Wimbush, 2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and tropes as African Americans From literature and the arts to popular culture and everyday life the Bible courses through black society and culture like blood through veins Despite the enormous recent interest in African American religion relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible

African Americans and the Bible is the fruit of a four year collaborative research project directed by Vincent L. Wimbush and funded by the Lilly Endowment. It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography, cultural history and biblical studies as well as art, music, film, dance, drama and literature. The focus is on the interaction between the people known as African Americans and that complex of visions, rhetorics and ideologies known as the Bible. As such, the book is less about the meanings of the Bible than about the Bible and meanings less about the worlds of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people constructs a text. It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general. Thus African Americans and the Bible provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed.

Gee's Bend William Arnett, 2006 In 2002 Gee's Bend burst into international prominence through the success of Tinwood's Quilts of Gee's Bend exhibition and book which revealed an important and previously invisible art tradition from the African American South. Critics and popular audiences alike marveled at these quilts that combined the best of contemporary design with a deeply rooted ethnic heritage and compelling human stories about the women. Gee's Bend: The Architecture of the Quilt is a major book and museum exhibition that will premiere at the Museum of Fine Arts, Houston (MFAH) in June 2006 before traveling to seven American museums through 2008. The book's 330 color illustrations and insightful text bring home the exciting experience to readers while displaying all the cultural heritage and craftsmanship that have gone into these remarkable quilts.

Quilt Culture Cheryl B. Torsney, Judy Elsley, 1994 As a blanket, a commemorative covering and a work of art, the quilt is a nearly universal cultural artifact. In recent years it has been recognized as one of our most compelling symbols of cultural diversity and the power of women. In this collection Cheryl B. Torsney and Judy Elsley bring together eleven provocative essays on the quilt as metaphor in literature, history, politics and philosophy. This interdisciplinary approach makes Quilt Culture an extraordinarily rich exploration of a cultural artifact whose meaning is far more complex than that of a simple bed covering.
