House of Horrors Agnieszka

Kotwasińska, 2023-06-15 This is a study of tumultuous transformations of kinship and intimate relationships in American horror fiction over the last three decades Twelve contemporary novels by ten women writers and two whose work has been identified as women's fiction are grouped into four main thematic clusters haunted houses monsters vampires and hauntings but it is social scripts and concerns linked directly to intimacy and family life that structure the entire volume By drawing attention to how the most intimate of all social relationships the family supports and replicates social hierarchies exclusions and struggles for dominance the book problematises the source of horror The consideration of horror narratives through the lens of familial intimacies makes it possible to rethink genre boundaries to question the efficacy of certain genre tropes and to consider the contribution of such diverse authors as Kathe Koja Tananarive Due Gwendolyn Kiste Elizabeth Engstrom Sara Gran and Caitlin R Kiernan

The Forest and the EcoGothic Elizabeth Parker, 2020-02-13 This book offers the first full-length study on the pervasive archetype of The Gothic Forest in Western culture. The idea of the forest as deep, dark, and dangerous has an extensive history and continues to resonate throughout contemporary popular culture. *The Forest and the EcoGothic* examines both why we fear the forest and how exactly these fears manifest in our stories. It draws on and furthers the nascent field of the ecoGothic, which seeks to explore the intersections between ecocriticism and Gothic studies. In the age of the Anthropocene, this work importantly interrogates our relationship to and understandings of the more-than-human world. This work introduces the trope of the Gothic forest as well as important critical contexts for its discussion and examines the three main ways in which this trope manifests: as a living, animated threat; as a traditional habitat for monsters; and as a dangerous site for human settlement. This book will appeal to students and scholars with interests in horror and the Gothic, ecohorror, and the ecoGothic, environmentalism, ecocriticism, and popular culture more broadly. The accessibility of the subject of *The Deep Dark Woods*, coupled with increasingly mainstream interests in interactions between humanity and nature, means this work will also be of keen interest to the general public.

The Psychodynamics of Trauma and Modern Horror Cinema Carlos Pitillas, Ismael Martínez-Biurrun, 2025-02-17 In this illuminating volume, Carlos Pitillas and Ismael Martínez-Biurrun provide in-depth analysis of contemporary horror films from a psychoanalytic perspective. Drawing on Freudian psychoanalysis, object relations theory, and relational psychoanalysis, the authors explore the ways in which horror films present different aspects of traumatic phenomenology and the re-emergence of unprocessed traumatic wounds. Covering films as diverse as *Psycho*, *The Babadook*, *Black Swan*, and *A Nightmare on Elm Street*, the authors dissect the use of symbolism and metaphors in popular horror cinema to show how the disruptive threats faced by characters in these films often function in the same way as post-traumatic stress disorder and consider behaviours such as repetitive thoughts and actions, dissociation, and more through the lens of neuroscience and narrative theory. This book is an important and novel read for all psychoanalysts in practice and training looking for new ways to understand and work with clients who have experienced traumatic life events. The authors' use of familiar and canonical horror films also equips students and researchers

of film studies with the knowledge necessary to integrate psychoanalytic theories into their work

America's Vacation Deficit Disorder William D. Chalmers, 2013-05-23 It is no secret that America is the No Vacation Nation Our vacations nowadays consist of nothing more than a few long weekends a year when we're not on staycations Workplace stress and burnout in America are at all time highs That Americans are over caffeinated and sleep deprived is not surprising given that our work-leisure balance is so severely lopsided Depression is epidemic Chalmers estimates that these seemingly isolated yet wholly interconnected cultural data points cost the U.S. economy a trillion dollars a year in lost productivity and may be shortening the life spans of Americans too But it wasn't always like this in America and it surely doesn't have to be either A stunningly well researched book offering readers an explanation of why Americans are suffering from an acute case of Vacation Deficit Disorder and what the unintended consequences mean to every American couple parents families workers bosses and our nation's economy It explains clearly why Americans don't travel and why they really should What really makes humans happy and offers profound insight into how the lucky few Americans who do take vacations can enjoy them better and reap their life enhancing benefits And it passionately explains how all Americans would benefit from his 4% Solution prescription This book offers a compelling American-centric cultural narrative that explains in great detail and with erudite analysis just who stole our vacation

History of U.S. Television Lawrence H. Rogers, 2000-07

The Spark of Fear Brian N. Duchaney, 2015-05-20 The horror genre is continually being reinvented as societal fears evolve As technology has developed and become ubiquitous in modern life horror films have effectively played upon our increasing reliance on technology as a source of anxiety Focusing on advancements from the advent of electricity to the Internet this book explores how technology ostensibly humanity's means of conquering fear and the unknown has become a compelling and abundant source of dread in horror films

Female Gladiators Sarah K. Fields, 2010-10-01 *Female Gladiators* is the first book to examine legal and social battles over the right of women to participate with men in contact sports The impetus to begin legal proceedings was the 1972 enactment of Title IX which prohibited discrimination in educational settings but it was the Equal Protection Clause of the U.S. Constitution and the equal rights amendments of state constitutions that ultimately opened doors Despite court rulings however many in American society resisted and continue to resist allowing girls in dugouts and other spaces traditionally defined as male

territories Inspired women and girls began to demand access to the contact sports which society had previously deemed too strenuous or violent for them to play When the leagues continued to bar girls simply because they were not boys the girls went to court Sarah K Fields s *Female Gladiators* is the only book to examine the legal and social battles over gender and contact sport that continue to rage today
