Allies Across The Border Mexicos Authentic Labor Front And Global Solidarity

Wesley C. Hogan

Allies Across The Border Mexicos Authentic Labor Front And Global Solidarity:

Allies Across the Border Dale A. Hathaway, 2000 North American workers find their jobs more pressured and precarious but turn on the television and find pundits praising the glories of the global economy Their counterparts south of the Rio Grande find themselves forced into the arms of global corporations that barely pay them their daily bread for work in dangerous plants that refuse to observe minimal safety or environmental standards No wonder inequality is increasing in both countries Although North Americans are told that Mexicans are stealing their jobs workers can find allies across the border Like the U S labor organizers in the early part of the 20th century who created the C I O in response to A F L corruption Mexico s F A T Frente Autentico del Trabajo or Authentic Workers Front is building a historic movement to create an alternative to Mexico s notoriously co opted labor unions and collusion with government international capital *Allies Across the Border* the first book on F A T analyzes this important group in the context of the globalization of capital and the necessary globalization of labor struggle Dale Hathaway shows how F A T s dedication to worker education and self management union independence and community development are key not only in Mexico but worldwide *Allies Across the Border* includes detailed descriptions of F A T s growth from its liberation theology origins through the Worker s Uprising and student movements of the late 60s Mexico s debt crisis of the 70s and 80s and F A T s work with women s groups peasants and consumer co ops in the 90s Hathaway s *Allies Across the Border* shows how F A T s dedication to worker s dignity offers lessons for North American workers who are fighting to keep corporations from pushing for greater exploitation of workers and environment in their home countries and worldwide Dale Hathaway is Associate Professor of Political Science at Butler University in Indianapolis *Globalization and Cross-border Labor Solidarity in the Americas* Ralph Armbruster-Sandoval, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company

Scales of Justice Nancy Fraser, 2013-04-24 Until recently struggles for justice proceeded against the background of a taken for granted frame the bounded territorial state With that Westphalian picture of political space assumed by default the scope of justice was rarely subject to explicit dispute Today the scope of justice is hotly contested as human rights activists and international feminists join critics of structural adjustment and the WTO in targeting injustices that cut across borders Seeking to re map the bounds of justice on a broader scale these movements are challenging the view that justice can only be a domestic relation among fellow citizens As their claims collide with those of nationalists and Westphalian democrats we witness new forms of meta political contestation in which the scale of justice is an object of explicit dispute Under these conditions there is no avoiding an issue that had once seemed to go without saying What is the proper frame for theorizing justice Faced with a plurality of competing scales how do we know which scale of justice is truly just *Scales of Justice* tackles this issue Interrogating struggles over globalization Nancy Fraser reconstructs the theory of justice for a post Westphalian world Revising her widely discussed theory of redistribution and recognition she introduces representation as a third political

dimension of justice which permits us to re conceive scale and scope as questions of justice Seeking to re imagine political space for a globalizing world she revisits the concepts of democracy solidarity and the public sphere the projects of critical theory the World Social Forum and second wave feminism and the thought of Habermas Rawls Foucault and Arendt

Populism in Twentieth Century Mexico Amelia M. Kiddle, María L. O. Muñoz, 2022-07-12 Mexican presidents Lázaro Cárdenas 1934-1940 and Luis Echeverría 1970-1976 used populist politics in an effort to obtain broad based popular support for their presidential goals In spite of differences in administrative plans both aimed to close political divisions within society extend government programs to those on the margins of national life and prevent foreign ideologies and practices from disrupting domestic politics As different as they were in political style both relied on appealing to the public through mass media clothing styles and music This volume brings together twelve original essays that explore the concept of populism in twentieth century Mexico Contributors analyze the presidencies of two of the century's most clearly populist figures evaluating them against each other and in light of other Latin American and Mexican populist leaders In order to examine both positive and negative effects of populist political styles contributors also show how groups as diverse as wild yam pickers in 1970s Oaxaca and intellectuals in 1930s Mexico City had access to and affected government projects The chapters on the Echeverría presidency are written by contributors at the forefront of emerging scholarship on this topic and demonstrate new approaches to this critical period in Mexican history Through comparisons to Echeverría contributors also shed new light on the Cárdenas presidency suggesting fresh areas of investigation into the work of Mexico's quintessentially populist leader Ranging in approach from environmental history to labor history the essays in this volume present a complex picture of twentieth century populism in Mexico **The International Defense of Workers** Kevin J.

