view Form criticism in Buss s conception is no mere formal exercise but the observation of interrelationships among thoughts and moods linguistic regularities and the experiences and activities of life This work with its many examples from both Testaments will be fundamental for Old and New Testament scholars alike **Rudolf Bultmann** Konrad Hammann,2012

The Old Testament Between Theology and History Niels Peter Lemche, 2008-01-01 From its inception at the time of the Enlightenment until the mid twentieth century the historical critical method constituted the dominant paradigm in Old Testament studies In this magisterial overview Niels Peter Lemche surveys the development of the historical critical method and the way it changed the scholarly perception of the Old Testament In part 1 he describes the rise and influence of historical critical approaches while in part 2 he traces their decline and fall Then in part 3 he discusses the identity of the authors of the Old Testament based on the content of the literature they wrote demonstrating that the collapse of history does not preclude critical study Part 4 investigates the theological consequences of this collapse and surveys Old Testament and biblical theology in its various manifestations in the twentieth century An appendix includes a history of Palestine from the Stone Age to modern times constructed without recourse to the Old Testament Det Gamle Testamente som teologisk problem Katrine Winkel Holm, 2000 Examines the works of Rudolf

Grundbegriff neutestamentlicher Wissenschaft Christof Landmesser, 1999 English summary Christof Landmesser discusses philosophical concepts and develops a concept of truth which makes it possible to show the integrative and critical function of truth both for New Testament studies and for theology in general In doing so he takes a very close look at Heidegger's and Bultmann's concept of truth and at more recent approaches in New Testament hermeneutics He shows that a systematically well founded concept of truth is indispensable for theology and scholarly exegesis and demonstrates how such a concept of truth can be put to advantage in religion and the humanities German description Der Begriff Wahrheit ist in der Theologie und der neutestamentlichen Wissenschaft in vielfachen Bezügen Diskussionsgegenstand Dies gilt vornehmlich für die Frage nach materieller Wahrheit In der gegenwärtigen theologischen Theoriebildung gibt es allerdings keinen umfassenden Versuch die Grundlagen eines Wahrheitsbegriffs systematisch zu rekonstruieren Die Frage nach einem in der Theologie anwendbaren Wahrheitsbegriff ist jedoch angesichts der in der biblischen und kirchlichen Tradition erhobenen Wahrheitsansprüche ein dringendes Desiderat Christof Landmesser erörtert neuere philosophische Konzeptionen und stellt einen semantisch ontologischen Wahrheitsbegriff vor Dabei berücksichtigt er sprach- und erkenntnistheoretische Aspekte ebenso wie wissenschafts- und wahrheitstheoretische Fragestellungen Vor diesem Hintergrund werden der existential ontologische Wahrheitsbegriff Heideggers und dessen Aufnahme in die Theologie durch Bultmann ausführlich dargestellt und diskutiert Anschließend wird die Funktion der Wahrheitsfrage in der gegenwärtigen neutestamentlichen Hermeneutik erörtert Zum Schluss legt Christof Landmesser auf der Grundlage des semantisch ontologischen Wahrheitsbegriffs einen Entwurf vor der es ermöglicht die integrative und kritische Funktion des Begriffs Wahrheit für die neutestamentliche Wissenschaft und zugleich für die Theologie überhaupt aufzuzeigen Wahrheit erweist sich für die heutige
