Creating a Modern Countryside James Murton,2011-11-01 In the early 1900s British Columbia embarked on a brief but intense effort to manufacture a modern countryside The government wished to reward veterans of the Great War with new lives soliders and other settlers would benefit from living in a rural community considered a more healthy and moral alternative to urban life But the fundamental reason for the land resettlement project was the rise of progressive or new liberal thinking as reformers advocated an expanded role for the state in guaranteeing the prosperity and economic security of its citizens This ideological shift pushed the government to intervene directly in the management of not only society but also the natural environment As most arable accessible land in British Columbia was already being farmed by 1919 the state had to undertake environmental engineering projects on a scale not yet attempted in the province **Creating a Modern Countryside** examines how this process unfolded identifies its successes and failures and demonstrates how the human environment relationship of the early twentieth century shaped the province as it is today **Contemporary China Review**

Socialist Modern Katherine Pence, Paul Betts, 2008 This book explores the ways in which modernity shaped the relationship between socialist state and society in East Germany The reunification of Germany in 1989 may have put an end to the experiment in East German communism but its historical assessment is far from over Where most of the literature over the past two decades has been driven by the desire to uncover the relationship between power and resistance complicity and consent more recent scholarship has tended to concentrate on the everyday history of East German citizens experience of life in East Germany with a particular view toward addressing the question what did modernity mean for East German state and society As such the collection moves beyond the conceptual divide between state level politics and everyday life so as to bring into sharper focus the specific contours of the GDR's unique experiment in Cold War socialism What unites all the essays is the question of how the very tensions around socialist modernity shaped the views memories and actions of East Germans over four decades the Cold War Eastern Europe the history of communism European social history and the history of everyday life gender history as well as modernity and socialist popular culture
