**Alternate Generals III** Harry Turtledove, 2005-04-01 Once Again Great Leaders Make Great History but Not History as We Know It History shows that leadership is crucial in war but there are other factors at work What if history were given a twist or two and great commanders on land and sea fought their greatest battles under different circumstances Suppose General Douglas MacArthur had been captured before he could escape from Manila and became a prisoner of war Suppose Joan of Arc had not been burned for heresy and had gone on to lead France to very different victories Suppose Genghis Khan had been a convert to Judaism and his horde had fought for a different cause than in our universe Turtledove and his colleagues turn the past upside down and inside out and the possibilities are endless At the publisher's request this title is sold without DRM Digital Rights Management

**Alternate Generals II** Harry Turtledove, 2002 A collection of alternate history stories speculates about how world history would have been changed if the great battles from the Spanish Armada to Pearl Harbor had been fought under different circumstances

**Alternate Generals II** Harry Turtledove, 2002-07-01 LEADERSHIP MAKES ALL THE DIFFERENCE as history demonstrates But there are other factors at work Would Sir Francis Drake have as easily put paid to the Spanish Armada if a typhoon hadn't softened up the enemy first What if history were given a twist or two and great commanders on land and sea had more or fewer forces better or worse weather quicker or slower communications better supplies or none at all Just suppose for example General Billy Mitchell had not been court martialed for advocating air power and happened to be leading training flights of warplanes at Pearl Harbor in December 1941 As it happens to find out the answer to that question pick up the first book in the series Alternate Generals from Baen This new volume has even more fascinating speculations in alternate history science fiction turning history upside down and inside out as leaders who have made their mark on our history make different marks in a very different world The possibilities are endless At the publisher's request this title is sold without DRM Digital Rights Management

Advance and Retreat Harry Turtledove,2002-12-01 THE NORTH SHALL RISE AGAIN When Avram became King of Detina he declared he intended to liberate the blond serfs from their ties to the land This noble assertion immediately plunged the kingdom into a civil war that would prove long and bloody and set brother against brother The northern provinces dependent on their serf s labor seceded choosing Avram s cousin Grand Duke Geoffrey as their king To save the kingdom Avram sent armies clad in gray against the slave holding North battling Geoffrey s army arrayed in blue Though King Avram held more land and wealth than Geoffrey Geoffrey s men were better soldiers and the North had better and more powerful wizards Still as the war raged on greater population and superior organization began to tell and the tide turned against the North Even so the war is far from over The South still faces two formidable leaders General Bell whose loss of a leg has only strengthened his resolve and Ned of the Forest whose unicorn riders are the most dangerous force on the Northern side And though the Southern sorcerers have become more adept at war spells use of sorcery is unpredictable as the North learned earlier when its forces held an almost impregnable position but retreated in terror when an overconfident sorcerer s spell went awry Though victory seems in sight for the South its armies must now battle the North on its own ground ground which will prove treacherous and deadly At the publisher s request this title is sold without DRM Digital Rights Management

Council of War Fouad Sabry,2024-06-23 What is Council of War The term council of war comes from the field of military science and refers to a gathering that takes place in the midst of a conflict in order to make a decision regarding the next course of action Under typical conditions decisions are taken by a commanding officer which may or may not be communicated and coordinated by staff officers Subordinate officers

are then responsible for carrying out any choices that have been made. Councils of war are often convened in situations where decisions need to be made regarding subjects of significant significance for the purpose of reaching a consensus with subordinates or when the commanding officer is uncertain of his stance. The traditional council of war consists of a discussion followed by a vote which is typically conducted in the absence of the senior commander who may have been there to exert influence or threaten the subordinates. During these kinds of gatherings it is customary for the officers to vote in the opposite order of their seniority with the officers with less experience casting their ballots first.

[The Rise of the Roman Empire: An Alternative History, AD 375-641](#) Timothy Venning, 2025-05-30

Explores the rise of two empires through division, conflict, and eventual reunification, blending historical events with vivid narratives. An alternative history of success rather than decline and fall. The actual history is set out, and the alternative history with Old Time Lines (OTL) for reference. It is a vivid narrative, deeply researched, full of events and people, great and minor figures who come to life. It is a story of division and controversy concerning imperial and dynastic ambition and struggle, often caustic family relationships, cultural and religious disputes with surviving paganism, and the classical philosophy of Neo-Platonism and expanding Christianity in church and state in both Empires. The Empires are expanding in Europe, the Middle East, and Africa. Division and crisis is followed by restoration, more division, but finally reunification.

*Custer, the Seventh Cavalry, and the Little Big Horn* Mike O'Keefe, 2012-11-20

Since the shocking news first broke in 1876 of the Seventh Cavalry's disastrous defeat at the Little Big Horn, fascination with the battle and with Lieutenant George Armstrong Custer has never ceased. Widespread interest in the subject has spawned a vast outpouring of literature which only increases with time. This two-volume bibliography of Custer literature is the first to be published in some twenty-five years and the most complete ever assembled. Drawing on years of research, Michael O'Keefe has compiled entries for roughly 3,000 books and 7,000 articles and pamphlets. Covering both nonfiction and fiction, but not juvenile literature, the bibliography focuses on events beginning with

Custer's tenure at West Point during the 1850s and ending with the massacre at Wounded Knee in 1890. Included within this span are Custer's experiences in the Civil War and in Texas the 1873 Yellowstone and 1874 Black Hills expeditions the Great Sioux War of 1876-77 and the Seventh Cavalry's pursuit of the Nez Percés in 1877. The literature on Custer the Battle of the Little Big Horn and the Seventh Cavalry touches the entire American saga of exploration conflict and settlement in the West including virtually all Plains Indian tribes the frontier army railroading mining and trading. Hence this bibliography will be a valuable resource for a broad audience of historians librarians collectors and Custer enthusiasts.
