Almanac of African Peoples and Nations Mohamad Yakan, 2017-11-30 The peoples of Africa are neither ethnically culturally nor religiously homogeneous European colonial powers took little note of this reality in carving up the continent a fact reflected in the periodic outbreak of civil war since decolonialization Likewise Western European models of development whether in their liberal or Marxist manifestations have so far failed to meet African development needs The path to stability in Africa is through its people's character and goals Almanac of African Peoples and Nations provides an essential guide to the major ethnic groups of the African continent highlighting the major contributions and basic features of each The Almanac reviews Africa's language families and their respective national and geographic concentrations explaining ethnic classification based on linguistic difference and including language groups that are not indigenous to Africa The major African peoples are then listed by country with a statistical breakdown on their respective shares in the total population of each country and maps indicating their concentration The major section of the volume includes a comprehensive listing and descriptive profile of each ethnic national and tribal group detailing their history customs economic systems and political and social organizations. The Almanac points out as well which groups support revisionist political aspirations and shows the internal and external pressures they are subject to Yakan notes that African societies are not highly integrated and must support multitudes of influential sub cultures with conflicting agendas and loyalties Arguing that tribalism reflects Africa s historical experience and cultural heritage he sees the resolution of the continent's problems in consociational democracy proportional representation federalism or some form of autonomous rule **Almanac of African Peoples and Nations** Muḥammad Zuhdī Yakan, 1999 Almanac of African Peoples and Nations provides an essential guide to the major ethnic groups of the African continent highlighting the major contributions and basic features of each The major section of the volume includes a comprehensive listing and descriptive profile of each ethnic national and tribal group detailing their history customs economic systems and political and social organizations. N. Sangmpam,2017-03-08 This book proposes new avenues for understanding tribal allegiance in Sub Saharan Africa Much research on ethnicity and cultural pluralism in Sub Saharan Africa falsely equates the term tribe with ethnicity and obscures the differences between Sub Saharan Africa and other regions It also puts too much emphasis on the role of the colonial state in fostering tribal allegiance This book challenges these claims and offers an alternate way of understanding tribal allegiance in Sub Saharan Africa

Africa would likely have not existed But it s also one of the least understood conflicts of the era Over a century of Leftist bleating and insidious self serving revisionism first by Afrikaner nationalists and then by the apartheid regime has left the layman with a completely skewed view of the war Incredibly most people will tell you that the British attacked the Boers to steal their gold and that when the clueless red jacketed Tommies advanced under orders of bumptious incompetent British generals they were moved down in their thousands Others think of the conflict in terms of Britain against South Africa and many believe that the Boers actually won the war the marginally more enlightened explain away the Boer defeat by claiming it took millions of British troops to beat them or that it was only the genocide of the concentration camps which forced the plucky Boers to throw in the towel It's all bosh This book will take everything you thought you knew about the war and turn it on its head From Kruger's expansionist dream of an Afrikaans empire from the Zambesi to the Cape to the murder and devastation wrought on Natal by his invading commandos to the savage massacres of thousands of blacks committed by the gallant bitter einders the reader will have his eyes opened to the brutal realities of the conflict and be forced to reassess previously held notions of the rights and wrongs of the war Hard hitting and uncomfortable reading for those who do not want their bubble of ignorance burst Kruger Kommandos Kak exposes that side of the Boer War which the apartheid propaganda machine didn t want you to know about The African Studies Companion Hans M. Zell, 2006 This is an freely accessible version that has not been updated since July 2009 So some links will not work Pentecostal Exorcism Opoku Onyinah, 2019-05-21 Witchcraft and exorcism have long been dominant features of life in African cultures This unique book provides a thorough field research based description and analysis of a specifically Pentecostal Christian response to these phenomena within the Akan culture of Ghana Anthropological studies generally claim that the ultimate goal of exorcism is modernisation Using interdisciplinary studies with a theological focus the author takes a different view arguing that it is divinatory consultation or an inquiry into the sacred and the search for meaning that underlies the current deliverance ministry where the focus is to identify and break down the so called demonic forces by the power of God and to deliver people from their torment The deliverance ministry is one attempt to contextualise the gospel for African people However preoccupation with demonisation and exorcistic practices is found to bring Christianity into tension with the Akan culture family ties and other religions In order to develop a properly safeguarded ministry of exorcism in an African context the author examines contextualisation and suggests the integration into African Christianity of divinatory consultation which has strong resonances with the biblical concept of prayer The 'Civil Society' Problematique Adedayo Oluwakayode Adekson, 2004-03-01 This volume deftly undertakes both a theoretical deconstruction of the concept of civil society and related themes including civility and an empirical analysis of the radicalization process in Southern Nigeria **Africa** Iohn McIlwaine, 2007 First published in 1993 this is a new revised and substantially expanded edition of a highly acclaimed reference resource that evaluates the leading sources of information other than bibliographies on Africa South of the Sahara
