**"The" Campaign Of Moscow** Robert Thomson, 1814      *An Unholy Alliance* Robert J. Higgs, Michael Braswell, 2004 An Unholy Alliance offers a dissenting view to the claim by a growing number of scholars that Sports are a new religion The last few years have seen a spate of books that might be classified by a genre called Sports Apologetics that is arguments defending or celebrating in one way or another the familiar and ongoing alliance in America between sports and religion Recently claims have been made by scholars that sports are an authentic religion in and of themselves They make this startling assertion not by showing connections with the teachings of Buddha Jesus Mohammed or Moses but by parallels between the rites of modern games and those of preliterate man that were religious in nature because they were designed to propitiate powers and to ward off evil for the tribes employing them In this evocative book Higgs and Braswell suggest that while sports may often be good things they are not inherently divine They do not focus on wide spread abuse in sports as evidence for their counterargument Rather they question the use of mythological parallels from prehistory as justification for viewing sports as a religion      **Records of North American Big Game** Boone and Crockett Club, 2005 The most complete big game records book available containing a listing of over 22 000 trophies the stories behind all the current World s Records trophies and hundreds of field and portrait photographs of the greatest big game animals ever taken

Aristophanes and the Poetics of Surprise Dimitrios Kanellakis, 2020-01-20 The purpose of this book is to examine the variety the mechanisms and the poetological intention of the effect of surprise in Aristophanic comedy addressing the phenomenon not as a self evident or unselfconscious element of comedy as a genre but as an elaborate system which characterises the style of the specific dramatist More precisely the book analyses Aristophanes most prominent verbal thematic and theatrical modes of surprise from a typological perspective and interprets them as comprising the key area in which the playwright claims and demonstrates his artistic superiority over rival genres and individual poets In line with this purpose two parallel aims of the book are to provide an original commentary on the passages under examination and to promote the study of modern performances a practice which has so far been either restricted to Classical Reception or only theoretically acknowledged if at all by mainstream philological scholarship This is a timely book on a topic of wide current interest across a range of interlocking disciplines emotion studies semiotics narratology information theory and most pertinently for this book humour research      **Dragon Alliance Dark Storm** J. **Alliance Security and Arms Control** Ronald Reagan, 1982 Fighting Talk Colin S. Gray, 2007-04-30 Gray presents an inventive treatise on the nature of strategy war and peace organized around forty maxims This collection of mini essays will forearm politicians soldiers and the attentive general public against many probably most fallacies that abound in contemporary debates about war peace and security While one can never guarantee strategic success which depends on policy military prowess and the quality of the dialogue between the two a strategic education led by the judgments in these maxims increases the chances that one's errors will be small rather than catastrophic The maxims are grouped according to five clusters War and Peace tackles the larger issues of strategic history that drive the demand for the services of strategic thought and practice Strategy presses further into the realm of strategic behavior and serves as a bridge between the political focus of part one and the military concerns that follow In Military Power and Warfare turns to the pragmatic business of military performance operations tactics and logistics Part four Security and Insecurity examines why strategy is important including a discussion of the nature dynamic character and functioning of world politics Finally History and the Future is meant to help strategists better understand the processes of historical change Fascist Italy at War James J. Sadkovich, 2025-03-27 Rather than a chronological account this history contains discussions of topics ranging from economics and diplomacy to industrial capacity and armored doctrine The author challenges claims that Italians were militarily incompetent by examining the influence of demography natural resources industrial capacity and Italy's allies on its war efforts during both world wars He also challenges assertions that ideology determined the choice of allies and formulation of military doctrine and arguments that Italy's war effort was negligible in world wars Based on primary and secondary sources this revisionist history contains seventy four tables and arguments rarely found in the literature in English

*History of the War in the Peninsula* Napier, 1844 *Bentley's Miscellany* Charles Dickens, William Harrison Ainsworth, Albert Smith, 1839 **Bentley's miscellany**, 1839 **Better Safe Than Sorry** Michael Krepon, 2009-01-02 In

2008 the iconic doomsday clock of the Bulletin of the Atomic Scientists was set at five minutes to midnight two minutes closer to Armageddon than in 1962 when John F Kennedy and Nikita Khrushchev went eyeball to eyeball over missiles in Cuba We still live in an echo chamber of fear after eight years in which the Bush administration and its harshest critics reinforced each other's worst fears about the Bomb And yet there have been no mushroom clouds or acts of nuclear terrorism since the Soviet Union dissolved let alone since 9 11 Our worst fears still could be realized at any time but Michael Krepon argues that the United States has never possessed more tools and capacity to reduce nuclear dangers than it does today from containment and deterrence to diplomacy military strength and arms control The bloated nuclear arsenals of the Cold War years have been greatly reduced nuclear weapon testing has almost ended and all but eight countries have pledged not to acquire the Bomb Major powers have less use for the Bomb than at any time in the past Thus despite wars crises and Murphy's Law the dark shadows cast by nuclear weapons can continue to recede Krepon believes that positive trends can continue even in the face of the twin threats of nuclear terrorism and proliferation that have been exacerbated by the Bush administration's pursuit of a war of choice in Iraq based on false assumptions Krepon advocates a back to basics approach to reducing nuclear dangers reversing the Bush administration's denigration of diplomacy deterrence containment and arms control As he sees it The United States has stumbled before but America has also made it through hard times and rebounded With wisdom persistence and luck another dark passage can be successfully navigated