Middlebrook, 2024-04-23 International trade agreements have often been criticized for limited attention to the rights of workers The North American Agreement on Labor Cooperation (NAALC) a side agreement to the North American Free Trade Agreement (NAFTA) stands out for linking labor rights provisions to a U.S. trade agreement Kevin J. Middlebrook provides a comprehensive and systematic examination of the NAALC assessing its efficacy in protecting workers' rights over the entire period it was in effect and demonstrating its broader significance for the role of trade and labor standards in U.S. foreign policy Placing the NAALC in comparative context Middlebrook considers various ways of promoting workers' rights and how other U.S. international trade agreements have influenced labor rights abroad He investigates the origins of the agreement the political controversies among Canada Mexico and the United States over its scope how the agreement operated in practice and its longer term policy legacies Middlebrook emphasizes the tension between state sovereignty and the international promotion of labor rights in the negotiation and implementation of trade agreements as well as how labor movements in one partner country can galvanize action in others Drawing on interviews with high level officials involved in the trade negotiations and previously unexamined primary sources *The International Defense of Workers* is a groundbreaking

analysis of the effects of U S trade agreements on labor rights North American Borders in Comparative Perspective Guadalupe Correa-Cabrera, Victor Konrad, 2020-04-07 The northern and southern borders and borderlands of the United States should have much in common instead they offer mirror articulations of the complex relationships and engagements between the United States Mexico and Canada In North American Borders in Comparative Perspective leading experts provide a contemporary analysis of how globalization and security imperatives have redefined the shared border regions of these three nations This volume offers a comparative perspective on North American borders and reveals the distinctive nature first of the overportrayed Mexico U S border and then of the largely overlooked Canada U S border The perspectives on either border are rarely compared Essays in this volume bring North American borders into comparative focus the contributors advance the understanding of borders in a variety of theoretical and empirical contexts pertaining to North America with an intense sharing of knowledge ideas and perspectives Adding to the regional analysis of North American borders and borderlands this book cuts across disciplinary and topical areas to provide a balanced comparative view of borders Scholars policy makers and practitioners convey perspectives on current research and understanding of the United States borders with its immediate neighbors Developing current border theories the authors address timely and practical border issues that are significant to our understanding and management of North American borderlands The future of borders demands a deep understanding of borderlands and borders This volume is a major step in that direction Contributors Bruce Agnew Donald K Alper Alan D Bersin Christopher Brown Emmanuel Brunet Jailly Irasema Coronado Guadalupe Correa Cabrera Michelle Keck Victor Konrad Francisco Lara Valencia Tony Payan Kathleen Staudt Rick Van Schoik Christopher Wilson The Concept of Other in Latin American Liberation Eugene Walker Gogol, 2002-01-01 In this exciting new study Eugene Gogol interweaves three strands that form the intellectual bedrock for the concept of the Other in the Latin American context Hegel s dialectic of negativity Marx s humanism and autochthonal emancipatory thought From this foundation the book explores the relation of liberatory philosophic thought to today s social and class movements Gogol considers the logic of capitalism on Latin American soil the ecological crisis in Latin America and the concept and practice of self liberation Still one of the most contested terrains of Latin American thought the Other has been of central concern for many luminary thinkers including Leopoldo Zea Octavio Paz and Jos Z Carlos Mari Otegui While these writers may not garner much publicity in the world press the highly public and ongoing struggles of the Zapatistas and Brazil s Landless Workers Movement demonstrate the continuing need to theorize the volatile nature of Latin American social reality Globalization, Social Movements, and the New Internationalism Peter Waterman, 2001-12-20 In a political climate where loose talk of a third way passes for political idealism Waterman s passionate book examines the possibilities for a new style global solidarity suited to complex capitalist modernity The author examines the past internationalism of Labour and socialists and the present one of radical democratic social movements discussing how the Left might build on this experience to recover a humanist and

emancipatory tradition of internationalism which would address our multiple global social problems *Varieties of World-making* Nathalie Karagiannis, Peter Wagner, 2007-01-01 Drawn from the elite ranks of sociology law international relations political philosophy and history this book cuts through polarized rhetoric to examine the global situation It proposes that the contemporary global network of business politics and culture be viewed from the inter disciplinary perspective of world making *Many Minds, One Heart* Wesley C. Hogan, 2013-01-22 How did the Student Nonviolent Coordinating Committee break open the caste system in the American South between 1960 and 1965 In this innovative study Wesley Hogan explores what SNCC accomplished and more important how it fostered significant social change in such a short time She offers new insights into the internal dynamics of SNCC as well as the workings of the larger civil rights and Black Power movement of which it was a part As Hogan chronicles the members of SNCC created some of the civil rights movement s boldest experiments in freedom including the sit ins of 1960 the rejuvenated Freedom Rides of 1961 and grassroots democracy projects in Georgia and Mississippi She highlights several key players including Charles Sherrod Bob Moses and Fannie Lou Hamer as innovators of grassroots activism and democratic practice Breaking new ground Hogan shows how SNCC laid the foundation for the emergence of the New Left and created new definitions of political leadership during the civil rights and Vietnam eras She traces the ways other social movements such as Black Power women s liberation and the antiwar movement adapted practices developed within SNCC to apply to their particular causes *Many Minds One Heart* ultimately reframes the movement and asks us to look anew at where America stands on justice and equality today **Labor Notes** , 2008 *The Children of NAFTA* David Bacon, 2004-03 This is a journalistic chronicle of contemporary labor wars and organizing on the United States Mexican border Based on gripping firsthand reports this book investigates the impact of the North American Free Trade Agreement on those who labor in the agricultural fields and maquiladora factories on the border *The Oxford Handbook of the Law of Work* , 2024-07-31 At the core of all societies and economies are human beings deploying their energies and talents in productive activities that is at work The law governing human productive activity is a large part of what determines outcomes in terms of social justice material wellbeing and the sustainability of both It is hardly surprising therefore that work is heavily regulated This Handbook examines the law of work a term that includes legislation setting employment standards collective labour law workplace discrimination law the law regulating the contract of employment and international labour law It covers the regulation of relations between employer and employee as well as labour unions but also discussions on the contested boundaries and efforts to expand the scope of some laws regulating work beyond the traditional boundaries Written by a team of experts in the field of labour law the Handbook offers a comprehensive review and analysis both theoretical and critical It includes 60 chapters divided into four parts Part A establishes the fundamentals including the historical development of the law of work why it is needed the conceptual building blocks and the unsettled boundaries Part B considers the core concerns of the law of work including the contract of

