Biologists and the Promise of American Life Philip J. Pauly, 2018-06-05 Explorers evolutionists eugenicists sexologists and high school biology teachers all have contributed to the prominence of the biological sciences in American life In this book Philip Pauly weaves their stories together into a fascinating history of biology in America over the last two hundred years Beginning with the return of the Lewis and Clark expedition in 1806 botanists and zoologists identified science with national culture linking their work to continental imperialism and the creation of an industrial republic Pauly examines this nineteenth century movement in local scientific communities with national reach the partnership of Asa Gray and Louis Agassiz at Harvard University the excitement of work at the Smithsonian Institution and the Geological Survey and disputes at the Agriculture Department over the continent's future He then describes the establishment of biology as an academic discipline in the late nineteenth century and the retreat of life scientists from the problems of American nature The early twentieth century however witnessed a new burst of public oriented activity among biologists Here Pauly chronicles such topics as the introduction of biology into high school curricula the efforts of eugenicists to alter the breeding of Americans and the influence of sexual biology on Americans most private lives Throughout much of American history Pauly argues life scientists linked their study of nature with a desire to culture to use intelligence and craft to improve American plants animals and humans They often disagreed and frequently overreached but they sought to build a nation whose people would be prosperous humane secular and liberal Life scientists were significant participants in efforts to realize what Progressive Era oracle Herbert Croly called the promise of American life Pauly tells their story in its entirety and explains why now in a society that is rapidly returning to a complex ethnic mix similar to the one that existed for a hundred years prior to the Cold War it is important to reconnect with the progressive creators of American secular culture

Niedecker and the Correspondence with Zukofsky 1931-1970 Jenny Penberthy, 1993-09-24 The forty year correspondence between Lorine Niedecker and Louis Zukofsky is one of the closest and most productive in recent literary history Beginning in 1931 the correspondence was tutelary but it quickly grew into a collaborative enterprise of emotional and artistic significance for both poets This volume presents Niedecker's side of the correspondence It opens with a substantial introduction tracing the life and work of Niedecker and how her relationship with Zukofsky influenced her poetry At the same time Jenny Penberthy attempts to disengage Niedecker from her own myth of Zukofsky She examines the emergence of Niedecker's quiet but rigorously experimental poetry her rejection of hierarchies of genre structure and syntax and her questioning of relationships among author world and text Penberthy also reconstructs the

early years of Niedecker's career looking particularly at her surrealism and its impact on her poems The book is not only about the impact Zukofsky had on Niedecker's work it is also about a woman poet's struggle for recognition both within and without

The Hidden Holmes David Rosenberg (Professor of law), 1995 This bold book challenges a contemporary consensus on the titanic figure of Oliver Wendell Holmes Holmes is the acknowledged source of twentieth century tort law but David Rosenberg takes sharp issue with the current portrayal of Holmes as a legal formalist in torts who opposed the notion of strict liability and dogmatically advocated a universal rule of negligence primarily to subsidize industrial development Marshaling the evidence found in Holmes classic *The Common Law* and other writings the author reveals that the opposite was the case and in the process raises troubling questions about the present state of legal scholarship It was Holmes who founded the modern conception and justification of strict liability He envisioned an expansive role for strict liability to augment the negligence rule in preventing and redressing injury from industrial activity This recovery of Holmes theory of torts provides new insights into the nature of the jurisprudence that launched the American legal realist movement and also overturns standard interpretations of the history of tort law Rejecting the prevailing view that either strict liability or negligence reigned exclusively Holmes and his contemporaries reconciled the existence of both rules and advocated reforms of tort law to protect society from the unprecedented hazards of industrial life The parallel drawn by the book between their response and ours in grappling with the novel problem of mass torts confirms Holmes belief in the adaptive genius of the common law

Heroines of Horticulture Stefan White, 2024-10-28 A celebration and a salute to 100 brave determined creative women over the past few centuries who have shaped North America's heritage and landscapes through their horticulture work and contributions Through tales of invention creativity dogged research innovation perspiration and inspiration spanning from the early 1700s to the mid 1980s *Heroines of Horticulture* offers readers insight into 100 influential women who met and overcame obstacles to contribute a horticulture legacy that has helped shape the land that surrounds us today in North America Many of the featured women are unknown or forgotten figures of horticulture history making this book an overdue opportunity to acknowledge their work and celebrate their achievements that have left a lasting legacy Profiles include the following Martha Danielle Logan 1704 1779 An early American botanist who was instrumental in seed exchanges between Britain and the North American colonies She wrote an influential gardening advice column and was a major collector of plants endemic to the Carolinas Annie Linda Jack 1839 1912 The first Canadian professional female garden writer Upon her marriage she had stipulated for 1 acre of land to be devoted to any department of horticulture she chose the profits to be her own pocket money She wrote about her experiences in the *Rural New Yorker* under the title *A Woman's Acre* The American horticulturalist Liberty Hyde Bailey referred to Annie Linda Jack's garden as one of the most original gardens I know Mary Gibson Henry 1884 1967 An American botanist and plant collector from Lower Merion Township Pennsylvania near Philadelphia who also served as president of the American Horticultural Society The daylily

Hymenocallis henryae is named in her honor Nelva Weber 1908 1990 An American landscape architect who wrote extensively about landscape design She opened her practice in 1945 in New York City Prior to that she worked on the Palisades Parkway with C C Combs She was also employed by the architecture firm Shaw Maess Murphy and later as a designer on city parks for the New York City Parks Department And many more Heroines of Horticulture is the perfect addition to the shelves and coffee tables of gardening enthusiasts and women s history and feminist history readers and makes a great gift for anyone with a love of gardening or landscape design and history **Proceedings** American Association for the Advancement of Science,1899 Proceedings of the American Association for the Advancement of Science American Association for the Advancement of Science,1899 **[The correspondence] ; The correspondence of Charles Darwin. 14. 1866** Charles Darwin,2004
