Politics, Personality, and Social Science in the Twentieth Century Harold Dwight Lasswell, 1969-08-15 Harold Lasswell is one of America's most distinguished political scientists a man whose work has had enormous impact both in the United States and abroad upon not only his own field but also those of sociology psychology and psychiatry economics law anthropology and communications This collection of essays is the first full scale effort to deal with the voluminous writings of Lasswell and explore his at once charming and baffling personality which is perhaps inseparable from the inventiveness unconventionality and unusual scope of his work The authors of these essays many of whom are former students or collaborators view their subject from a variety of perspectives What emerges is a full assessment of Lasswell's many faceted contribution to the social scholarship of his time

The History of the Social Sciences Since 1945 Roger E. Backhouse, Philippe Fontaine, 2010-05-24 The book covers the main developments in the social sciences after World War Two Chapters on economics human geography political science psychology social anthropology and sociology will interest anyone wanting short accessible histories of those disciplines they will also make it easy for readers to compare disciplines A final chapter offers a blueprint for writing the history of the social sciences as a whole drawing attention to the role of interdisciplinary work and to the importance of factors from the Second World War to the sixties and the fall of communism

Social Scientists and Politics in Canada Stephen Brooks, Alain-G. Gagnon, 1988-09-01 Social scientists have played many roles in Canadian politics since the Second World War Stephen Brooks and Alain Gagnon examine the forms and extent of social scientists involvement in the political process their relationship to the state and the complexities of their class position The unique development of the social sciences in Quebec and their relationship to Quebec nationalism are examined and distinctions between development in this community and in the predominantly anglophone community of the rest of Canada are contrasted

Political Science American Political Science Association. Meeting, 1986 If at one time we thought that the movement to science would yield unification of the discipline it is now apparent that there are many roads to science Still it is important for us to consider yet again what the appropriate goals are for our scientific enterprise What works in theory building induction and deduction prediction and control the search for useful principles to guide us examining these questions we can build a better science Political science has come so far as a discipline that different schools and scholars have different interpretations of science in the study of pol

The Blackwell Companion to

Social Movements David A. Snow, Sarah A. Soule, Hanspeter Kriesi, 2008-04-15 The Blackwell Companion to Social Movements is a compilation of original state of the art essays by internationally recognized scholars on an array of topics in the field of social movement studies Contains original state of the art essays by internationally recognized scholars Covers a wide array of topics in the field of social movement studies Features a valuable introduction by the editors which maps the field and helps situate the study of social movements within other disciplines Includes coverage of historical political and cultural contexts leadership organizational dynamics social networks and participation consequences and outcomes and case studies of major social movements Offers the most comprehensive discussion of social movements available **Social Capital and the Transition to Democracy** Gabriel Badescu, Eric Uslaner, 2004-06-01 The concept of social capital has been used by political scientists to explain both the transition to democracy in Eastern Europe and the decline of social cohesion in Western societies This edited collection presents the latest quantitative research on how post communist countries are adapting to Western models of society The book combines theoretical and institutional analysis with detailed case studies looking at Russia Poland Bulgaria Lithuania Romania and the former East Germany **Case Studies and Theory Development in the Social Sciences** Alexander L. George, Andrew Bennett, 2005-04-15 The use of case studies to build and test theories in political science and the other social sciences has increased in recent years Many scholars have argued that the social sciences rely too heavily on quantitative research and formal models and have attempted to develop and refine rigorous methods for using case studies This text presents a comprehensive analysis of research methods using case studies and examines the place of case studies in social science methodology It argues that case studies statistical methods and formal models are complementary rather than competitive The book explains how to design case study research that will produce results useful to policymakers and emphasizes the importance of developing policy relevant theories It offers three major contributions to case study methodology an emphasis on the importance of within case analysis a detailed discussion of process tracing and development of the concept of typological theories Case Studies and Theory Development in the Social Sciences will be particularly useful to graduate students and scholars in social science methodology and the philosophy of science as well as to those designing new research projects and will contribute greatly to the broader debate about scientific methods **Policy Studies and the Social Sciences** Stuart S. Nagel, Monograph of selected readings describing the potential contributions of various social sciences disciplines to decision making evaluation social research and general study of social policy examines the application methodology advantages and uses of applied mathematics economic theory geography the study of jurisprudence and law psychology political science social and cultural anthropology social philosophy and social theory Flow charts references and statistical tables **Handbook of Social Movements Across Disciplines** Conny Roggeband, Bert Klandermans, 2017-07-31 This book aims to revisit the interdisciplinary roots of social movement studies Each discipline raises its own questions and approaches the subject from a different angle or perspective The

chapters of this handbook are written by internationally renowned scholars representing the various disciplines involved. They each review the approach their sector has developed and discuss their disciplines contributions and insights to the knowledge of social movements. Furthermore each chapter addresses the unanswered questions and discusses the overlaps with other fields as well as reviewing the interdisciplinary advances so far.

Educating for Business, Public Service and the Social Sciences Peter Groenewegen, 2009 Tertiary economics and business education started early in Australia but was not organised on a faculty basis until the 20th century. Commerce and business teaching at Sydney University began in 1906 and from 1920 was taught in the Faculty of Economics together with public administration and accounting. Its progress for the next 80 years is chronicled in this comprehensive history of the Faculty of Economics. The book presents a broad overview of staff, students and courses of study during Depression, war, postwar reconstruction, student unrest and successful moves to add further Business studies. A prelude surveys the 19th century beginnings and the epilogue presents the varied education opportunities offered for the 21st century by the Faculty of Economics and Business.

The Social Contexts of Young People, 2024-02-14 This edited volume investigates young people within their social contexts. The focus is on engaging young people as they transition from youth into young adulthood. Key advantages of this book are its embodiment of interdisciplinarity in gathering research across a range of diverse methods, theories, settings and countries. The volume begins with reviews of key theories and methods in understanding young people within their social networked contexts of generosity, networks, identity and ethnic heritage. The second section includes chapters attending to education and work as contexts for transitions to adulthood, counseling, meaning and aesthetics from high school to college and into workplaces. The third section includes chapters studying community engagement and the well being of young people including social support, meaning in life, religiosity, spirituality, stress, coping, yoga and sports. The diverse topics addressed in this edited volume are generosity, philanthropy, voluntary action, social networks, social identity, personhood, ethnic heritage, post colonialism, intersectionality, personality, lived experiences, informal economy, sustainability, pandemic, family support, educational counselors, motivation, Not in Education, Employment or Training (NEET), everyday aesthetics, built environment, generativity, community, adult allies, youth engagement, life satisfaction, spiritual identity, religious affiliation, stress, practicing yoga, sexual violence, athletes, sports, climate pressures to perform, resilience and neurodiversity. Disciplines span economics, business education, sociology, psychology, medical science, geography, journalism, architecture, engineering, science and technology and applied sciences. Methods include quantitative surveys, qualitative in depth interviews, life course biographies, ethnographic case studies, bibliometric analysis and integrative reviews. Young people are investigated across thirteen countries including the United States, United Kingdom, Yemen, Ghana, Bahrain, Norway, Denmark, Finland, Sweden, Iceland, Canada, Romania and the Netherlands.
