hasn't changed in the past ten years our understanding and awareness of treating people in a more caring way has changed substantially. With no cure on the immediate horizon, respectful care by effective and compassionate care partners is the only real treatment available to people with dementia. The Best Friends Approach is successful because it sustains people's connection to their world, their loved ones, and themselves. It's a universal program which has been embraced by professional and family caregivers throughout the United States, Europe, Asia, the Middle East, and South America. In its revised form, *A Dignified Life* offers caregivers an antidote to the burnout and frustration that often accompanies the role of caring for a person with Alzheimer's and dementia. Rather than struggling through a series of frustrations and failures, *A Dignified Life* shows the new generation care partners how to bring dignity, meaning, and peace of mind to the lives of both those who have Alzheimer's and dementia and those who care for them.
