The Modernist Papers Fredric Jameson, 2016-02-16 Cultural critic Fredric Jameson renowned for his incisive studies of the passage of modernism to postmodernism returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity* *The Modernist Papers* is a tour de froce of anlysis and criticism in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries Jameson discusses modernist poetics including intensive discussions of the work of Baudelaire Rimbaud Mallarm Wallace Stevens Joyce Proust and Thomas Mann He explores the peculiarties of the American literary field taking in William Carlos Williams and the American epic and examines the language theories of Gertrude Stein Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression while the complexities of a late modernist representation of twentieth century politics are articulated in a concluding section on Peter Weiss s novel *The Aesthetics of Resistance* Challenging our previous understanding of the literature of this pperiod this monumental work will come to be regarded as the classic study of modernism

**Shakespeare and Impure Aesthetics** Hugh Grady, 2009-08-13 *Shakespeare and Impure Aesthetics* explores ideas about art implicit in Shakespeare s plays and defines specific Shakespearean aesthetic practices in his use of desire death and mourning as resources for art Hugh Grady draws on a tradition of aesthetic theorists who understand art as always formed in a specific historical moment but as also distanced from its context through its form and Utopian projections Grady sees *A Midsummer Night s Dream* *Timon of Athens* *Hamlet* and *Romeo and Juliet* as displaying these qualities showing aesthetic theory s usefulness for close readings of the plays The book argues that such social minded impure aesthetics can revitalize the political impulses of the new historicism while opening up a new aesthetic dimension in

the current discussion of Shakespeare      **A Philosophy of Walking** Frédéric Gros, 2023-07-11 This philosophical ode to finding joy in simple things explores how walking has influenced history's greatest thinkers from Henry David Thoreau and John Muir to Gandhi and Nietzsche. It is only ideas gained from walking that have any worth, Nietzsche. In this French bestseller, leading thinker and philosopher Frédéric Gros charts the many different ways we get from A to B: the pilgrimage, the promenade, the protest march, the nature ramble, and reveals what they say about us. Gros draws attention to other thinkers who also saw walking as something central to their practice. On his travels, he ponders Thoreau's eager seclusion in Walden Woods, the reason Rimbaud walked in a fury while Nerval rambled to cure his melancholy. He shows us how Rousseau walked in order to think while Nietzsche wandered the mountainside to write. In contrast, Kant marched through his hometown every day exactly at the same hour to escape the compulsion of thought. Brilliant and erudite, *A Philosophy of Walking* is an entertaining and insightful manifesto for putting one foot in front of the other.

*Defining Art* William E. Bray, 2007-05 In today's murky attempts to define art, we see countless articles entitled "Is this Art or What is Art?" Overlooked and forgotten is the definition of art simply provided by perhaps the founder of Western Civilization, Socrates. It is clearly stated in one of Plato's earliest Dialogues, *ION*. In it, Socrates playfully questions an arrogant young actor who claims all the credit for his achievement, citing his skills. Socrates instead suggests that he is chosen as a channel, one of a chain of divine messengers to deliver with force the message which came first to and through the poet Homer, the first in the chain. The listener/audience is the last in the chain who becomes a messenger himself to take the message out into the world. Socrates is defining art as a process whose origins and ultimate purpose is divine. It is often overlooked by actors who are urged to read Aristotle's *The Poetics*, a how-to manual for wannabe actors, for its oversimplified step 1-2-3 which sometimes leaves the field of drama saturated with uninspired and uninspiring aspirants. In the end, it provides an empty set of exercises, side-stepping the real nature of art which is essentially mysterious and religious. Author William E. Bray provides for the reader an introduction to the Socratic definition of art, a simple test for determining what art is, an introduction to and adaptation of Plato's Dialogue *ION*, and 12 of his reviews of movies which provide food for the soul. He brings *ION*, often neglected and ignored up to date.

**The Exquisite Corpse** Kanta Kochhar-Lindgren, Davis Schneiderman, Tom Denlinger, 2009-12-01 This work addresses historical and contemporary manifestations of poems, drawings, collages, and performance works that employ the ritual of the cadaver exquis.

*The First Moderns* William R. Everdell, 1997-05-15 Throughout the worlds of art and ideas of science and philosophy, Modernism was dawning, and with it a new mode of conceptualization.

*Apparitions, Daemons, and Emanations* Charles Freeland, 2024-03-01 The book presents a new study of the visual arts and poetry in the work of three well-known French writers and artists from the mid-twentieth century: Georges Bataille, Pierre Klossowski, and Henri Michaux. Each was fiercely independent, belonging to no school, academy, or political persuasion. What do they have in common? While the book's three central essays do not initially set out to establish comparisons between these writers, common ground emerges as

shared combat against culture a shared non representational artistic practice Their writing poetry and painting offer not a portrayal of things or ideas but rather an emanation or apparition of the unknown and the infinite one charged with deepening art's relation to life

**On Representation** Grant Hamilton, 2011-12 In this important new study Hamilton establishes and develops innovative links between the sites of postcolonial literary theory the fiction of the South African Australian academic and Nobel Prize winning writer J M Coetzee and the work of the French poststructuralist philosopher Gilles Deleuze Centering on the key postcolonial problematic of representation Hamilton argues that if one approaches the colonial subject through Gilles Deleuze's rewriting of subjectivity then a transcendent configuration of the colonial subject is revealed Importantly it is this rendition of the colonial subject that accounts best for the way in which the colonial subject is able to propose and offer instances of resistance to colonial structures of subjectification In elucidating this claim the study turns to the fiction of Coetzee Offering unique Deleuzian readings of three of Coetzee's most theoretically beguiling novels *Dusklands* *Waiting for the Barbarians* and *Foe* *On Representation* will prove to be essential reading to those interested in Coetzee studies the literary terrain of Deleuze's philosophy and those engaging with contemporary debates in postcolonial literature and theory

**Deleuze and the Cinemas of Performance** Elena del Rio, 2012-05-31 The first study of the interface between Deleuzian theory and film performance

**A New History of French Literature** Denis Hollier, 1998-08-19 This splendid introduction to French literature from 842 A D to the present decade is the most imaginative single volume guide to the French literary tradition available in English

**The Politics and Poetics of Everyday Life** Kristin Ross, 2023-05-02 Using the concept of the everyday as a lever for social transformation The texts in this volume represent Kristin Ross's attempt to think the question of the everyday across a range of discourses practices and knowledges from philosophy to history from the visual arts to popular fiction all the way to the forms taken by collective political action in the territorial struggles of today If everyday life is as many have come to believe the ideal vantage point for an analysis of the social it is also the crucial first step in its transformation The volume opens with a return to Henri Lefebvre's powerful attempt to use the everyday as both residue and resource as the site of profound alienation and by the same token the site where all emancipatory initiatives and desires begin The second section focuses on our attempts to represent our lived reality to ourselves in cultural forms from painting and literature and film to an analysis of the contemporary transformations of the sub genre most embedded in the deep superficiality of everyday life detective fiction The final section turns to present day ecological occupations in the wake of the *zad* at Notre Dame des Landes and locates the everyday as a site for rich oppositional resources and immanent social creativity

**The Oxford Guide to Literature in English**
