Exploring the Future of Christian Monasticisms Greg Peters,2020-01-15 The institution of monasticism in the Christian Church is in general decline at least in so called first world nations Though there are many reasons for this monastic leaders are confronted by the reality of fewer communities monks and nuns nonetheless At the same time many younger Christians are rediscovering the rich heritage of the monastic tradition Though they themselves might not be called to join a traditional

monastery they are eager to appropriate monastic practices in their own lives This had led to a movement known as the new monasticism or secular monasticism Despite lacking a unified vision and any central organization these new secular monastics are attempting in their own ways to carry on the tradition and practices of Christian monasticism As well there is a movement within historical Christian monasteries to pour new wine into old wineskins Traditional forms of monasticism are also generally flourishing in developing nations breathing new life into monasticism This volume looks at the current monastic landscape to assess where monasticism stands and to imagine ways in which it will grow in the future leading not only to a renewed Christian monasticism but to new monasticisms **Encyclopedia of Monasticism** William M.

Subject Guide to Books in Print ,1993 **British Books in Print** ,1985 *Desire and Mental Health in Christianity and the Arts* David Torevell,2023-08-21 This book considers the connection between the world of mental health in the twenty first century and the traditional concept of desire in Christianity and the Arts It draws parallels between the desire for rest from anxiety among mental health sufferers with the longing for peace and happiness in Religion and the Arts The author presents Biblical philosophical and theological insights alongside artistic ones arguing that desire for rest remains at the heart of spiritual living as well as mental health recovery The chapters draw from historical and contemporary voices including Plato Augustine of Hippo Julian of Norwich Gerard Manley Hopkins Simone Weil Samuel Beckett Tennessee Williams Jean Louis Chr tien Eric Varden and others The study demonstrates why longing continues to fascinate and grip

individuals creative endeavour and society at large not least in the development of the understanding of mental health It is valuable for scholars and advanced students of Christian theology and those interested in spirituality and the arts in particular

Finding the Monk Within Edward C. Sellner, 2008 *Finding the Monk Within* is written with the conviction that lying deep within every person and underlying much of contemporary western and eastern cultures is an ancient memory a vital archetypal energy related to monasticism and its spirituality This book recovers that monastic memory the living presence of the past for those who desire to name and incorporate monastic values values of solitude and silence faith and compassion friendship and mentoring contemplation and leadership itself The author examines the social and religious dimensions in the fourth century that gave rise to monasticism then looks at Christian leaders from late antiquity to the medieval period associated with monasticism in both East and West who have much to teach about monastic values and their relevance for today among them Antony the first monk Augustine and Jerome John Cassian Brigit of Kildare and early Celtic monasticism Gregory the Great Benedict and Scholastica and finally Bernard of Clairvaux By studying the history of monasticism and its great heroes we come to realize that for the Christian much of what we call monastic is purely and simply what being a follower of Christ is all about and that being a monk whether inside monastic enclosures or outside in the world is simply becoming the sort of person everyone ought to be a person who unites action and contemplation in the care of souls writes the author By becoming familiar with the stories and thought of these inspirational figures readers will be inspired to incorporate monastic perspectives and values into their own lives