employment doctrines main protections in employment legislation the regulation of collective relations discrimination and human rights Part C looks at the international and transnational dimension of the law of work The final Part examines overarching themes including discussion of recent developments such as gig work online work artificial intelligence at work sustainable development amongst others *NAFTA and the Politics of Labor Transnationalism* Tamara Kay,2011-01-31 When NAFTA went into effect in 1994 many feared it would intensify animosity among North American unions lead to the scapegoating of Mexican workers and immigrants and eclipse any possibility for cross border labor cooperation But far from polarizing workers NAFTA unexpectedly helped stimulate labor transnationalism among key North American unions and erode union policies and discourses rooted in racism The emergence of labor transnationalism in North America presents compelling political and sociological puzzles how did NAFTA the concrete manifestation of globalization processes in North America help deepen labor solidarity on the continent In addition to making the provocative argument that global governance institutions can play a pivotal role in the development of transnational social movements this book suggests that globalization need not undermine labor movements collectively unions can help shape how the rules governing the global economy are made *The Decline of Labor Unions in Mexico during the Neoliberal Period* Roberto Zepeda,2021-01-28 This book examines the most significant factors accounting for the decline of union density during the neoliberal period focusing on the case of Mexico Union density which reflects the representation of labor unions in the employed labor force is one of the main indicators of union strength The relation of organized labor with the state and the political system are also considered The analysis is framed within a structure concentrated on cyclical structural and political institutional factors linked to labor union performance Over the last decades the transformations brought about by neoliberalism and democratization reshaped many features of the domestic political and economic model in Mexico Therefore an examination of these developments regarding the repercussions of the factors linked to union density decline is crucial *The Berkeley Undergraduate Journal* ,2006 Echanges Commerciaux Et la Protection Des Travailleurs Canadian Industrial Relations Association. Meeting, Frank Reid, International Industrial Relations Association. Regional Congress of the Americas,2003 *Building Transnational Networks* Marisa von Bülow,2010-09-13 Building Transnational Networks tells the story of how a broad group of civil society organizations came together to contest free trade negotiations in the Americas Based on research in Brazil Chile Mexico the United States and Canada it offers a full hemispheric analysis of the creation of civil society networks as they engaged in the politics of trade The author demonstrates that most effective transnational actors are the ones with strong domestic roots and that southern organizations occupy key nodes in trade networks The fragility of activist networks stems from changes in the domestic political context as well as from characteristics of the organizations the networks or the actions they undertake These findings advance and suggest new understandings of transnational collective action **The Global Workplace** Roger Blanpain, Susan Bisom-Rapp, William R. Corbett, Hilary K. Josephs, Michael J. Zimmer,2007-01-15 With the forces of

globalization as a backdrop this casebook develops labor and employment law in the context of the national laws of nine countries important to the global economy the US Canada Mexico UK Germany France China Japan and India These national jurisdictions are highlighted by considering international labor standards promulgated by the International Labor Organization as well as the rulings and standards that emerge from two very different regional trade arrangements the labor side accord to NAFTA and the European Union Across all these different sources of law this book considers the law of individual employment collective labor law dealing with unionization as well as the laws against discrimination the laws protecting privacy and the systems used to resolve labor and employment disputes This is the first set of law school course materials in English covering international and comparative employment and labor law *Z Magazine* ,2001

Allies Across The Border Mexicos Authentic Labor Front And Global Solidarity Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In todays fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Allies Across The Border Mexicos Authentic Labor Front And Global Solidarity PDF books and manuals is the internets largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process

and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Allies Across The Border Mexicos Authentic Labor Front And Global Solidarity PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Allies Across The Border Mexicos Authentic Labor Front And Global Solidarity free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
