Racial Justice, Policies and Courts' Legal Reasoning in Europe María Elósegui, Cristina Hermida, 2017-04-08 This volume looks at how courts and the police handle racial discrimination in Europe The chapters show that beyond legal technique neither the legislators nor the judges escape from their own emotions when responding to racial discrimination But as the authors point out emotions are not always negative They can also help in a positive way in judicial interpretation The study profiles five countries Germany UK Estonia Portugal and Spain Each of these belong both to the European Union and to the Council of Europe Coverage examines the responsibility of the public powers more specifically of the legislative and judicial power both of the police and of the judiciary in persecuting racist behavior In addition the authors also consider the increase in racism in groups of citizens The authors argue that racial justice is a proactive reinforcement of policies practices attitudes and actions that lead to equal access to opportunities for all After reading this book readers will gain a better understanding of the reasoning of legislators police and judges when dealing with racial discrimination in Europe today

Derecho, Estado y Constitución Antonio García Cuadrado, 2012-10-15 La presente obra consta de dos tipos de contenidos por una parte se trata de una exposición metodológica sobre la naturaleza y el estatuto científico del Derecho constitucional basada en la convicción de que los grandes problemas que hoy plantea la aplicación de esta disciplina científica están debidos a la falta de una correcta comprensión del significado y lugar del Derecho constitucional dentro del sistema de las ciencias La aceptación como un dogma indiscutible de los presupuestos filosóficos y científicos del positivismo jurídico ha llevado a mi juicio a una situación de grave confusión metodológica Difícilmente podrá clarificarse sin un sincero retorno a un orden científico coherente sistemático y completo en el que una específica concepción metodológica antropológica y metafísica sostenga de manera científica y no meramente ideológica los pilares del Derecho

y de la Ciencia política desde principios sólidamente asentados en una visión completa de la realidad El concepto fundamental que aquí se aplica es el de ciencia subalternada como corresponde a la naturaleza real y científica del Derecho y en particular del Derecho constitucional Contra lo que comúnmente se cree hoy la metafísica tradicional siempre ha sido consciente de que la unidad de la ciencia no convierte en positivas a las ciencias culturales o del espíritu En efecto una cosa es que el conocimiento científico por excelencia sea el de las ciencias experimentales y otra muy distinta que no pueda construirse verdadera ciencia sino sólo meras opiniones o conjeturas sobre las realidades producidas por la libertad humana El que las ciencias experimentales sean el modelo de desarrollo metodológico de todas las ciencias no supone que sobre la cultura y las manifestaciones del espíritu sólo sea posible cuantificar sociológicamente o elucubrar desde la propia ideología Basta para ello dejar claro que puede exigirse y que no a las ciencias culturales El segundo contenido de esta obra lo constituyen los restantes capítulos dedicados a la aplicación de aquellos presupuestos metodológicos a materias específicas como las fuentes del Derecho constitucional el concepto y fines del Estado o la Teoría de la Constitución y su desarrollo histórico Tratan éstos de ser una exposición crítica de determinadas cuestiones fundamentales de Teoría del Estado de Derecho constitucional general y de Historia constitucional aplicadas de manera específica al caso de España En absoluto pretende ser una exposición completa sobre estos temas Por ejemplo no hay aquí referencias a los llamados elementos del Estado ni a los tipos históricos de Estado Con estas salvedades esta parte del libro ha sido escrita procurando no dar nada por sabido y en este sentido pueden servir como ayuda para un primer acercamiento a estas materias a los estudiantes de grado o máster en ciencias jurídicas o políticas Confío en que a estos lectores pueda servirles como orientación dentro de un campo excesivamente amplio y a la vez excesivamente fragmentado por la falta de un enfoque unitario comúnmente aceptado
