TC Publication ,1968 **National Bureau of Standards Miscellaneous Publication** ,1932 **Modern Developments in Powder Metallurgy** Henry H. Hausner,2012-12-06 Five years ago the worldwide powder metallurgy fraternity gathered in New York City to attend the first international conference devoted entirely to powder metal lurgy to take place in the United States It was a tentative venture entered into by the sponsors with no idea as to whether it would fail or succeed The only assurances we had were that the metal powder producing and consuming industries were rapidly expanding and that powder metallurgy was truly becoming one of the international sciences The 1960 Conference was successful not only in terms of attendance and interest but also in terms of knowledge gained The literature had been enriched by the contributions of its participants to foster and encourage this type of world wide exchange Thus another such

conference was held in 1965 expanded in scope and supplemented by an exhibition of the latest advances in raw materials processing equipment and finished products of powder metallurgy On behalf of the Conference sponsors the Metal Powder Industries Federa tion the American Powder Metallurgy Institute and the Metallurgical Society of AIME I thank all those who participated and who helped make the 1965 Interna tional Powder Metallurgy Conference a rewarding experience and memorable event in our industry s history Support of the National Science Foundation which made it possible for several speakers from abroad to participate in the program is gratefully acknowledged
