**David Priestland** 

#### **Alternative Culture Socialist Labor In Imperial Germany:**

The Alternative Culture Vernon L. Lidtke, 1985 Explores the social and cultural aspects of the German Social Democratic labor movement in the era between the 1860s and the outbreak of the First Wolrd War Society, Culture, and the State in Germany, 1870-1930 Geoff Eley, 1996 Bold new essays on Germany's critical Kaiserreich period History of the German Revolution William Pelz, 2018-06-20 In October 1918 war weary German sailors mutinied when the Imperial Naval Command ordered their engagement in one final fruitless battle with the British Royal Navy This revolt in the dying embers of the First World War quickly erupted into a full scale revolution that toppled the monarchy and inaugurated a period of radical popular democracy The establishment of the Weimar Republic in 1919 ended the revolution relegating all but its most prominent leaders to a historical footnote In A People's History of the German Revolution William A Pelz cuts against the grain of mainstream accounts that tend to present the revolution as more of a collapse or just a chaotic interregnum that preceded the country's natural progression into a republic Going beyond the familiar names of Karl Liebknecht Rosa Luxemburg or Clara Zetkins Pelz explores the revolution from the bottom up focusing on the active role that women rank and file activists and ordinary workers played in its events Rejecting the depiction of agency as exclusively in the hands of international actors like Woodrow Wilson or in those of German elites he makes the compelling case that for a brief period the actions of the common people shaped a truly revolutionary society The Formation of Labour **Movements, 1870-1914** Marcel van der Linden, Jürgen Rojahn, 1990 Spaces of Honor Heikki Lempa, 2021-08-16 Traces the development of German civil society through collective actions of honor Germany's Second Reich James Retallack, 2015-01-01 Despite recent studies of imperial Germany that emphasize the empire's modern and reformist qualities the question remains to what extent could democracy have flourished in Germany's stony soil In Germany's Second Reich James Retallack continues his career long inquiry into the era of Bismarck and Kaiser Wilhelm II with a wide ranging reassessment of the period and its connections with past traditions and future possibilities In this volume Retallack reveals the complex and contradictory nature of the Second Reich presenting Imperial Germany as it was seen by outsiders and insiders as well as by historians political scientists and sociologists ever since Shattered Past Konrad H. Jarausch, Michael Geyer, 2009-03-24 Broken glass twisted beams piles of debris these are the early memories of the children who grew up amidst the ruins of the Third Reich More than five decades later German youth inhabit manicured suburbs and stroll along prosperous pedestrian malls Shattered Past is a bold reconsideration of the perplexing pattern of Germany s twentieth century history Konrad Jarausch and Michael Geyer explore the staggering gap between the country's role in the terrors of war and its subsequent success as a democracy They argue that the collapse of Communism national reunification and the postmodern shift call for a new reading of the country's turbulent development one that no longer suggests continuity but rupture and conflict Comprising original essays the book begins by reexamining the nationalist socialist and

