Arts Matter:

The Arts Matter Royal Society of Arts, 1997 This collection of lectures from the RSA's Arts Matter series demonstrates the value and relevance of the arts. It presents a case for giving the arts sufficient prominence and influence and offers proven examples of the personal and social changes which the arts can facilitate. **Heidegger on Art and Art Works** J.J.

Kockelmans, 1985-04-30 This book grew from a series of lectures presented in 1983 in the context of the Summer Program in Phenomenology at The Pennsylvania State University. For these lectures I made use of notes and short essays which I had written between 1978 and 1982 during interdisciplinary seminars on Heidegger's later philosophy in general and on his philosophy of language and art in particular. The participants in these seminars consisted of faculty members and graduate students concerned with the sciences, the arts, literature, literary criticism, art history, art education, and philosophy. On both occasions I made a special effort to introduce those who did not yet have a specialized knowledge of Heidegger's philosophy to his later way of thinking. In this effort I was guided by the conviction that we as a group had to aim for accuracy, precision, clarity, faithfulness, and depth while at the same time taking distance, comparing Heidegger's views with ideas of other philosophers and thinkers, and cultivating a proper sense of criticism. Over the years it has become clear to me that among professional philosophers, literary critics, scholars concerned with art history and art education, and scientists from various disciplines there are many who are particularly interested in Heidegger's philosophy of art. I have also become convinced that many of these dedicated scholars often have difficulty in understanding Heidegger's lectures on art and art works. This is understandable. **Arts, Entertainment and Tourism** Howard Hughes, 2013-06-17

Transatlantic Reflections on the Practice-Based PhD in Fine Art Jessica Schwarzenbach, Paul Hackett, 2015-08-11 Once the US was the only country in the world to offer a doctorate for studio artists; however, the PhD in fine art disappeared after pressures established the MFA as the terminal degree for visual artists. Subsequently, the PhD in fine art emerged in the UK and is now offered by approximately 40 universities. Today, the doctorate is offered in most English-speaking nations, much of the EU, and countries such as China and Brazil. Using historical, political, and social frameworks, this book investigates the evolution of the fine art doctorate in the UK, what the concept of a PhD means to practicing artists from the US, and why this degree disappeared in the US when it is so vigorously embraced in the UK and other countries. Data collected through in-depth interviews examine the perspectives of professional artists in the US who teach graduate-level fine art. These interviews disclose conflicting attitudes toward this advanced degree and reveal the possibilities and challenges of developing a potential doctorate in studio art in the US.

The Trojan Horse Deborah Philips, Garry Whannel, 2013-08-29 The Trojan Horse traces the growth of commercial sponsorship in the public sphere since the 1960s its growing importance for the arts since 1980 and its spread into areas such as education and health The authors central argument is that the image of sponsorship as corporate benevolence has served to routinize and legitimate the presence of commerce within the public sector The central metaphor is of such sponsorship as a Trojan Horse helping to facilitate the hollowing out of the public sector by private agencies and private finance The authors place the study in the context of the more general colonization of the state by private capital and the challenge posed to the dominance of neo liberal economics by the recent global financial crisis After considering the passage from patronage to sponsorship and outlining the context of the post war public sector since 1945 it analyses sponsorship in relation to Thatcherism enterprise culture and the restructuring of public provision during the 1980s It goes on to examine the New Labour years and the ways in which sponsorship has paved the way for the increased use of private public partnerships and private finance initiatives within the public sector in the UK
