Asian American Studies An Annotated Bi:

Asian American Studies Hyung-chan Kim, 1989-04-24 This exhaustive bibliography is the result of Kim's research of the Asian American experience for almost two decades. It contains some 3,396 entries in the social and behavioral sciences and the humanities arranged in chapters that address dozens of pertinent subjects and experiential areas. The main body of the work, the annotated bibliography, is divided into two major sections: Historical Perspectives and Contemporary Perspectives. Entries there are organized by topic rather than by ethnic group; the major literature of each topic receives a lengthier and more thorough annotation. In annotating doctoral dissertations, the emphasis is placed on research methodology and findings. An insightful introductory essay written by Shirley Hune enhances the reader's understanding of the Asian American experience within the context of the development of American scholarship on immigration and immigrants. To aid the student and researcher, each chapter has been subdivided into sections labelled Books and Monographs, Periodicals and Theses and Dissertations. The chapters cover such diverse topics as marriage and family, justice, law and politics, Japanese internment and Asian American Women's Studies among many others. This commendable and much anticipated volume fills an apparent need and will surely become an essential tool for scholars, students and researchers in Asian American studies. *In Defense of Asian American Studies* Sucheng Chan, 2005 *In Defense of Asian American Studies* offers fascinating tales from the trenches on the origins and evolution of the field of Asian American studies as told by one of its founders and most highly regarded scholars. Wielding intellectual energy, critical acumen and a sly sense of humor, Sucheng Chan discusses her experiences on three campuses within the University of California system as Asian American studies was first developed in response to vehement student demand under the rubric of ethnic studies. Chan speaks by turns as an advocate and an administrator striving to secure a place for Asian American studies as a teacher working to give Asian American students a voice and white students a perspective on race and racism and as a scholar and researcher still asking her own questions. The essays span three decades and close with a piece on the new challenges facing Asian American studies. Eloquent documentation of a field of endeavor in which scholarship and identity define and strengthen each other. *In Defense of Asian American Studies* combines analysis, personal experience and indispensable practical advice for those engaged in building and sustaining Asian American studies programs. **Asian American Studies** Jean Yu-wen Shen Wu, Min Song, 2000 This anthology is the perfect introduction to Asian American studies as it both defines the field across disciplines and illuminates the centrality of the experience of Americans of South Asian, East Asian, Southeast Asian and Filipino ancestry to the study of American culture, history, politics and society.