liberal master narratives that have dominated the presentation of German history but are now losing their hold Treated next are major issues of recent debate that suggest how new kinds of German history might be written annihilationist warfare complicity with dictatorship the taming of power the impact of migration the struggle over national identity redefinitions of womanhood and the development of consumption as well as popular culture. The concluding chapters reflect on the country s gradual transition from chaos to civility This penetrating study will spark a fresh debate about the meaning of the German past during the last century There is no single master narrative no Weltgeist to be discovered But there is a fascinating story Germany Donald S. Detwiler, 1999 This new edition of a best selling history of Germany to be told in many different ways originally published in 1976 includes the great watershed of 1989 90 and its aftermath With twelve maps a chronology of events and an updated bibliographical essay Germany A Short History provides a thorough introduction to German history from antiquity to the present Rosa Luxemburg: Socialism or Barbarism Rosa Luxemburg, 2010-09-06 Rosa Luxemburg s writings reveal one of the most brilliant and passionate minds drawn to the revolutionary socialist movement Through the letters pamphlets and theorising we see an outstanding social and economic theorist a dedicated political activist and a devoted confidant Providing an extensive overview of her writings this volume contains a number of items never before anthologised Her work was broad in scope tackling capitalism and socialism globalisation and imperialism history war and peace social struggles trade unions political parties class gender race the interconnection of humanity with the natural environment The editors provide an extensive and informative introduction outlining and evaluating her life and thought This is the most comprehensive introduction to the range of Rosa Luxemburg s thought **Imagining a Greater Germany** Erin R. Hochman, 2016-10 In Imagining a Greater Germany Erin R Hochman offers a fresh approach to the questions of state and nation building in interwar Central Europe Ever since Hitler annexed his native Austria to Germany in 1938 the term Anschluss has been linked to Nazi expansionism The legacy of Nazism has cast a long shadow not only over the idea of the union of German speaking lands but also over German nationalism in general Due to the horrors unleashed by the Third Reich German nationalism has seemed virulently exclusionary and Anschluss inherently antidemocratic However as Hochman makes clear nationalism and the desire to redraw Germany's boundaries were not solely the prerogatives of the political right Focusing on the supporters of the embattled Weimar and First Austrian Republics she argues that support for an Anschluss and belief in the gro deutsch idea the historical notion that Germany should include Austria were central to republicans persistent attempts to legitimize democracy With appeals to a gro deutsch tradition republicans fiercely contested their opponents claims that democracy and Germany socialism and nationalism Jew and German were mutually exclusive categories They aimed at nothing less than creating their own form of nationalism one that stood in direct opposition to the destructive visions of the political right By challenging the oft cited distinction between good civic and bad ethnic nationalisms and drawing attention to the energetic efforts of republicans to create a cross border partnership to

defend democracy Hochman emphasizes that the triumph of Nazi ideas about nationalism and politics was far from inevitable **The Socialist Manifesto** Bhaskar Sunkara, 2019-04-30 The success of Jeremy Corbyn's left led Labour Party and Bernie Sanders s 2016 presidential campaign revived a political idea many had thought dead But what exactly is socialism And what would a socialist system look like today In The Socialist Manifesto Bhaskar Sunkara editor of Jacobin magazine argues that socialism offers the means to achieve economic equality and also to fight other forms of oppression including racism and sexism The ultimate goal is not Soviet style planning but to win rights to healthcare education and housing and to create new democratic institutions in workplaces and communities The book both explores socialism's history and presents a realistic vision for its future A primer on socialism for the 21st century this is a book for anyone seeking an end to the vast inequities of our age The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review Christmas in Germany Joe Perry, 2010 Perry s work is original comprehensively researched and a major contribution to understanding the central importance of the evolution of a consumer culture in modern Germany The scholarship is sound impressive and provocative Rudy Koshar University of Wisconsin Madison Socialism and Modernity Peter Beilharz, 2009 This first collection of Peter Beilharz s highly influential thought traces the themes and problems manifestations and trajectories of socialism and modernity as they connect and shift over a twenty year period Woven throughout Beilharz's analysis is the urgent question of modern utopia how do we imagine freedom and equality in modernity The essays in this volume explore the relationship between socialism and modernity across the United States Europe and Australia from the mid 1980s to the turn of the twenty first century a time that witnessed the global triumph of capitalism and the dramatic turn away from Marxism and socialism to modernity as the dominant perspective According to

