

A scenic landscape featuring a winding road that curves along a body of water. The sky is filled with soft, golden light from a low sun, creating a warm, hazy atmosphere. The foreground shows a dark, textured surface, possibly a path or a field, with some light-colored patches. The overall mood is contemplative and serene.

Killosophy Criss Jami, 2015-01-08 Killosophy is 2 books in 1 Killing Knowledge is a book of aphorisms all created in and beyond the world of philosopher Criss Jami Loving Wisdom is a book of poetry and a lyrical experiment birthed from the universe of songwriter Criss Jami **My Story of the War** Mary Ashton Livermore, 1890 Be My Knife David Grossman, 2014-02-13 Impressive extraordinary and exotic the finest novel to date by a writer who has been for nearly two decades one of the most original and talented not only in his own country but anywhere New York Times Book Review Extraordinary lust frailty and fear are all laid bare the peeling away of lies and social restraints to disclose the naked soul is gripping Daily Mail We could be like two people who inject themselves with truth serum and at long last have to tell it the truth I want to be able to say to myself I bled truth with her yes that s what I want Be a knife for me and I I swear will be a knife for you An awkward neurotic seller of rare books writes a desperate letter to a beautiful stranger whom he sees at a class reunion This simple lonely attempt at seduction begins a love affair of words between Yair and Miriam two married middle aged adults dissatisfied with their lives yearning for the connection that has always eluded them and eventually reawakened to feelings that they thought had passed them by Their correspondence unfolds into an exchange of their most naked confessions of desire childhood tragedies joys and humiliations Through the dialogue between Yair a family man and surprisingly successful adulterer whose guarded letters reveal a life of duplicity and Miriam at first deceptively open and warm who fills her life with distraction to avoid a past full of painful secrets BE MY KNIFE explores the nature and the limits of intimacy **Sixteen Million One** Patrick M. Regan, 2015-12-03 Sixteen million people have died in civil wars in the past 50 years In view of that civil wars may be the single most destabilizing force in world politics today The only greater killer is the suffering that pushes individuals into them Civil wars create regional and global instability that threatens economic initiatives and political continuity Preventing civil wars is a challenge that the policy community is ill equipped to handle Rwanda is an example a tragedy that the world did nothing to stop Iraq and Afghanistan are tragedies the world did much to inflame This book uses argument evidence and intuition born of experience to provide an account of civil wars and the steps we can take to reduce them The Conspiracy Theory Fraud Jose M. preferring to bore each other they had gravitated together in easy arm chairs before the big Renaissance fireplace Steingall sunk in his collar from behind the black rimmed spectacles which with their trailing ribbon of black gave a touch of Continental elegance to his cropped beard and colonel s mustaches watched without enthusiasm the three mammoth logs where occasional tiny flames gave forth an illusion of heat Quinny as gaunt as a militant friar of the Middle Ages aware of Steingall s protective reverie spoke in desultory periods addressing himself questions and supplying the answers reserving his epigrams for a larger audience At three o clock De Gollyer entered from a heavy social performance raising his eyebrows in salute as others raise their hats and slightly dragging one leg behind He was an American critic who was busily engaged in discovering the talents of unrecognized geniuses of the European provinces When reproached with his migratory enthusiasm he would reply with that quick stiffening military click with which he always delivered his bons mots My boy I never criticize American art I can t afford to I have too many charming friends At four o clock which is the hour for the entr_e of those who escape from their homes to fling themselves on the sanctuary of the club Rankin the architect arrived with Stibo the fashionable painter of fashionable women who brought with him the atmosphere of pleasant soap and an exclusive smiling languor

Secrets of a Parallel Universe Roy Masters,1992 The notion of a parallel universe has intrigued the human mind for millennia This book however is not about science fiction it is about real life Indeed Jesus Christ himself the most real human being that ever existed spoke of the Kingdom of Heaven almost as though it were another dimension a parallel universe

My Story of the War Mary A. Livermore,1889 *The Fourth Political Theory* Aleksandr Dugin,2012 The bulk of the text in this book was published as Chetvertaia politicheskaja teoriia which was

published in St Petersburg in 2009 by Amphora The text has been revised by the author and additional chapters have been added to this edition from other writings by Professor Dugin which were published later dealing with the same theme A note from the editor **Carità** Margaret Oliphant,1877 Book The First, Chapters 14-16 ; Book The Second,Chapters 1-18 ; Appendix Pasquale Villari,1892 Star Bright and Three More Stories Bryce Walton,2023-09-03 This is a great collection of action short stories from The Golden Age of Science Fiction Featured here are four stories by Bryce Walton Star Bright The Sleeper is A Rebel Moon of Memory and Earth Needs a Killer **Journals of Ralph Waldo Emerson, with annotations edited by Edward Waldo Emerson, and Waldo Emerson Forbes** Ralph Waldo Emerson,1909 **The Life and Times of Niccolò Machiavelli** Pasquale Villari,1891 **Miscellaneous works of Edward Gibbon, esquire. With memoirs of his life and writings, composed by himself, with notes by John, lord Sheffield** Edward Gibbon,1837 **American Homoeopathist** ,1888 **The Miscellaneous Works of Edward Gibbon** Edward Gibbon,1837 **History of Modern Architecture** Leonardo Benevolo,1977 A serious and original study of the beginnings and development of modernism in which the pictorial aspects are designed to aid in the communication of the author s closely reasoned formulations Let it be said at once that the format of this work is richly handsome it is a two volume boxed set comprising 844 pages and well over 1 000 high quality illustrations and it reflects throughout its publisher s conviction that good design is an essential not superficial part of bookmaking Beyond that it should be emphasized that this work is not another facile cultural tour of modern architecture It is a serious and original study of the beginnings and development of modernism in which the pictorial aspects are designed to aid in the communication of the author s closely reasoned formulations rather than to gloss over a lack of substantive content The book is a translation of the third Italian edition published in 1966 Benevolo who is on the faculty of architecture in Venice has earned an international reputation as a historian of architecture and town planning and his publications embrace the span of time from the Renaissance to the foreseeable future One such publication The Origins of Modern Town Planning The MIT Press 1967 may be read as a prelude to the present work as well as an independent contribution Perhaps more than any other architectural historian in our time Benevolo has made a determined effort to place developments in design and planning in their proper social and political settings Indeed the author argues that the development of the modern movement in architecture was determined not by aesthetic formalisms but largely by the social changes that have occurred since about 1760 After the middle of the eighteenth century without the continuity of formal activity being in any way broken indeed while architectural language seems to be acquiring a particular coherence the relations between architect and society began to change radically New material and spiritual needs new ideas and modes of procedure arise both within and beyond the traditional limits and finally they run together to form a new architectural synthesis that is completely different from the old one In this way it is possible to explain the birth of modern architecture which otherwise would seem completely incomprehensible This second volume is concerned with the modern movement

proper from 1914 to 1966 The author emphasizes the unity of the movement rejecting the usual treatment that allots to the individual architects separate and unconnected biographical accounts Benevolo remarks at one point When one talks about modern architecture one must bear in mind the fact that it implies not only a new range of forms but also a new way of thinking whose consequences have not yet all been calculated His main concern is to provide a more exact calculation of those consequences
