The Myth of Demilitarization in Costa Rica

Following the abolition of the Army, narratives celebrating Central America's most peaceful nation have masked a militarized policing model shaped by U.S.-sponsored counterinsurgency.

Costa Rica is regularly depicted as Central America's Switzerland to the extent that it has become a cliché. This image is the result of a decades-long self-fashioning effort through which the Costa Rican state has sought to make itself known as a place of stability, safety, and peace. And indeed, the country's record is outstanding, especially when compared to its Central American neighbors.

Yet since the abolition of the Army 75 years ago, the longstanding military pedigree of local law enforcement reveals the idea of "demilitarized" Costa Rica is more of a myth than reality.

Once its 44-day-long civil war concluded in April 1948, Costa Rica outperformed other Central American countries on the economic front and built a welfare state that is second to none in the region. Not unrelated, Costa Rica, together with Colombia, exhibits the longest democratic track record in Latin America. Maybe even more remarkably, the country has been an enclave of peace. This makes Costa Rica an outlier in a region whose recent past was tainted by violent internal strife and military dictatorships, infamous for their unaccountable state repression, severe human rights violations, and terrorizing of entire societies, at times with genocidal proportions.

Costa Rica's exceptional record of historical peacefulness and political stability is widely believed to have originated in a December 1, 1948 decision, when

a junta under the leadership of José Figueres Ferrer abolished the Costa Rican Army. Demilitarization, the story goes, ruled out the possibility of military coups and bloodshed. Decades later, President Óscar Arias Sánchez became a key player in resolving the Central American conflicts of the 1980s, receiving the Nobel Peace Prize in 1987 and bolstering Costa Rica's reputation as an island of peace.

"Costa Rica has made itself a center for the study of conflict resolution and prevention," said the World Bank's former chief economist Joseph Stiglitz in 2018. As Stiglitz praised the country's "progressive legacy," other voices noted that this legacy had come under increasing pressure. As crime rates mounted from the mid-2010s onwards, Costa Rica appeared to be catching up with Central America's violent norm. Some observers attribute the start of the country's security woes to Central America's 2007 free trade agreement with the United States, which allowed illicit economies to expand against the backdrop of neoliberal globalization and mounting social inequalities.

By 2015, local drug gangs, many allegedly with ties to Mexican and Colombian cartels, were clashing in Costa Rica, leaving 399 people dead that year. Costa Rica's homicide rate reached 11.5 per 100,000 residents in 2015—nearly double what it was in 2000. Then Deputy Chief of the Public Ministry Celso Gamboa stated that criminal groups had the
