America, Its Romance, Reality and Future, Volume 1 (Illustrations) Charles Reginald Enock, 2015-01-08 The purpose of this work is twofold to afford a broad survey of the Latin American countries with the colour and interest which so strongly characterizes this half of the New World and to offer in some degree a detailed study of the region as concerns what elsewhere I have ventured to term a science of humanity or science of corporate life whose main factors are topographical occupational or industrial and ethical or ethical economic New responsibilities are arising in our dealings and contact with foreign lands especially those whose social affairs are still backward We must beware how we regard the folk of such lands mainly as hewers of wood and drawers of water or absorbents of exported goods or producers of dividends or their lands as mainly reservoirs of raw material Elemental forces are at work in the world to day which only justice and constructive intelligence can control The English speaking peoples have wide interests and consequent responsibilities in these lands matters which are discussed in the final chapter As will be seen I have embodied many descriptive passages in this book from the various authors of the South American Series to which the present work is in a measure auxiliary *Along the King's Highway Or the Invisible Route* John Cornelius, 1912 *The Land We Live in: London & its neighbourhood, Kent and the South coast, and South Wales*, 1856 *Merchant Vessels of the United States...* United States.