Beilharz we have seen the expansion of a kind of Weberian Marxism with the concept of revolution giving way to the idea of pluralized forms of power and the idea of rupture giving way to the postmodern sense of difference These changes come together with the discourse of modernism both aesthetic and technological Socialism and modernity Beilharz argues are fundamentally interrelated In correcting the conflation of Marxism Bolshevism and socialism that occludes contemporary political thinking he reopens a space for discussion of what socialist politics might look like now in the postcommunist postcolonial postmodern moment Before the Enemy is Within Our Walls Raymond Chien Sun, 2023-10-16 The following study exacmines the social cultural and political history of Catholic workers in the city of Cologne and its environs from 1885 to 1912 Specifically it treats the methods employed by the Catholic Church to isolate its working class members from Marxist Social Democracy by enclosing them within a clerically constructed and controlled social cultural miliue explores the beliefs and behaviors inculcated in this confessional environment and explains the causes of the Social Democratic Party's SPD conquest of Cologne in the 1912 Reichstag election **Constructing Modern Identities** Keith Pickus, 2017-12-01 By examining the lives and social dynamics of Jewish university students Pickus shows how German Jews rearranged their self images and redefined what it meant to be Jewish The emergence of Jewish student associations in 1881 provided a forum for Jews to openly proclaim their religious heritage By examining the lives and social dynamics of Jewish university students Keith Pickus shows how German Jews rearranged their self images and redefined what it meant to be Jewish Not only did the identities crafted by these students enable them to actively participate in German society they also left an indelible imprint on contemporary Jewish culture Pickus s portrayal of the mutability and social function of Jewish self definition challenges previous scholarship that depicts Jewish identity as a static ideological phenomenon By illuminating how identities fluctuated throughout life he demonstrates that adjusting one's social relationships to accommodate the Gentile and Jewish worlds became the norm rather than the exception for 19th century German Jews **Trade Unions and Community** Dorothee Schneider, 1994 Contains photocopies of the author's notes handwritten and in typescript as well as copies of newspaper articles letters and other research material used for the book published in 1994 under the same title Reforming the Moral Subject Tracie Matysik, 2018-07-05 Reforming the Moral Subject explores a movement known as ethics reform that flourished in Central Europe between 1890 and 1930 Tracie Matysik examines the works of German speaking intellectuals and activists moral philosophers sociologists legal theorists pedagogy specialists psychoanalysts sexual liberationists and others who discovered in the language of ethics a means to revitalize the public sphere Ethics reformers used the academic field of moral philosophy to contest public and state sponsored rhetoric that they thought equated morality with national loyalty religious tradition and repressive sexual mores They founded organizations and periodicals circulated brochures and hosted lectures and conferences all aimed at rethinking ethics for a secular modernity Arising in a context sharply influenced by materialism Darwinism and the advent of sexology ethics debates gradually focused not surprisingly on the role of

sexuality in definitions of ethics and of the moral subject Intellectuals and activists came to agree that sexuality was central to the formation of the moral subject Some viewed the moral subject as that individual who had learned to suppress sexual drives while others saw sexual drives and sexual autonomy as the source of moral energy and sentiment The association of sexuality with a wide and variegated discussion of ethics made the sexualized moral subject an open concept that could not be fully regulated confined or conflated with national identities Matysik's compelling intellectual and cultural history of ethics and moral subjectivity reframes the nature of German liberalism and intellectual activism from the end of the nineteenth century until the interwar period German Nationalism and Religious Conflict Helmut Walser Smith, 2014-07-14 The German Empire of 1871 although unified politically remained deeply divided along religious lines In German Nationalism and Religious Conflict Helmut Walser Smith offers the first social cultural and political history of this division He argues that Protestants and Catholics lived in different worlds separated by an invisible boundary of culture defined as a community of meaning As these worlds came into contact they also came into conflict Smith explores the local as well as the national dimensions of this conflict illuminating for the first time the history of the Protestant League as well as the dilemmas involved in Catholic integration into a national culture defined primarily by Protestantism The author places religious conflict within the wider context of nation building and nationalism The ongoing conflict conditioned by a long history of mutual intolerance was an integral part of the jagged and complex process by which Germany became a modern secular increasingly integrated nation Consequently religious conflict also influenced the construction of German national identity and the expression of German nationalism Smith contends that in this religiously divided society German nationalism did not simply smooth over tensions between two religious groups but rather provided them with a new vocabulary for articulating their differences Nationalism therefore served as much to divide as to unite German society Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton Assimilation and Community Jonathan Frankel, Steven I. University Press since its founding in 1905 Zipperstein, 2004-03-18 A thorough reassessment by fourteen leading historians of the supposed period of Jewish assimilation

Reviewing Alternative Culture Socialist Labor In Imperial Germany: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
