Amadeus Mozart Im Film Co:

Mozart and the Nazis Erik Levi, 2011-02-01 A music historian uncovers Nazi Germany's use of Mozart as a WWII propaganda tool in this intriguing study that comprehends a range of vital topics Choice As the Nazi war machine expanded its bloody ambitions across Europe the Third Reich sought to promote a sophisticated and even humanitarian image of German culture through the tireless promotion of Mozart's music In this revelatory book Erik Levi draws on World War II era articles diaries speeches and other archival materials to provide a new understanding of how the Nazis shamelessly manipulated Mozart for their own political advantage Mozart and the Nazis also explores the continued Jewish veneration of the composer during this period while also highlighting some of the disturbing legacies that resulted from the Nazi appropriation of his work Enhanced by rare contemporary illustrations Mozart and the Nazis is a fascinating addition to the study of music history World War II propaganda and twentieth century politics

Remembering National Socialism in Austrian Post-war Film (1945-1955) Jakub Gortat, 2025-07-31 Entrenched in the myth of being victim of the Nazi aggression Austrian elites pursued a politics of memory that symbolically shook off any responsibility for the emergence development and consequences of National Socialism Authors of the vast majority of films produced early after 1945 were not interested in dealing with the recent Nazi past of their country There were however exceptions Through detailed analysis of the narratives stylistic patterns and reception of films that were set during or immediately after World War II this book explains how cinema corroborated Austrian national self stereotypes at the same time offering a critique of the Nazi regime

Austrian Information, 1994 [Living in the Limelight: Dynamics of the Celebrity Experience](#) Kylo-Patrick R. Hart, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2014 For the typical celebrity living in the limelight has never been particularly easy and it seems to be getting harder every day Although celebrity in the current century is similar to how it has been experienced in the past the widespread availability of the Internet and its endless innovative potentialities have certainly brought about changes and new challenges Today it is not uncommon for this seemingly desirable cult of personality to at times take on an unexpected life of its own sweeping unprepared celebrities along for the ride To enable readers to grasp the cumulative complexity of contemporary celebrity culture this book explores dynamics of the celebrity experience in recent centuries and up to the present day In doing so it explicitly analyses ever changing phenomena of relevance to the celebrity experience the importance and impact of fans and fandom's and the various pleasures and pitfalls that celebrities regularly encounter [Music after Hitler, 1945-1955](#) Toby

Thacker, 2017-07-05 The political control of music in the Third Reich has been analysed from several perspectives and with ever increasing sophistication However music in Germany after 1945 has not received anything like the same treatment Rather there is an assumption that two separate musical cultures emerged in East and West alongside the division of Germany into two states with differing economic and political systems There is a widely accepted view of music in West

Germany as free and in the East subject to party control Toby Thacker challenges these assumptions asking how and why music was controlled in Germany under Allied Occupation from 1945 1949 and in the early years of semi sovereignty between 1949 and 1955 The re education of Germany after the Hitler years was a unique historical experiment and the place of music within this is explored here for the first time While emphasizing political economic and broader social structures that influenced the production and reception of different musical forms the book is informed by a sense of human agency and explores the role of salient individuals in the reconstruction of music in post war Germany The focus is not restricted to any one kind of music but concentrates on those aspects of music professional and amateur live and recorded which appeared to be the mostly highly charged politically to contemporaries Particular attention is given to denazification and to the introduction of international music Thacker traces the development of a divide between Communist and liberal democratic understandings of the place of music in society The contested celebrations of the Bach Year in 1950 are used to highlight the role of music in the broader cultural confrontation between East and West Thacker examines the ways in which central governments in East and West Germany sought to control and influence music through mechanisms of censorship and positive support The book will therefore be of interest not only [Catalog of Copyright Entries](#) Library of Congress.

Nazi Films in America, 1933-1942 Harry Waldman, 2020-08-05 From 1933 until America's entry into World War II in 1941 nearly 500 Nazi films were shown in American theaters accounting for

nearly half of all foreign language film imports during the period These poorly disguised propaganda films were produced by Germany's top studios and featured prominent pro German and Nazi actors directors and technicians The films were replete with overt and covert anti Jewish imagery and themes but in spite of this obvious intent to use the medium to justify Nazi ascendancy viewers and film critics from such prominent publications as the New York Times Variety the Washington Post and the Chicago Times consistently overlooked the films anti Semitic message dubbing them harmless entertainment This is the complete history of German films shown in America from the founding of the Nazi government to America's involvement in the war Summaries descriptions and discussions of these almost 500 films serve to examine the major filmmakers and distributors who kept the German film industry alive during the rule of Hitler and the Third Reich Special emphasis is placed on films directly commissioned by Joseph Goebbels head of the German Ministry for the Enlightenment of the People and Propaganda and the man directly responsible for ensuring that the anti Semitic ideology of the new regime was reflected in all films produced after January 30 1933 Rarely seen photographs and illustrations complete an in depth study of the Nazi use of this global medium
