## **Along Parallel Lines A History Of The Railways Of New South Wales 1850 1986:**

**Along Parallel Lines** John Gunn, 1989 Railways have played an immense part in the history of New South Wales The parallel lines extended as the population grew and themselves made possible new settlement and new industries Railways crossed the mountain barriers that surround Sydney and opened up both the vast hinterland and the northern and southern coasts Railways joined every part of New South Wales to Sydney in a distinctive centralized pattern They also joined New South Wales to the neighbouring colonies and states

**Transporting Moments: Mobility, Australian Railways and the Trained Society** Colin Symes, 2015-04-06 Sociologists have suggested that being on the move entails a complex choreography comprised of passenger comportment signage announcements and posters Employing insights from mobility theory *Transporting moments* provides an account of railway culture from a passenger's perspective The book uses the context of commuting in Sydney at a time when elements of its intra urban rail network were being upgraded as its principal case study This upgrade covers its rolling stock infrastructure and linguistic landscape It is argued that understanding the rationale behind these changes requires an understanding of the historical and policy context in which the railways of Sydney's New South Wales and Australia are embedded This is also the case with the nation's long distance trains whose operators have fought hard to stave off competition from airliners and cars *Transporting moments* therefore presents strong case for preserving public transport as a more equitable and sustainable form of mobility Governments Australian or otherwise can use these insights for productive investment in their rail networks and public transportation service in general and for reducing the nation's addiction to the automobile With its invaluable insights into travelling on trains *Transporting moments* is a fascinating addition to the growing corpus of literature on day to day mobility
