Designing Change Anna Valtonen, Petra Nikkinen, 2022-05-10 The world around us is changing We are constantly faced with challenges related to the environment technology and inequality How can design and design research help in addressing these issues With the help of design companies and organisations can tackle complex challenges that lie ahead thereby also facilitating change This book offers inspiring examples and practical tools for taking the first steps of change in our rapidly transforming operating environment The content also introduces opportunities that design research can offer as well as prompting new insights for change work in the reader s own organisation Join us in taking a step towards change The book s authors include 30 professors teachers and researchers at Aalto University

Alternative Futures and the Present Ranabir Samaddar, 2023-05-05 This book explores the idea that alternatives to our present condition are available in the present such that a search for alternatives must involve rigorous study of some of its central texts events and thinkers Through engagement with selected modern thinkers texts and events it imagines a different future from the position of the current postcolonial moment indicating the possibilities that emerge from the present and which shape contemporary radical thinking An invitation to imagine a possible future marked with alternative possibilities of conducting struggles and living through contentions and social restructuring it will appeal to scholars with interests in social and political theory political philosophy colonialism and postcolonialism and historical materialism

[] With Design: Reinventing Design Modes

Gerhard Bruyns, Huaxin Wei, 2022-11-05 This collection stems from the International Association of Societies of Design Research IASDR congress in 2021 promoting the research of design in its many fields of application Today's design finds itself at a critical moment where the conventional modes of doing thinking and application are increasingly challenged by the troubled ideology of globalisation climate change migration patterns and the rapid restructuring of locally driven manufacturing sectors The volume presents a selection of papers on state of the art design research work As rapid technological development has been pushing and breaking new ground in society the broad field of design is facing many unprecedented changes In combination with the environmental cultural technological and crucially pandemic transitions design at large is called to fundamentally alter its modes of practice Beyond the conventional models of conducting research or developing solutions to wicked problems the recoupling of design with different modes should be seen as an expression to embrace other capacities of thinking criticisms and productions This selection of proceedings papers delivers the latest insights into design from a multitude of perspectives as reflected in the eight thematic modes of the congress i.e. social making business critical historical projective impact pandemic and alternative with design modes The book benefits design researchers from both academia and industry who are interested in the latest design research results as well as in innovative design research methods In presenting an interesting corpus of design case studies as well as studies of design impact this comprehensive collection is of relevance to design theorists and students as well as scholars in related fields seeking to understand how design plays a critical role in their respective domains

Multidisciplinary Aspects of Design Francesca Zanella, Giampiero Bosoni, Elisabetta Di Stefano, Gioia Laura Iannilli, Giovanni Matteucci, Rita Messori, Raffaella Trocchianesi, 2023-12-30 This open access book gathers the contributions from the Design OPEN International Conference held in Parma Italy in May 2022 The conference explored the multidisciplinary aspects of design starting from its dimensions objects design as focused on the object on its functional and symbolic dimension and at the same time on the object as a tool for representing cultures processes the designer's self reflective moment which is focused on the analysis and on the definition of processes in various contexts spanning innovation social engagement reflection on emergencies or forecasting experiences design as a theoretical and practical strategy aimed at facilitating experiential interactions among people people and objects or environments and narratives making history representing through different media archiving narrating and exhibiting design The contributions which were selected by means of a rigorous international peer review process highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists

EDUCATION FOR SUSTAINABILITY -Volume I Robert V. Farrell, George Papagiannis, 2009-10-10 Education for Sustainability is a component of Encyclopedia of Human Resources Policy Development and Management in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Education for Sustainability provides the essential aspects and a myriad of issues of great relevance connection
