National Infrastructure Advisory Council Intelligence Information

Sharing Final Report and Recommendations, Executive Summary The National Infrastructure Advisory Council NIAC set out to determine whether the right people are receiving the right intelligence information at the right time to support robust protection and resilience of the Nation's critical infrastructure More than 200 interviews and extensive open source research uncovered a wealth of insights on this complex problem First there have been marked improvements in the sharing of intelligence information within the Federal Intelligence Community and between the Federal Government and regions States and municipalities However this level of improvement has not been matched in the sharing of intelligence information between the Federal Government and private sector owners and operators of critical infrastructure Despite some notable successes this bi directional sharing is still relatively immature leaving a large gap between current practices and an optimal system of effective public private intelligence information sharing We observe that trust is the essential glue to make this public private system work Trust results when partner capabilities are understood and valued processes are tailored to leverage these capabilities and these processes are tested and proven valuable to all partners When breakdowns in information sharing occur it erodes trust and is counterproductive to risk management Information sharing is perhaps the most important factor in the protection and resilience of critical infrastructure Information on threats to infrastructure and their likely impact underlies nearly every security decision made by owners and operators including which assets to protect how to make operations more resilient how to plan for potential disasters when to ramp up to higher levels of security and how to respond in the immediate aftermath of a disaster We looked at intelligence information flowing from the Federal Government to critical infrastructure owners and operators as well as risk information flowing from critical infrastructure owners and operators to the government Our study reveals the complex ways information is gathered analyzed packaged and shared among government and the owners and operators of critical infrastructures In tackling this complex subject we examined the different stages of the intelligence cycle including requirements generation information collection analysis and dissemination To gather a variety of perspectives we conducted extensive interviews with security directors chief executives subject matter experts and government executives and managers Recognizing that distinct sector characteristics shape information sharing needs we conducted case studies of five sectors Commercial Facilities Healthcare and Public Health Energy Oil and Natural Gas Banking and Finance and Chemical While we found some information sharing approaches to be

effective others were not As a result we adopted a capability maturity approach which acknowledges that different Federal agencies have different abilities to share information effectively and we sought to build on what is working

Malaysia's State Formation Abdillah Noh,2024-01-26 This book comes up with the Contested Leviathan Framework to describe the essence of Malaysia s political economy The framework is developed from tracing Malaysia s political economy over approximately 157 years 1800 1957 and tested against the many issues confronting post colonial Malaysia Using concepts of timing sequence path dependence and increasing returns the book explains that Malaysia s political economy is the result of deep institutional processes not a contrived act that was hatched at the point of independence The book explains that whilst British administration made short term rational choices it failed to take into consideration the path dependent nature of policy choices and their long term unintended consequences that preserved Malaysia s terms of reference and produced autonomous communities with mutually exclusive political economic and social institutions These institutional qualities made it imperative for actors at some point to embark on some form of power sharing arrangement Applying the Contested Leviathan Framework the book explains that recent events the first electoral turnover in 2018 and the formation of a unity government in 2022 have done little to dismantle the character of Malaysia s political economy a state that still sees political economic and social life along ethnic imperatives driven by mutually exclusive institutions and interests A valuable read for scholars of Malaysian history and politics as well as for scholars of postcolonial state formation and public policy more broadly

Canadian Military Intelligence David A. Charters,2022-10-03 The most comprehensive history of Canadian military intelligence and its influence on key military operations Canadian intelligence has become increasingly central to the operations of the Canadian Armed Forces CAF Canadian Military Intelligence Operations and Evolution from the October Crisis to the War in Afghanistan is the first comprehensive history that examines the impact of tactical operational and strategic intelligence on the Canadian military Drawing upon a wide range of original documents and

interviews with participants in specific operations author David A Charters provides an inside perspective on the development of military intelligence since the Second World War He shows how intelligence influenced key military operations from domestic internal security to peacekeeping efforts to high intensity air campaigns including the October Crisis of 1970 the Oka Crisis the Gulf War peacekeeping and enforcement operations in the Balkans and the war in Afghanistan He describes how decades of experience innovation and increasingly close cooperation with its Five Eyes and NATO allies allowed Canada s military intelligence to punch above its weight Its tactical effectiveness and ability to overcome challenges reshaped the outlook of military commanders and intelligence emerged from the margins to become a central feature of military and defense operations Canadian Military Intelligence offers lessons from the past and critical implications for future intelligence support with the creation of the Canadian Forces Intelligence Command This book will be essential to both intelligence history and military history readers and collections **Living with the Enemy** Sandra Ott, 2017-06-26 This book reconstructs the trials and tribulations of the colorful individuals accused of collaboration with the Germans in southwestern France *Togo Business Intelligence Report Volume 1 Strategic Information and Opportunities* IBP USA, **Senegal Business Intelligence Report Volume 1 Strategic Information, Regulations, Contacts** IBP, Inc., 2017-11-30 Senegal Business Intelligence Report Practical Information Opportunities Contacts **United Arab Emirates Business Intelligence Report Volume 1 Banking & Financial Market Strategic Information and Important Regulations** IBP USA, 2013-08 United Arab Emirates Business Intelligence Report Practical Information Opportunities Contacts **British Spies and Irish Rebels** Paul McMahon, 2008 One of the Irish Times Books of the Year 2008 Rebellion partition and a messy peace settlement ensured that Ireland was a constant thorn in Britain s side after 1916 Britain was confronted by the bombs and bullets of militant republicans the clandestine intrigues of foreign powers and the strategic dangers of Ireland s wartime neutrality a final irrevocable step in the country s difficult transition to independence Using newly opened archives this book reveals for the first time how the British intelligence system responded to these threats It lifts the lid on the underground activities of Britain s secret agencies MI5 MI6 SIS and the Special Branch It puts secret intelligence in the context of the government s other sources of information and explores how deep rooted cultural stereotypes distorted intelligence and shaped perceptions And it shows how for decades British intelligence struggled to cope with Ireland but then rose to the challenge after 1940 largely because the Dublin government began to share its secrets The author casts light on characters long kept in the shadows IRA gunrunners Bolshevik agitators Nazi agents Irish loyalists who acted as British spies His compelling book fills a gap in the history of the British intelligence community and helps explain the twists and turns of Anglo Irish relations during a time of momentous change PAUL MCMAHON gained his PhD from Cambridge University **Fiji Business Intelligence Report Volume 1 Strategic and Practical Information** IBP USA, **China Medical and Pharmaceutical Industry Business Intelligence Report Volume 1 Strategic Information,**
